To Her Excellency

The Right Honourable Jeanne Sauvé,
P.C., C.C., C.M.M., C.D.,
Governor General and
Commander-in-Chief of Canada.

MAY IT PLEASE YOUR EXCELLENCY:

The undersigned has the honour to present to Your Excellency the Public Accounts of Canada for the year ended March 31, 1985.

All of which is respectfully submitted.

Robert de Cotret,
President of the Treasury Board.

OTTAWA, DECEMBER 5, 1985

To The Honourable Robert de Cotret,
President of the Treasury Board.

In accordance with the provisions of Section 55(1) of the Financial Administration Act, I have the honour to transmit herewith the Public Accounts of Canada for the year ended March 31, 1985, to be laid by you before the House of Commons.

Respectfully submitted,

Stewart D. McInnes,
Receiver General for Canada.

OTTAWA, DECEMBER 5, 1985

To The Honourable Stewart McInnes,
Receiver General for Canada.

Sir:

I have the honour to submit the Public Accounts of Canada for the year ended March 31, 1985.

Under Section 55(1) of the Financial Administration Act, the Public Accounts for each fiscal year shall be prepared by the Receiver General and shall be laid before the House of Commons by the President of the Treasury Board on or before the thirty-first day of December next following the end of that year, or if the House of Commons is not then sitting, within the first fifteen days next thereafter that the House of Commons is sitting.

This annual report is presented in three volumes:

Volume I—A survey of the transactions for the year including summary statements; the financial statements of Canada on which the Auditor General has expressed an opinion, namely, the statements of transactions, of revenue and expenditure on a gross and net basis, of the accumulated deficit, of the assets and liabilities of Canada and of the use of appropriations together with related notes; the observations by the Auditor General on the financial statements of Canada; analyses of outlays and appropriations; analyses of budgetary revenue and expenditure, and of asset and liability accounts, together with those statements required by the Financial Administration Act to be published in the Public Accounts, and various other schedules and statements.

Volume II—Details of the financial operations of the Government, segregated by department.

Volume III—Contains an annual consolidated report on the businesses and activities of all parent Crown corporations together with a listing of all Crown corporations and other corporate interests of Canada.

The audited financial statements, contained in Volume I, are for the year ended March 31, 1985. They are, however, dated September 16, to allow for the closing and audit of accounts.

Respectfully submitted,

R. V. Hession,
Deputy Receiver General for Canada.

OTTAWA, DECEMBER 5, 1985

INTRODUCTION TO THE PUBLIC ACCOUNTS

Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by Section 55 of the Financial Administration Act.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the accounts of Canada and from more detailed records maintained in departments and agencies. The accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department is responsible for agreeing its accounts to the control accounts of the Receiver General, and maintains detailed records of the transactions in those accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years.

Format of the Public Accounts

The Public Accounts is produced in three volumes.

Volume I

Volume I presents a summary and analysis of the financial transactions of the Government. The content of the sections of Volume I can be summarized as follows:

SECTION 1: summary statements of the financial transactions of the Government of Canada on both a Public Accounts and an Extended National Accounts basis;

SECTION 2: audited financial statements of the Government of Canada, prepared in accordance with Section 55 of the Financial Administration Act;

SECTION 3: observations by the Auditor General on the financial statements;

SECTION 4: review of envelopes and outlays, and Estimates and appropriations;

SECTION 5: review of budgetary revenue;

SECTION 6: review of budgetary expenditure;

SECTION 7: analysis of loans, investments and advances;

SECTION 8: analysis of specified purpose accounts;

SECTION 9: analysis of other liabilities;

SECTION 10: analysis of foreign exchange accounts;

SECTION 11: analysis of unmatured debt;

SECTION 12: analysis of other accounts reported on the Statement of Assets and Liabilities;

SECTION 13: supplementary information required by the Financial Administration Act; and,

SECTION 14: other miscellaneous information.

Volume II

Volume II presents the financial operations of the Government, segregated by department. It contains financial operations of individual departments and their associated agencies, and additional information and analysis.

(a) DEPARTMENTAL FINANCIAL OPERATIONS

In a fashion similar to the Estimates, Volume II uses a uniform set of statements to present each department's financial operations. In most respects, the level of detail is the same as in the Estimates, and provides the following information:

(i) Use of Appropriations

This is the principal departmental statement. It is a summary of the use of the authority given by Parliament in appropriation acts and other statutes. It displays, by program:

—the wording of the relevant appropriations or statutes;

—the amount authorized under each appropriation or statute;

—the total use made during the year of the authorized amounts;

—unexpended balances (amounts lapsed and carried forward) or amounts overexpended; and,

—total use for the previous year.

(ii) Total Cost of Programs—Budgetary

This table shows the total calculated cost for each program, by adding to budgetary expenditure, the values of services provided by other departments, and of accommodation provided by the reporting department and by the Department of Public Works, and by deducting non-tax receipts credited to revenue.

The total calculated program cost is also reflected in the Estimates and in the Public Accounts in the "Programs by Activity" table.

(iii) Programs by Activity—Budgetary

This is a comparison of budgetary appropriations with actual expenditures and the imputed costs and revenues referred to in (ii). The table displays total program expenditures by activity and type of vote, and total cost of programs by type of vote. It is related to the "Program by Activities" table displayed in the Estimates.

(iv) Grants and Contributions

This table displays details of amounts appropriated for grants and contributions, by class of recipients and by program, and the payments.

(v) Budgetary Expenditure by Program and Standard Object

This table presents expenditure by standard object and relates to the "Objects of Expenditure" table shown in the Estimates.

(vi) Revenue

Each department displays summary and detailed statements of revenue collected as part of its operations.

(vii) Revolving Funds

The commercial orientation of a revolving fund is reflected in the balance sheet and statement of operations, or income and expenditure, presented each year. A revolving fund's minimum goal is the recovery of cost, and most commercial accounting conventions are used to measure cost.

(viii) Other Entities

To further the objectives of the Government and of departments, various entities such as departmental corporations have been created by appropriation acts and other legislation. Financial statements for these entities are also shown.

(b) ADDITIONAL INFORMATION AND ANALYSIS

Further details are provided, in Volume II, to supplement the statements already presented. This supplementary information includes:

—accounts receivable and deletions (Section 30);

—professional and special services (Section 31);

—construction and acquisition of land, buildings, works, machinery and equipment (Section 32);

—payments of damage claims, ex gratia payments, Federal Court awards and nugatory payments (Section 33);

—selected miscellaneous payments and federal-provincial shared-cost programs (Section 34);

—grants and contributions (Section 35); and,

—miscellaneous statements by department (Section 36).

Volume III

Volume III contains an annual consolidated report on the businesses and activities of all parent Crown corporations together with a listing of all Crown corporations and other corporate interests of Canada.

INTRODUCTION

In this section, the financial transactions of the Government of Canada are set out in summary form, with comparative figures for the previous four years. The financial transactions are first presented according to the accounting policies explained in Note 1 to the audited financial statements in Section 2 of this volume, referred to as the Public Accounts presentation; the second presentation is on the National Income and Expenditure Accounts basis, extended to encompass other financial transactions affecting the Consolidated Revenue Fund. This second form of presentation is referred to as the Extended National Accounts presentation.

This section is intended to provide an overview of the Government's financial operations, both on the Public Accounts basis and on the Extended National Accounts basis. The Public Accounts presentation reflects the accounting procedures and conventions which have been adopted in providing Parliament with an accounting of the source and use of financial resources. The National Accounts transactions section of the Extended National Accounts presentation is designed primarily to facilitate economic analysis of the federal Government sector on a basis consistent with that used in measuring income and expenditure flows in the economy. The remaining sections show the relation between the traditional budget balance on the National Accounts basis and the Government's overall financial requirements, debt transactions and cash position.

Public Accounts Presentation

The "Summary Statement of Transactions" table provides aggregate data on the major categories of transactions under four main headings: budgetary, non-budgetary, foreign exchange and unmatured debt. The resulting cash position at the end of each year is also shown.

This year's Public Accounts presentation includes for the first time, Canadian Ownership Special Charge revenues in budgetary revenue; this treatment is consistent with the May 23, 1985 Budget presentation. On account of this reclassification of Canadian Ownership Special Charge revenues, however, the Public Accounts presentation differs from the Department of Finance's Economic Review and the Statement of Financial Operations published each month in the Canada Gazette, but is compatible with other sections of the Public Accounts.

For purposes of comparability, budgetary revenue and expenditure in this section treat Canada Post as a Crown corporation for all years. This corporation was proclaimed on October 16, 1981.

It should be noted that figures for budgetary and non-budgetary items in the Public Accounts presentation for 1980-81 have not been adjusted to take account of some minor changes in departmental responsibilities and classification of accounts which may have occurred. Most components are, however, comparable from one year to the next.

Extended National Accounts Presentation

This section presents the Government's financial transactions on the Extended National Accounts basis. As in the Public Accounts presentation, the transactions are categorized under four main headings: the traditional National Income and Expenditure Accounts which are referred to as National Accounts transactions, loans and other transactions, foreign exchange and unmatured debt transactions. The resulting cash position at the end of each year is also shown. Starting with the line entitled "Financial requirements (excluding foreign exchange transactions)", the Extended National Accounts presentation is identical to the Public Accounts presentation.

The total for loans and other transactions will differ from the non-budgetary transactions in the Public Accounts presentation due, in part, to differences in coverage. Loans to certain agencies such as Atomic Energy of Canada Limited, as well as advances to certain special funds, are excluded in arriving at the total of loans and other transactions on the Extended National Accounts presentation, because transactions of these agencies and special funds are included in the National Accounts transactions. Similarly, the receipts and disbursements of Government pension and social security accounts, such as the Unemployment Insurance Account, are included in the National Accounts. As a result, they are not included in the loans and other transactions adjustment. In determining the surplus or deficit on a National Accounts basis, certain revenue items, such as corporate income tax, are reflected on an accrual, as opposed to a cash basis. The loans and other transactions category includes the adjusting entry required to convert from an accrual basis of revenue and expenditure to a cash basis.

SUMMARY STATEMENT OF TRANSACTIONS—PUBLIC ACCOUNTS PRESENTATION

Total financial requirements, excluding foreign exchange transactions, amounted to $29,611 million for the year ended March 31, 1985. The budgetary deficit of $36,917 million was partially offset by a source of $7,306 million for non-budgetary transactions. Foreign exchange transactions decreased requirements by $2,233 million. Total financial requirements were $27,378 million in 1984-85. These transactions, together with the $26,824 million increase in unmatured debt, resulted in a $554 million reduction in the cash balance, bringing the March 31, 1985 cash balance to $5,858 million.

Table 1.1 sets out the financial transactions of the Government for the five years 1980-81 to 1984-85 on a comparable basis.

I. Budgetary Transactions

A. Revenue

Total budgetary revenue increased $7,006 million or 12.3% to $64,137 million in 1984-85. Tax revenue increased $6,333 million while non-tax revenue increased $673 million.

Personal income tax revenue increased $2,287 million or 8.5% compared to 2.4% in 1983-84. The growth in 1984-85 revenue was accounted for by personal income growth of 7.5% in 1984, the capping of the 1984 indexation factor at 5% and the lowering of the federal tax reduction to $100 from $200 in 1984.

Corporate income tax collections were $9,379 million in 1984-85 or $2,093 million above the 1983-84 level of $7,286 million. The growth in 1984-85 collections reflects two post-recession years of strong growth in corporate profits of 54.8% and 21.2% in 1983 and 1984 respectively.

On the energy side, 1984-85 revenue collections were slightly higher at $4,209 million compared to $4,036 million in 1983-84 as the setting of the Natural Gas and Gas Liquids Tax rate to zero, effective February 1, 1984, offsets the revenue gains from other energy taxes.

Revenues from the sales tax and customs import duties increased 16.1% and 12.3% respectively from the 1983-84 levels. A one percentage point increase in sales tax rates, effective October 1, 1984, and an increase in consumer and business spending in 1984 accounted for the increase in sales tax revenue while the increase in customs import duties reflects a strong increase in imports in 1984.

Non-tax revenue increased to $6,330 million in 1984-85 from the 1983-84 level of $5,657 million, reflecting a $624 million increase in interest on advances to the Unemployment Insurance Account. Profits from the Bank of Canada were also greater by $108 million.

B. Expenditure

Budgetary expenditure in 1984-85 increased 13.7% to $101,054 million, compared to increases of 11.1% in 1983-84 and 15.2% in 1982-83.

Public debt charges rose $4,405 million, or 24.3%, to $22,551 million in 1984-85, reflecting an increase in the unmatured debt outstanding during the year and higher interest rates.

National Defence expenditures rose $954 million, or 12%, to $8,926 million in 1984-85. This reflects the Government's North Atlantic Treaty Organization commitment to increase defence expenditures by about 3% in real terms per annum.

Old age security payments, including guaranteed income supplements and spouses' allowances, rose to $11,418 million or 9.7% above the level in 1983-84 of $10,406 million. This is above the increase in 1983-84 of 7.9% because of increased growth in the number of recipients and increases in the level of benefits. The increase in benefits includes guaranteed income supplement rate increases of $25 each on July 1, 1984 and November 1, 1984.

Contributions to the provinces for hospital insurance, medical care, and extended health care services increased 13.8%, or $766 million, to $6,330 million in 1984-85 reflecting a substantial retroactive payment in 1984-85. These Established Programs Financing (EPF) entitlements generally grow with the Gross National Product. The post-secondary education component of the EPF arrangements increased by $240 million to $2,492 million.

The Petroleum Compensation Account registered a deficit of $1,240 million in 1984-85, an increase of $757 million over the 1983-84 deficit of $483 million. The increase in the deficit occurred despite a November 1984 revenue rate increase of $17.50 per cubic metre. This rate increase was more than offset by an increase in petroleum compensation payments.

The Government's contribution to the Unemployment Insurance Account increased only 2.7% or $74 million, to $2,788 million as a result of average unemployment levels remaining about the same in both years. The effects of the recession and high unemployment levels through 1984-85 account for the 10.6% increase of $347 million in Canada Assistance Plan payments to $3,635 million.

II. Non-budgetary Transactions

A. Loans, Investments and Advances

In 1984-85, loans, investments and advances were a net source of $510 million, compared to a requirement of $673 million in 1983-84, for a net change of $1,183 million. This change includes a $200 million increase in the allowance for valuation.

Loans, investments and advances to Crown corporations designated as lending institutions decreased by $570 million, from a source of $122 million in 1983-84, to a source of $692 million in 1984-85, principally as a result of net repayments of $551 million by the Farm Credit Corporation and loan forgiveness of $308 million in the Mortgage Insurance Fund of the Canada Mortgage and Housing Corporation. There were higher net requirements for the Canada Deposit Insurance Corporation and the Federal Business Development Bank. Loans, investments and advances to other Crown corporations declined $581 million in 1984-85 reflecting principally a $660 million decrease in payments to Petro-Canada.

B. Specified Purpose Accounts

Specified purpose accounts provided a net source of $4,214 million in 1984-85 compared to a net source of $4,399 million in 1983-84. This decline of $185 million was in part attributable to $517 million higher net requirements for the Unemployment Insurance Account which had a requirement of $976 million in 1984-85. This increased requirement is attributable to a $741 million interest payment from the Account. The remaining $332 million change in the net source is, mainly attributable to the superannuation accounts ($440 million), partly offset by a $211 million reduction in the net source for deposit and trust accounts.

C. Other Transactions

Other transactions provided a net source of $2,582 million in 1984-85 compared to $3,105 million in 1983-84. The decrease of $523 million is principally attributable to cash in transit ($695 million).

III. Foreign Exchange Transactions

Foreign exchange transactions include the operations of the Exchange Fund Account, the objective of which is to assist in maintaining orderly conditions in the exchange markets and to effect foreign currency payments by various departments for the purchase of goods and services. Also included in foreign exchange transactions are subscriptions and notes payable to the International Monetary Fund, together with Special Drawing Rights. Total foreign exchange transactions provided a source in Canadian dollars of $2,233 million in 1984-85 compared to $168 million in 1983-84.

IV. Unmatured Debt Transactions

Marketable bonds payable in Canadian currency increased in 1984-85 by $12,379 million and Canada savings bonds by $3,756 million; net sales of Treasury bills amounted to $10,600 million. In total, net unmatured debt payable in Canadian currency increased by $26,824 million in 1984-85 compared to an increase of $26,618 million in 1983-84.

V. Cash Balance at End of Year

Financial requirements, including foreign exchange transactions, amounted to $27,378 million. This was largely financed by $26,824 million in unmatured debt transactions. The excess of the increase in financial requirements over unmatured debt resulted in a decrease in the cash balance at March 31, 1985 to $5,858 million, or $554 million below the March 31, 1984 level of $6,412 million.

SUMMARY STATEMENT OF TRANSACTIONS—EXTENDED NATIONAL ACCOUNTS PRESENTATION

The National Income and Expenditure Accounts were developed as a basis for economic analysis of income and expenditure flows in the economy. The concepts and definitions applied to the Government sector are consistent with those applied to other sectors and follow international practices developed under the aegis of the United Nations. The economic nature of a transaction is the determining factor in its classification within the National Accounts framework. The Extended National Accounts present, in addition to the traditional National Accounts revenue, expenditure and balance shown here under the heading "National Accounts transactions", the items which account for the difference between the National Accounts budget balance and total financial requirements on the Public Accounts basis.

In 1984-85, National Accounts transactions resulted in a deficit of $32,208 million. Loans and other transactions represented a net source of $2,597 million. Foreign exchange transactions decreased requirements by $2,233 million and unmatured debt transactions provided a source of $26,824 million. As previously noted, foreign exchange and unmatured debt transactions are identical to those reported in the Public Accounts presentation.

I. National Accounts Transactions

A. Revenue

On a National Accounts basis, total revenue increased $6,713 million or 9.3% in 1984-85. This compares with an increase of $7,006 million or 12.3% on a Public Accounts basis. The differences in growth rates relate to conceptual differences in treatment between the National Accounts and the Public Accounts.

These conceptual differences are mainly as follows:

(*a*) There are differences in the treatment of energy taxes. The petroleum compensation charge is included in revenue in the National Accounts but is excluded from revenue in the Public Accounts. In 1984-85, this item amounted to $2,291 million or 25% over the 1983-84 level.

(*b*) Direct taxes on persons in the National Accounts include employer-employee contributions to unemployment insurance and Government pension funds. These items, which are excluded from Public Accounts budgetary revenue, amounted to $9,658 million in 1984-85; this was 6% above the 1983-84 level of $9,114 million.

(*c*) Investment income on a National Accounts basis does not include profits from gold sales, which are included in the Public Accounts. However, in addition to the other "return on investments" categories of the Public Accounts, the National Accounts investment income includes interest on superannuation accounts and imputed banking services and is reduced by the amount of deficits of Government business enterprises. Interest on superannuation accounts, interest on loans and advances, imputed banking services and net profits of Government business enterprises amounted to $3,775 million, $2,265 million, $75 million and $1,738 million respectively in 1984-85, compared to $3,303 million, $2,220 million, $80 million and $1,113 million respectively in 1983-84. For these four categories together, the growth was $1,137 million in 1984-85 or 16.9%.

(*d*) In the National Accounts, corporate tax revenue is recorded on a liability basis rather than on the Public Accounts collection basis. In addition, the National Accounts amount includes the Petroleum and Gas Revenue Tax and the Incremental Oil Revenue Tax, which are reported as a separate item in the Public Accounts presentation of energy taxes. In 1984-85, corporate liabilities increased $1,093 million or 10.1% compared to an increase of $2,093 million or 28.7% for collections on a Public Accounts basis.

(*e*) In addition, the National Accounts include capital consumption allowances which are excluded from the Public Accounts. In 1984-85, capital consumption allowances amounted to $1,299 million or 10.5% above the 1983-84 level of $1,176 million.

With respect to the broad categories, direct taxes from persons on a National Accounts basis increased in 1984-85 by $2,310 million or 6.5%. As already indicated, corporate liabilities were up $1,093 million or 10.1%. Indirect taxes increased $1,931 million or 11.7% reflecting revenue increases across most indirect tax components. Investment income rose $1,137 million or 16.9%, reflecting higher interest earned on Government-held public funds and higher net remitted profits of Government business enterprises.

B. Expenditure

Federal Government expenditure on a National Accounts basis was $111,000 million in 1984-85, an increase of $13,638 million or 14% over 1983-84. This compares with an increase of $12,139 million or 13.7% on a Public Accounts basis. As with the revenue, the differences in value terms and growth rates reflect conceptual differences which are mainly as follows:

(*a*) In the National Accounts, petroleum compensation payments are recorded on a gross accrual basis. In the Public Accounts, the petroleum compensation account is recorded on a net basis with revenues credited to expenditures. On a National Accounts basis, petroleum compensation payments were $3,486 million in 1984-85 as compared to $2,263 million in 1983-84, for an increase of $1,223 million or 54%. This increase of $1,223 million was $466 million above the Public Accounts petroleum compensation account expenditure increase of $757 million.

(*b*) The National Accounts substitutes the expenditures of identified funds and agencies for Government transfers to these funds and agencies. Similarly, transfer payments to persons in the National Accounts expenditures include unemployment insurance benefits and public service pension payments instead of the Government's contributions to the Unemployment Insurance Account and pension funds. These unemployment insurance and pension benefit payments, which are not included in Public Accounts budgetary expenditure, amounted together to $12,464 million or 5.3% above the 1983-84 level of $11,803 million.

(*c*) Deficits of Government business enterprises are deducted in the National Accounts from revenue, while in the Public Accounts they are included in expenditures.

(*d*) The National Accounts expenditures exclude identified reserves or write-offs such as the provision for valuation which is included in budgetary expenditures.

(*e*) As with revenue, the National Accounts expenditures include capital consumption allowances which are excluded from Public Accounts expenditures.

Transfer payments to other levels of government increased to $20,361 million or 9.9% in 1984-85 compared with growth rates of 15% in 1983-84 and 10.8% in 1982-83. While payments under the taxation agreements decreased slightly by $51 million, or 0.9% to $5,665 million, federal contributions to the provinces for hospital insurance, medical care and post-secondary education increased 13.4% in 1984-85 to $7,586 million. Canada Assistance Plan payments to the provinces rose $293 million, or 8.8%, to $3,631 million in 1984-85 because of continuing high levels of unemployment. Other transfers to the provinces increased significantly mainly due to the payments for official languages education.

Transfer payments to persons increased $2,160 million or 7.6% in 1984-85 compared with rates of increase of 9.1% and 31.5% in 1983-84 and 1982-83 respectively. Old age security benefits grew 9.8%, or $1,008 million to $11,304 million in 1984-85. The increase in unemployment insurance benefits of 2.4% or $237 million to $10,120 million reflects slight declines in the number of beneficiaries and eligible benefit weeks offset by an increase in the average benefits paid. Following increases of 14.5% in 1982-83 and 13.8% in 1983-84, Government pensions for 1984-85 increased 9.5% to $1,848 million. The "other transfers to persons" category grew $661 million or 15.8% in 1984-85 due mainly to the Government's job creation programs and contributions to native peoples for the provision of education, economic and social services.

Total current goods and services grew 10% to $22,433 million which is between increases of 13.1% in 1982-83 and 6% in 1983-84. Defence goods and services expenditures increased $935 million, or 12.2%, in 1984-85, while non-defence goods and services expenditures increased $1,111 million, or 8.7%, to $13,817 million. Wages, salaries and supplementary labour income increased $495 million, or 4.7% to $10,956 million, while military pay and allowances increased $193 million, or 7.9%, to $2,633 million in 1984-85. Other current goods and services increased significantly by $1,235 million, or 19.6%, to $7,545 million in 1984-85, primarily due to military capital expenditures.

Interest on the public debt rose $4,329 million or 24% in 1984-85, compared to increases of 7.4% in 1983-84 and 13.2% in 1982-83, because of higher interest rates and an increase in outstanding debt.

The substantial increase in gross capital formation of 51.1%, or $965 million, to $2,852 million reflects the continuing impact of new capital projects under the Special Recovery Capital Projects Program introduced in the April 1983 Budget. The growth in 1984-85 in current transfers to non-residents of 20.7%, or $264 million, to $1,539 million, reflects the Government's commitment to Official Development Assistance.

Subsidies increased significantly in 1984-85 by $1,889 million or 32.2% to $7,762 million. This is explained by the increase of $160 million in 1984-85 for oil import compensation payments to $738 million, and by the increase in synthetic oil subsidies to $2,748 million which resulted from the depreciation of the Canadian dollar against the U.S. dollar and larger volume of oil qualifying for New Oil Reference Price subsidies. The other subsidies category grew 18.3% to $4,276 million mainly because of the western grain stabilization payments. In addition, capital assistance increased 5.2%, or $156 million, to $3,131 million in 1984-85 as the Petroleum Incentives Program payments were up compared to 1983-84.

II. Loans and Other Transactions

A. Loans, Investments and Advances

Loans, investments and advances, on an Extended National Accounts basis, were a source of $502 million in 1984-85, a change of $1,383 million from the 1983-84 requirement of $881 million. Loans to other governments and miscellaneous loans created a requirement of $806 million in 1984-85 and $1,332 million in 1983-84. Loans, investments and advances to lending institutions provided a source of $737 million in 1984-85 compared to $166 million in 1983-84.

B. Accrual Accounts

This category reflects mainly the difference between the modified cash recording on the Public Accounts basis and the accrual recording on the National Accounts basis. The category also records several items such as cash in transit, accounts payable and accrued interest; these items are generally of a capital nature and are not included in the National Accounts revenue and expenditure categories. These accrual accounts were a source of $1,287 million in 1984-85 as compared to $505 million in 1983-84.

C. Other Transactions

Other transactions provided a source of $808 million in 1984-85 compared to $706 million in 1983-84. This category includes the provincial tax collection agreements account, deposit and trust accounts, and other transactions that are not included in National Accounts revenue and expenditure.

PUBLIC ACCOUNTS AND EXTENDED NATIONAL ACCOUNTS RECONCILIATION

While the Public Accounts and the Extended National Accounts presentations result in the same total financial requirement figures, differences exist in the treatment of transactions in arriving at the budgetary surplus or deficit on a Public Accounts basis and the surplus or deficit on an Extended National Accounts basis. These differences are offset in the non-budgetary components of total financial requirements.

The reconciliation of transactions according to the two systems of accounts is set out in the tables that follow. The major factors which give rise to the need for a reconciliation are listed below.

The deficits of Government business enterprises which are outside the Government accounting entity are, for Public Accounts presentation purposes, met through budgetary appropriations and thus recorded as budgetary expenditure. In the National Accounts presentation, these deficits, including the deficit of the Canada Post Corporation, are netted against Government investment income.

Revenue in the Public Accounts is recorded on a cash basis. While the major portion of National Accounts revenue is accounted for on a cash basis, certain items, such as corporate income taxes and the oil export charges, are reported on an accrual basis.

Transactions of employee pension accounts and the Unemployment Insurance Account are treated as non-budgetary in the Public Accounts, although the Government's statutory contributions to these accounts and interest payments on the Government's liability to these accounts form part of budgetary expenditure. Employer and employee contributions to these accounts, plus any related interest income, form part of Government revenue in the Extended National Accounts presentation, and benefit payments form part of Government expenditure.

In the Public Accounts presentation, the purchase of capital assets such as buildings and machinery is recorded as a budgetary expenditure in the year of acquisition. Only newly produced capital assets and capital expenditures are included in National Accounts expenditure. Both Government revenue and expenditure include an allowance for the depreciation of capital assets in the latter framework while no such provision is made in the Public Accounts presentation.

The Extended National Accounts universe includes certain Government agencies which are not part of the Public Accounts universe. The actual financial transactions of those agencies form part of Extended National Accounts revenue and expenditure. Transfers and loans to these agencies are thus not accounted for in the Extended National Accounts presentation.

STATEMENT OF RESPONSIBILITY AND PREFACE TO THE AUDITED FINANCIAL STATEMENTS OF THE GOVERNMENT OF CANADA

The financial statements in this section were prepared by the Government of Canada in accordance with the accounting policies set out in Note 1 to the statements, and on a basis consistent with that of the preceding year, after giving retroactive effect to the change in accounting policies described in Note 2. The fundamental purpose of the financial statements is to provide information to Parliament and thus to the public, to facilitate an understanding and evaluation of:

—the financial affairs of Canada that were administered by the Government; and

—the nature and extent of the financial responsibilities entrusted to the Government in a given fiscal year by the Constitution and other Acts of Parliament.

The two basic concepts underlying the Government's accounting system are found in the Constitution Acts: first, the concept of the Consolidated Revenue Fund, which emanates from the requirement that all duties and revenues received, other than those reserved to the provinces, "shall form One Consolidated Revenue Fund"; second, the concept that the balance of the Fund, after certain prior charges, "shall be appropriated by the Parliament of Canada".

Responsibility for the integrity and objectivity of the financial statements rests with the Government. The financial statements are prepared under the joint direction of the President of the Treasury Board, the Minister of Finance, and the Receiver General for Canada, in compliance with governing legislation. The financial statements are prepared on a modified cash basis of accounting. Where there are departures from cash accounting, the information included in these financial statements is based on the Government's best estimates and judgement, with due consideration given to materiality. Financial information, contained elsewhere in this volume, is consistent with that in the financial statements, unless otherwise indicated.

To fulfill its accounting and reporting responsibilities, the Government maintains systems of financial management and internal control which give due consideration to costs, benefits and risks, and which are designed to provide reasonable assurance that transactions are properly authorized, are executed in accordance with prescribed regulations, are authorized by Parliament, and are properly recorded so as to maintain accountability of public money and safeguard the assets and properties of Canada under Government administration. The Receiver General maintains the accounts of Canada, a centralized record of the Government's financial transactions, and obtains additional information as required, from departments, agencies and Crown corporations, to meet accounting and reporting requirements.

The Auditor General of Canada provides an independent opinion on the financial statements prepared by the Government. The duties of the Auditor General in that respect are set out in Section 6 of the Auditor General Act, S.C. 1976-77, C.34, which states in part that the Auditor General "shall express his opinion as to whether they (the financial statements) present fairly information in accordance with stated accounting policies of the federal government and on a basis consistent with that of the preceding year together with any reservations he may have".

Annually, the financial statements are tabled in Parliament as part of the Public Accounts, and are referred to the Standing Committee on Public Accounts, which reports to Parliament on the results of its examination together with any recommendations it may have with respect to the financial statements and accompanying audit report. Representatives of the Government and of the Auditor General attend the Public Accounts Committee review proceedings to provide testimony and other information requested by the Committee. These meetings are open to the public, and the Committee's report and recommendations to Parliament are published in the official report of the House of Commons.

The financial statements consist of five statements and accompanying notes. The first statement is the Statement of Transactions, which shows how the financial requirements were met, and the effect of the transactions on the cash balance. The financial transactions are classified into the following categories:

- The first category, budgetary, consists of all the transactions with outside parties which enter into the calculation of the annual deficit or surplus of the Government, that is, the receipts from tax and non-tax revenue, together with the expenditures authorized by Parliament.
- The second category, non-budgetary, consists of transactions in loans, investments and advances, in liabilities for the administration of certain public money received or collected for special purposes, and in other liabilities. These transactions account for the change in the financial claims and obligations of the Government.
- The third category, foreign exchange, reflects transactions with the Exchange Fund Account, the principal objective of which is to aid in the control and protection of the external value of the Canadian dollar, together with an accounting of the net position of the Government with respect to the International Monetary Fund. Foreign exchange transactions include unmatured debt payable in foreign currencies.
- The fourth category, unmatured debt, represents the extent to which financial requirements have been met through the increase in unmatured debt, that is, the net change in amounts owing for marketable bonds, Canada savings bonds, Treasury bills, and certain notes and loans payable. Unmatured debt transactions exclude unmatured debt payable in foreign currencies.

The second statement is the Statement of Revenue and Expenditure, which gives a more detailed accounting of the budgetary transactions summarized in the Statement of Transactions.

The third statement is the Statement of Accumulated Deficit which shows the changes in the accumulated deficit for the last two years.

The fourth statement is the Statement of Assets and Liabilities. This statement differs in some ways from the conventional balance sheet of the private sector. Fixed assets, having been accounted for as expenditures, are reported at the nominal value of $1, and revenues not yet received, such as uncollected taxes, are not recorded as assets. It should be noted, therefore, that the difference between net recorded assets and total liabilities is simply the aggregate of annual budgetary deficits and surpluses determined in accordance with the accounting policies of the Government; this difference should not be taken as the Government's net worth.

The fifth statement is the Statement of Use of Appropriations, which summarizes by department, the use of parliamentary appropriations for budgetary expenditure, and for loans, investments and advances.

Other sections in this volume, together with Volumes II and III of the Public Accounts, are designed to provide information supporting the financial statements.

Notes to the Financial Statements of the Government of Canada

1. Significant Accounting Policies

The accounting policies of the Government of Canada are based on concepts embodied in the Constitution Acts, and in the Financial Administration Act and other legislation.

i. *Government of Canada as an accounting entity*

For purposes of maintaining the accounts of Canada and preparing the Public Accounts, the Government of Canada is defined as all the departments named in Schedule A of the Financial Administration Act; any division or branch of the Public Service, including a commission appointed under the Inquiries Act, designated by the Governor in Council as a department for purposes of the Financial Administration Act; the staffs of the Senate, the House of Commons, and the Library of Parliament; and, any corporation named in Schedule B of the Financial Administration Act.

In accordance with the above definition, the corporations listed in Parts I and II of Schedule C of the Financial Administration Act, and those Crown corporations that are not subject to Divisions I to IV of Part XII of the Financial Administration Act, are excluded from the Government of Canada as an accounting entity; therefore, their financial statements are not consolidated with those of the Government. However, the borrowings of those corporations which are agents of the Crown are recorded as a liability of the Government net of borrowings expected to be repaid directly by these corporations. The financial statements of Crown corporations are presented in Volume III of the Public Accounts.

In addition, certain accounts and funds have financial statements which are not combined with those of the Government, but appear separately in Volumes I and II. These accounts and funds include the Exchange Fund Account, the Canada Pension Plan Account, the Unemployment Insurance Account and other similar accounts.

ii. *Classification of financial transactions*

The financial transactions of the Government, as recorded in the accounts of Canada and reported in the Public Accounts, are classified into budgetary, non-budgetary, foreign exchange and unmatured debt transactions.

In general terms, budgetary transactions enter into the calculation of the annual deficit or surplus and are reported on the Statement of Revenue and Expenditure. All other transactions lead to the acquisition or disposal of financial claims or to the creation or discharge of financial obligations, and are disclosed on the Statement of Assets and Liabilities.

For purposes of reporting, the Public Accounts uses the classification in force at the end of the year to which the report refers and amounts for the previous year are reclassified retroactively to conform to the current year's accounting policies and presentation.

iii. *Budgetary revenue*

Budgetary revenue consists of all tax and non-tax receipts which affect the annual deficit or surplus of the Government, and includes revenue internal to the Government.

The Government generally reports revenue in the year in which it is received, with refunds of revenue allocated to the year in which they are actually paid.

Revenue is reported after deducting refunds paid, and excludes amounts receivable, taxes collected on behalf of provinces and territories, and amounts credited to the Canada Pension Plan Account, the Unemployment Insurance Account, superannuation accounts, other specified purpose accounts, and other liability accounts.

On the Statement of Revenue and Expenditure, revenue is reported both gross and net. The difference between the two is revenue credited to appropriations.

iv. *Budgetary expenditure*

Budgetary expenditure consists of all charges to budgetary appropriations which affect the annual deficit or surplus of the Government. Such charges include those for work performed, goods received, services rendered, and transfer payments made, during the year, and, expenditure internal to the Government.

Expenditure excludes amounts charged to the Canada Pension Plan Account, the Unemployment Insurance Account except for the Government's share of benefits, superannuation accounts, other specified purpose accounts, and other liability accounts.

On the Statement of Revenue and Expenditure, expenditure is reported both gross and net. The difference between the two is revenue credited to appropriations.

v. *Assets*

Assets are defined as the financial claims acquired by the Government on outside organizations and individuals as a result of events and transactions recorded as at the closing date.

However, as a result of the Government's accounting policies described above, certain financial claims are not reported on the Statement of Assets and Liabilities. The most important of these are accounts receivable, net of refunds payable, for tax and non-tax revenue.

vi. *Liabilities*

Liabilities are defined as the financial obligations of the Government to outside organizations and individuals as a result of events and transactions recorded as at the closing date.

However, as a result of the Government's accounting policies described above, and in accordance with enabling legislation, actuarial liabilities arising from the indexing to the cost of living, of superannuate pensions and annuities, are not reported on the Statement of Assets and Liabilities.

vii. *Fixed assets*

The fixed assets of the Government, which include land, engineering structures and works (such as canals, harbours and roads), buildings, and machinery and equipment, are charged to budgetary expenditure at the time of acquisition or construction. Their existence, however, is acknowledged on the Statement of Assets and Liabilities by reporting them at the nominal value of $1.

viii. *Valuation of assets and liabilities*

ASSETS

Assets are recorded at cost and are subject to annual valuation to reflect reductions from the recorded value to the estimated realizable value.

LIABILITIES

Liabilities are recorded in the amounts ultimately payable and liabilities for the superannuation accounts, with the exception of indexing, and the Government Annuities Account, are valued on an actuarial basis.

The Canada Pension Plan Account and the Supplementary Retirement Benefits Account are not maintained on an actuarial basis. The Canada Pension Plan Act limits payments from the Consolidated Revenue Fund to the balance in the Canada Pension Plan Account.

ix. *Translation of foreign currency transactions*

Foreign currency transactions are translated and recorded in Canadian currency equivalents at the exchange rates prevailing at the transaction dates.

Assets and liabilities resulting from foreign currency transactions are, in turn, reported at year-end closing rates of exchange; net gains are credited to revenue, while net losses are charged to expenditure.

2. Change in Accounting Policies

The receipts of the Canadian Ownership Account have been classified as budgetary transactions, whereas in previous years, they were classified as non-budgetary transactions. This change in accounting policy has been authorized by the President of the Treasury Board and the Minister of Finance under Section 54(2)(b) of the Financial Administration Act.

In 1984 and prior years, the effect of changes in accounting policies was reflected entirely in the year of change, with no restatement of prior year's figures. Commencing in 1985, such changes are applied retroactively, with restatement of the previous year's deficit and accumulated deficit, for consistency.

The effect of the changes made in both 1985 and 1984, on the accumulated deficit at the beginning of the year and on the deficit for the year, is as follows:

i. *Effect of changes on the accumulated deficit at the beginning of year*

	(in millions of dollars)	
	1985	1984
Change implemented in 1985:		
Inclusion of the Canadian Ownership special charge, accumulated to the beginning of the year, in revenue[1]	- 2,480	- 1,675
Changes implemented in 1984:		
Provision for valuation of certain assets, and for liabilities previously not recorded		4,900
Decrease (-)/increase in accumulated deficit at the beginning of the year due to changes in accounting policies	- 2,480	3,225

[1] The investments, made through the Canadian Ownership Account, are now presented under Loans, investments and advances—Petro-Canada.

ii. *Effect of changes on the deficit*

	(in millions of dollars)	
	1985	1984
Change implemented in 1985:		
Inclusion of the Canadian Ownership special charge, in revenue	- 850	- 805
Changes implemented in 1984:		
Retroactive effect of provision for valuation of certain assets, and for liabilities previously not recorded		- 4,900
Decrease in deficit due to changes in accounting policies	- 850	- 5,705

3. Change in Presentation

On the Statement of Revenue and Expenditure, revenue is presented in a more summarized form, while expenditure, previously presented by department, is now presented by envelope.

4. Contingent Liabilities of the Government of Canada

A contingent liability is a potential liability which may become an actual liability when one or more future events occur or fail to occur. The contingent liabilities of the Government consist of explicit guarantees and potential losses arising from pending and threatened litigation relating to claims and assessments in respect of breach of contract, damages to persons and property, and like items.

The contingent liabilities of the Government as at March 31, 1985 amounted to $8,208 million and are summarized in the following table:

	(in millions of dollars)	
	1985[1]	1984
i) Explicit guarantees by the Government		
Borrowings by other than Crown corporations	2,866	2,177
Insurance programs of the Government	1,468	1,428
Other explicit guarantees	150	125
ii) Pending and threatened litigation[2]	3,724	2,859
	8,208	6,589

[1] Details can be found in Section 12 of this volume.

[2] Includes $2.9 billion related to the administration of native statutory and treaty obligations by the Department of Indian Affairs and Northern Development. This amount represents plaintiffs' claims in 42 litigation cases. There are another 64 cases and settlements of Native Land claims currently under negotiation, for which amounts are not stated in the claims, and it is not possible to determine the amounts that may be ultimately payable.

5. Consolidation of Crown Corporations

In accordance with the accounting policy stated in Note 1(i), the assets, liabilities, revenues and expenditures reported in the separate financial statements of Crown corporations named in Schedule C of the Financial Administration Act (FAA), and of Crown corporations not subject to Divisions I to IV of FAA Part XII, are not consolidated in the Government's financial statements. As a consequence, only the financial transactions between the Government and Crown corporations, are recorded in the accounts of Canada.

The following table summarizes total Government assets, liabilities, revenues and expenditures on the existing unconsolidated basis, and provides a comparison with what these totals would be if the separate financial statements of all Crown corporations were fully consolidated with the financial statements of the Government. The consolidated totals include assets, liabilities, revenues and expenditures of Crown corporations resulting from transactions with parties other than the Government. The effects of all transactions between the corporations and the Government and between the corporations themselves have been eliminated from the totals on consolidation.

The consolidated information has been prepared using the Government's modified cash basis of accounting, under which non-financial assets such as land, buildings and equipment are included in expenditure when acquired rather than reported as assets. Accordingly, non-financial corporate assets of $26,714 million have been included in the consolidated accumulated deficit rather than shown as assets.

For corporations with financial year ends other than March 31, unaudited information is included in the table.

	(in millions of dollars)

Contingent liabilities	8,208	8,693

[1] Details can be found in Section 7 of this volume.

6. Insurance Programs

Certain Crown corporations, all of which are agents of Her Majesty, operate insurance programs. In the event that such corporations do not have sufficient funds to meet their obligations, the Government will provide the required financing through appropriations, either budgetary or non-budgetary. The Government is of the opinion that no allowance need be established in the accounts of Canada for these insurance programs.

In the case of the Canada Deposit Insurance Corporation, as described in Note 14 (ii), the Government will provide the required financing through non-budgetary appropriations.

In the case of the Mortgage Insurance Fund (MIF), the Canada Mortgage and Housing Corporation estimates that the deficit calculated on an actuarial basis as at March 31, 1985, was $812 million after forgiveness of prior year advances from the Government of $308 million. While the MIF is designed to be self-sufficient over the long run, it has experienced cash deficiencies. Since August 1984, the Government has provided interest-free advances to the MIF, through budgetary appropriations. Advances treated as budgetary expenditure in 1984-85 were $172 million, reducing the $812 million to $640 million. A further $60 million has been advanced to September 15, 1985.

The following table summarizes information regarding such insurance programs. The information has not been audited because the corporations have financial year ends other than March 31, 1985.

* Refers to the difference between claims and amounts received from sales of related assets and other recoveries.

(1) Less than $500,000.

7. International Development Assistance—Loans and Subscriptions

i. *Loans to developing countries*

Included in loans to National governments of $4,387 million ($4,215 million in 1984) are loans to developing countries of $3,080 million ($2,879 million in 1984). These loans are part of Canada's international development assistance program and are either interest-free or bear interest at rates that were more favourable than those prevailing in Canada at the time the assistance was provided. The balances outstanding at March 31, grouped by term, are:

Term	Grace period before repayment commences	Interest rate	1985	1984
			(in millions of dollars)	
17 years	7 years	*	1	1
20 years	5 years	5%	35	35
25 years	5 years	6%	1	1
30 years	7 years	3%	189	189

53 years(1)	13 years	*	41	
55 years(1)	15 years	*	4	
			3,080	2,879

* Interest-free.

(1) Rescheduled loans.

These loans, by their terms, confer financial benefits on the recipients. Discounted at the long-term borrowing rate for the year of the transaction, the present value of benefits conferred has been estimated at $2,200 million ($2,100 million in 1984). The benefits conferred during the year were $100 million ($200 million in 1984). In accordance with Note 1 (viii), no provision was made for this amount in the accounts of Canada.

During the year, loan interest and commitment/service charges of $6 million ($6 million in 1984) was received from developing countries. Details can be found in Sections 7 and 14 of this volume and in Section 8 of Volume II.

ii. *Subscriptions and loans to international organizations*

Included in Loans, investments and advances—International organizations of $3,727 million ($3,306 million in 1984) are subscriptions to the capital of the International Development Association and loans to other international financial institutions of $3,086 million ($2,754 million in 1984) which are also part of Canada's development assistance program. These institutions make loans to developing countries on terms similar to those described in sub-section i. Subscriptions to international organizations do not provide a return on investment but are repayable on termination of the organization or on withdrawal therefrom. Details can be found in Section 7 of this volume.

Loans, investments and advances—International organizations are presented net after deduction of notes payable of $1,196 million ($1,153 million in 1984), including $1,129 million ($1,076 million in 1984) of notes payable to the aforementioned Association and institutions. The notes are non-interest bearing, are non-negotiable, but are payable on demand, although they are normally encashed over periods of up to seven years, according to the financial requirements of the institutions.

Included in the Allowance for valuation is an amount of $1,957 million ($1,678 million in 1984) equal to the net position of the Government vis-à-vis these institutions.

8. Superannuation Accounts

The Government provides pensions for its employees, principally members of the Public Service, the Canadian Forces, and the Royal Canadian Mounted Police (RCMP). Basic pensions are provided for these employees under authority of the Public Service Superannuation Act, the Canadian Forces Superannuation Act and the RCMP Superannuation Act, respectively. The basic pensions are indexed to the cost of living under authority of the Supplementary Retirement Benefits Act.

The Public Service Superannuation Act also covers the employees of certain Crown corporations. Employees of these participating Crown corporations make contributions on the same basis as Government employees, and the corporations contribute an equal amount.

The superannuation accounts shown on the Statement of Assets and Liabilities include liabilities for basic pensions and for indexing. Liabilities for basic pensions are determined on an actuarial basis and liabilities for indexing are not. The Government has estimated that if the liabilities for all superannuation accounts were determined on an actuarial basis, the reported liabilities and accumulated deficit would increase by $15.8 billion as at March 31, 1985 ($16.2 billion as at March 31, 1984).

This estimate is based on long-term economic assumptions including an assumed interest rate of 6.5%, inflation rate of 3.0%, wage increase rate of 5.5%, and other actuarial assumptions and methods that were used for purposes of actuarial reports for basic pensions tabled prior to March 31, 1985. However, the estimated unrecorded actuarial liability would be substantially lower if it were assumed that "real" interest earnings credited to the accounts, which are currently substantially higher than implicit in the assumptions used, would continue at a relatively high level for a number of years.

It should be noted that the financing, accounting and funding of employee pension plans are currently being reviewed in anticipation of legislative changes.

9. Specified Purpose and Exchange Fund Accounts

In accordance with the stated accounting policies of the Government, the revenues and expenditures of the following accounts are not included in the revenues and expenditures of the Government. The balances of those accounts are reported on the Statement of Assets and Liabilities of the Government. Had the transactions of the following accounts been classified as budgetary, revenue, expenditure, the deficit and the accumulated deficit would have been affected as follows:

	(in millions of dollars)			
	Effect on			
	Revenue	Expenditure	Deficit	Accumulated deficit
Unemployment Insurance Account(1)	7,779	8,755	976	5,077
	7,466	*7,925*	*459*	*4,101*
Other specified purpose accounts	541	503	– 38	– 980

	7,609	*8,066*	*457*	*2,935*

(1) Details of these accounts can be found in Sections 8 and 10 of this volume.
Amounts in roman type are 1984-85 figures.
Amounts in *italic* type are 1983-84 figures.

10. Canada Pension Plan Account

Under existing legislation, benefits and costs incurred in the administration of the Canada Pension Plan are financed from contributions from employees, employers and self-employed persons, and from interest from the investment of contributions not immediately needed for benefits and costs. Although the Canada Pension Plan was established under federal legislation, its administration is under the joint control of the Government and the provinces. Any province or group of provinces having ⅓ of the population of Canada can veto any amendment to the Canada Pension Plan Act that affects the level of contributions or benefits. The Government's authority to pay benefits under the Plan is limited to the balance in the Canada Pension Plan Account which was $29,056 million at March 31, 1985. Therefore, in accordance with the accounting policies of the Government, the revenues and expenditures of the Plan have not been reported with those of the Government.

In 1985, revenues of the Canada Pension Plan were $6.8 billion ($6.3 billion in 1984) and expenditures were $4.3 billion ($3.7 billion in 1984). The balance of the Canada Pension Plan Account is $29.1 billion at March 31, 1985 ($26.6 billion at March 31, 1984). Funds in excess of estimated current operating requirements ($27.3 billion at March 31, 1985; $25.1 billion at March 31, 1984) have been invested in securities of the provinces and of the Government on the basis of contributions from the jurisdiction to total contributions to the Plan.

The Canada Pension Plan is not designed to be accounted for on an actuarial basis, but if it were to be accounted for as such, the Government estimates that an additional amount of $215 billion would have been required at December 31, 1984, to pay the future benefits of all contributors and pensioners in the Plan at that time. Actuarial assumptions used in making this estimate include an interest rate of 6.5%, an inflation rate of 3.5%, and an annual increase in average earnings of 5%. The financial statements of the Account are reproduced in Section 8 of this volume.

11. Maturity of Government Debt

The following table presents total unmatured debt arranged in order of maturity:

	(in millions of dollars)					
	Marketable bonds(1)	Canada savings bonds(1)	Treasury bills	Notes and loans payable in foreign currencies	Borrowings of Canadair Financial Corporation Inc	Total

Less: Government's own holdings	62	199				261
	71,311	41,761	52,300	5,943	1,117	172,432

Details can be found in Section 11 of this volume.
(1) It should be noted that all Canada savings bonds are redeemable on demand regardless of maturity date and that $4,973 million of marketable bonds reported as maturing in 1986 to 1988 are exchangeable at the option of the holder for bonds maturing in 1991/94.

12. Accumulated Deficit

In accordance with its stated accounting policies, revenues of the Canadian Ownership Account are included in the revenue of the Government.

However, enabling legislation requires that such revenue be earmarked to be used solely to increase public ownership of the oil and gas industry in Canada. The table below presents the balances of the Account as at March 31, 1985, included in the accumulated deficit:

	(in millions of dollars)	
	1985	1984
Accumulated deficit excluding Canadian Ownership Account	194,778	157,011
Canadian Ownership Account	– 3,330	– 2,480
Accumulated deficit as per Statement of Assets and Liabilities	191,448	154,531

13. Child Tax Credit

Entitlements to the child tax credit are claimed on personal income tax returns. Claims are settled either by reducing the tax liability for the year or, if no liability exists, by issuing a "refund" cheque. In either case, personal income tax revenues are reduced, even where no tax had been paid. Had these tax reductions and direct payments been reported as expenditures, gross total expenditure and revenue would have increased respectively by $1,609 million ($2,117 million in 1984).

14. Borrowings of Agent Crown Corporations

Included in Borrowings of agent Crown corporations of $12.9 billion ($10.8 billion in 1984) are the borrowings of the Canadian Wheat Board (CWB) of $4 billion ($2.8 billion in 1984) and the borrowings of the Canada Deposit Insurance Corporation (CDIC) of $1 billion ($0.9 billion in 1984).

i. *Canadian Wheat Board*

The borrowings of the CWB have been incurred to finance credit grain sales to various countries. Terms of the credit grain sales call for payment in full within 36 months or less from time of shipment. However, certain countries are experiencing difficulties in servicing their international financial obligations, of which approximately $2.5 billion are owing to CWB. This amount, which includes accrued interest, was in arrears.

These countries have entered into an orderly rescheduling of their obligations, including interest at current rates. Of the $2.5 billion owed to CWB, approximately $0.5 billion has, to September 15, 1985, been rescheduled. The rescheduling calls for payments over 8 to 10 years; the interest in arrears, together with interest on the full amount rescheduled, is paid in the initial years, with payments of principal and interest in the remaining period. It is anticipated that the remaining amount in arrears of approximately $2 billion will be rescheduled in the near future.

It should be noted that, for such loans to sovereign borrowers, payment delays are not necessarily indicative of a future loss requiring an allowance. Sovereign entities and their international financial obligations do not have commercial mortality and the international system provides several mechanisms and institutions through which countries facing repayment difficulties can effect remedial measures in agreement with their creditors. Therefore, the Government, as guarantor of CWB's borrowings to finance credit grain sales, has made no valuation allowance in the accounts of Canada.

ii. *Canada Deposit Insurance Corporation*

The borrowings of CDIC have been incurred to finance a deficit, at March 31, 1985, of $872 million as a result of a provision for actual and expected losses due to insolvent member institutions. CDIC provides depositors with insurance of up to $60,000 per depositor per member institution on Canadian deposits with a term not exceeding 5 years, for which the member institutions pay insurance premiums. Subsequent to March 31, 1985, as described in Note 17, four member institutions, with insured deposits of approximately $800 million, were forced to commence wind-up procedures.

In accordance with the CDIC Act, CDIC is authorized to borrow up to $1.5 billion from the Government against which it had borrowed $40 million as at March 31, 1985 and $525 million as at September 15, 1985. These borrowings bear interest at current rates to Crown corporations and are fully repayable to the Government. The Government plans to amend the CDIC Act to increase allowable premiums to a level sufficient to allow CDIC in the long run to repay its borrowings and to eliminate its deficit. The Government is of the opinion that no allowance need be established in the accounts of Canada.

15. Commitments under Capital Lease Arrangements

Major capital assets of the Government are either purchased outright or leased. Where a lease transfers substantially all of the benefits and risks incidental to ownership of the property to the lessee, it is considered a capital lease. The Government has entered into capital leases with outside parties for buildings and equipment.

In accordance with the accounting policies of the Government, lease payments under capital leases are charged to budgetary expenditure in the year of payment. Such payments are authorized annually by Parliament. The Government's total remaining commitments under capital lease arrangements, in excess of $1 million each, entered into as at March 31, 1985, amounted to $1,635 million. Included in this amount is $1,175 million in imputed interest and $5 million in executory costs. The resulting net commitments of $455 million represent the value of the capital assets leased and the principal amount of the liability therefore, which, in accordance with the significant accounting policies of the Government, is not reflected as an asset and liability on the Government's Statement of Assets and Liabilities.

16. Transactions Internal to the Government

In accordance with the accounting policies of the Government, revenue and expenditure include transactions between departments. These internal transactions represent valid charges and credits to appropriations, and valid credits to revenue, since they have been authorized by Parliament.

The following table summarizes Revenue and Expenditure, and related internal transactions.

17. Events Subsequent to the End of the Year

Subsequent to the fiscal year end, the Canadian Commercial Bank, the Northland Bank, the CCB Mortgage Investment Corporation and the Continental Trust Company experienced financial difficulties and were forced to commence wind-up procedures. The Canada Deposit Insurance Corporation (CDIC), which is an agent of Her Majesty, provides depositors with insurance of up to $60,000 per depositor per member institution on Canadian deposits with a term not exceeding 5 years. Such deposits covered by this insurance in the four institutions amount to approximately $800 million. In addition, the Bank of Canada has advanced approximately $1.8 billion, secured by assignment of specific assets of the two banks—Canadian Commercial Bank and Northland Bank.

The Government has tabled draft legislation seeking authority in the amount of $875 million to compensate all uninsured depositors of the two banks and the CCB Mortgage Investment Corporation. If the legislation is enacted, payments to uninsured depositors by the Government will be made to the extent of 60% of the uninsured deposits in 1985-86, the remainder being paid in 1986-87. The total amount will be charged to budgetary expenditure in 1985-86.

The Bank of Canada advances are expected to be fully reimbursed by virtue of its position as a secured creditor. Payments to insured depositors by CDIC, to uninsured depositors by the Government, and any loss on the reimbursement of the Bank of Canada advances, are potentially recoverable on a prorated basis from the sale of the assets of the banks. At this time, the amounts ultimately recoverable, if any, cannot be determined.

OPINION OF THE AUDITOR GENERAL ON THE FINANCIAL STATEMENTS OF THE GOVERNMENT OF CANADA

I have examined the statement of assets and liabilities of the Government of Canada as at March 31, 1985 and the statements of revenue and expenditure, transactions, accumulated deficit and use of appropriations for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary to enable me to report as required by Section 6 of the Auditor General Act.

In my opinion, these financial statements present information in accordance with the stated accounting policies of the Government of Canada as set out in Note 1 to the financial statements and, after giving retroactive effect to the change in accounting for Canadian Ownership Account transactions as described in Note 2, on a basis consistent with the preceding year. However, in my opinion, because of the stated accounting policies that I consider inappropriate as outlined in Reservations 1, 2 and 3, the accompanying financial statements do not present fairly the financial position of the Government as at March 31, 1985 and its results of operations and financial requirements for the year then ended.

Reservation 1: Fragmented Reporting of Government Activities

Although the financial statements are entitled "The Financial Statements of the Government of Canada", certain significant activities of the Government are excluded, as described in Note 1(i). As a result, the financial statements do not provide a comprehensive and complete summary of the full nature and extent of the financial affairs and resources for which the Government is responsible. In my view, the accounting entity as defined in Note 1(i) is inadequate in the following two respects:

(i) Significant departmental activities carried out by the Exchange Fund Account, the Unemployment Insurance Account and other similar accounts continue to be reported in separate financial statements or accounts that are not consolidated in the Government's financial statements. I believe that they should be. As set out in Note 9, full consolidation of these activities would have the following effects:

	(in millions of dollars)	
	1985	1984
Increase:		
Revenue	8,130	7,609
Expenditure	9,258	8,066
Deficit	1,128	457
Accumulated deficit	4,063	2,935

(ii) The assets, liabilities, revenues and expenditures reported in the separate financial statements of Crown corporations are not consolidated in the accompanying financial statements. For example, as summarized in Note 14, losses incurred by the Canada Deposit Insurance Corporation are not included in the Government's reported results of operations. Similarly, the assets and liabilities of the Canadian Wheat Board, which include receivables in arrears from sovereign nations for which no allowance is currently provided, are not included in the Government's reported assets and liabilities.

If all the separate financial statements of Crown corporations had been consolidated using the Government's modified cash basis of accounting, under which non-financial assets such as land, buildings and equipment are included in expenditure when acquired rather than reported as assets, the effect on the accompanying financial statements would be as set out in Note 5. However, further study by the Government is required to determine the extent to which and how the separate financial statements of Crown corporations should be consolidated with those of the Government, and the alternative presentation that would be appropriate for any not consolidated. Accordingly, I am unable to determine the effect of this matter on the Government's financial statements.

Reservation 2: Assets Reported at Amounts in Excess of Their Value

When the international development assistance loans identified in Note 7 (i) to the financial statements are issued, they are recorded as assets at the full amounts advanced in accordance with Note 1(v) and (viii). At the date of issue, the amounts advanced by Canada considerably exceed the asset value received by Canada because of the concessionary terms described in Note 7 (i). In my view, any excess of amounts advanced over asset value received confers a benefit and constitutes expenditure, which should be recorded and reported as such on the Statement of Revenue and Expenditure in the year the loans are issued.

The Government has provided no allowance in respect of the $3,080 million of "loans to developing countries" described in Note 7(i). I believe that an allowance of approximately $2,200 million, the amount of the conferred benefits disclosed in the note, should have been provided.

If these loans had been provided for in the current and prior years, reported assets would be decreased and accumulated deficit increased by approximately $2.2 billion ($2.1 billion in 1984). The deficit for the year would be increased by approximately $100 million ($200 million in 1984).

Reservation 3: Unrecorded Liabilities

In accordance with the accounting policy stated in Note 1(vi), financial obligations in respect of indexing employee pensions are not fully recorded and reported in the accompanying financial statements. I believe that additional financial obligations for indexing should be recorded and reported in the financial statements to provide a more complete disclosure of liabilities. As disclosed in Note 8, if the full amount of such obligations had been recorded, reported liabilities would be increased by approximately $15.8 billion ($16.2 billion in 1984) and the deficit for the year would be decreased by up to $400 million (increased by up to $2.3 billion in 1984).

Further, as disclosed in Note 6, the Government has not provided for the deficit in the Mortgage Insurance Fund. If provision had been made for this deficit, as I believe it should have been, reported liabilities would be increased by $640 million ($226 million in 1984) and the deficit for the year would be increased by $414 million ($226 million in 1984).

Additional information and comments on the financial statements and this opinion are included in my observations in Section 3 of this volume.

Observations by the Auditor General on the Financial Statements of the Government of Canada

Introduction

I have examined the financial statements of the Government of Canada for the year ended March 31, 1985 which, together with my Opinion, are included in Section 2 of this volume. These financial statements are the Statement of Assets and Liabilities, the Statement of Revenue and Expenditure, the Statement of Transactions, the Statement of Accumulated Deficit, and the Statement of Use of Appropriations.

My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary to enable me to report as required by Section 6 of the Auditor General Act. This section provides that:

> "The Auditor General shall examine the several financial statements required by section 55 of the Financial Administration Act to be included in the Public Accounts, and any other statement that the President of the Treasury Board or the Minister of Finance may present for audit and shall express his opinion as to whether they present *fairly* information in accordance with stated accounting policies of the federal government and on a basis consistent with that of the preceding year together with any reservations he may have." (italics added)

The word *fairly* is used to express the auditor's judgement as to the appropriateness of the selection and application of accounting principles to the particular circumstances of an enterprise. Because of the significant and pervasive effect on the financial statements of the matters reported in my Reservations, I have concluded that:

> "...the accompanying financial statements do not present *fairly* the financial position of the Government as at March 31, 1985 and its results of operations and financial requirements for the year then ended." (italics added)

The three Reservations in my Opinion concern the appropriateness of the Government's stated accounting policies. They address the same issues reported last year. I have illustrated my concern with the fragmented reporting issue (Reservation 1) by commenting on the Canada Deposit Insurance Corporation and the Canadian Wheat Board. In addition, I have included the deficit of the Mortgage Insurance Fund as a further unrecorded liability (Reservation 3). The Government has taken some action this year in respect of Reservation 1 that I will also comment on.

The Observations that follow provide additional explanatory information on these three Reservations and comment on the reporting of summary financial information by the Government.

Reservation 1: Fragmented Reporting of Government Activities

Under the stated accounting policy described in Note 1(i), significant assets, liabilities, revenues and expenditures of the Government of Canada are reported in separate financial statements of various accounts, funds and Crown corporations that are not now consolidated in the financial statements of the Government. Therefore, although the financial statements contained in Section 2 of this volume are entitled "The Financial Statements of the Government of Canada", they do not provide a comprehensive and complete summary of the full nature and extent of the financial affairs and resources for which the Government is responsible.

There are two primary components in Reservation 1. The first deals with excluded departmental activities, and the second with excluded government activities carried out by Crown corporations.

Excluded departmental activities

Transactions in respect of the following departmental activities are reported in financial statements or accounts that are not consolidated in the financial statements of the Government:

- Unemployment Insurance Account;
- Exchange Fund Account; and
- Other specified purpose accounts.

The Government has summarized in Note 9 what reported revenue, expenditure, deficit and accumulated deficit would have been had the above-named activities been consolidated this year. I believe that these activities should be consolidated to provide a more comprehensive and complete summary of the full nature and extent of the financial affairs and resources for which the Government is responsible.

During the current year, the Government consolidated transactions of the Canadian Ownership Account. As disclosed in Note 2, this had the effect of reducing the accumulated deficit at the beginning of the year by $2,480 million and reducing the deficit of the year by $850 million. It also had the effect of eliminating the Canadian Ownership liability account of $1,673 million and increasing the investment in Petro-Canada by $1,657 million.

Excluded activities of Crown corporations

In addition to the departmental activities discussed above, Government activities are also carried out by Crown corporations whose financial statements are not consolidated in the financial statements of the Government. At March 31, 1985, investments in Crown corporations amounted to approximately $26 billion, or 55 per cent of the Government's recorded assets.

Additional information about Crown corporations has been provided this year in Note 5 to the Government's financial statements. This new note summarizes what the Government's financial statement totals would be if all Crown corporations were fully consolidated using the Government's modified cash basis of accounting, under which non-financial assets such as land, buildings and equipment are included in expenditure when acquired rather than reported as assets. Section 7 of this volume provides related information by corporation.

Although Note 5 and Section 7 are informative, the Government has not yet addressed the basic issue of how best to adjust its financial statements to reflect activities carried out by Crown corporations.

The exclusion of corporate activities from the financial statements can have a significant effect on the information reported in the statements. Consider the Canada Deposit Insurance Corporation and the Canadian Wheat Board whose financial affairs are summarized in Note 14.

At March 31, 1985, the Canada Deposit Insurance Corporation had a deficit of $872 million. Of this amount, approximately $540 million represents a loss during the year which, because the Corporation is not consolidated, is excluded from the Government's reported deficit.

At March 31, 1985, the Canadian Wheat Board had bank borrowings guaranteed by the Government of approximately $4.0 billion offset by accounts receivable from sovereign nations. Approximately $2.5 billion of the receivables were in arrears, and no allowance is currently provided for them. The Board's bank borrowings have, in recent years, been increasing annually to pay interest on its debt. The Board is not consolidated, and its receivables and borrowings are excluded from the Government's reported assets and liabilities.

Government officials have advised me that they are planning to conduct a study to determine which corporations to consolidate, the accounting basis to use for the consolidation, and the accounting for and disclosure of any corporations not consolidated. I encourage the officials to conduct this study and adjust the financial statements on a priority basis.

A related concern — Expenditures offset against revenues

Last year, I called attention to the Government's practice of reporting payments under the Child Tax Credit program as a reduction in personal income tax revenue rather than as a program expenditure. This practice continues, but the Government has added Note 13 to the financial statements which sets out payments made during the year together with the effect on reported revenue and expenditure if the payments had been charged to expenditure of the Social Affairs envelope, as I believe they should have been. I have not included this matter in Reservation 1 because it has no effect on the reported deficit.

Reservation 2: Assets Reported at Amounts in Excess of Their Value

In accordance with the stated accounting policies set out in Note 1(v) and (viii) to the financial statements, the full amounts of special assistance loans to developing countries are recorded as assets. At the date of issue, the amounts advanced by Canada considerably exceed the asset value received by Canada because of the concessionary terms described in Note 7(i). In my view, any excess of amounts advanced over asset value received confers a financial benefit on developing countries and constitutes expenditure in respect of international development assistance that should be recorded and reported as such on the Statement of Revenue and Expenditure.

In saying this, I am not suggesting that all such loans should be revalued at the end of each year, as one might do to reflect the impact of inflation. What I am saying is that at the date the loans are issued, the Government should determine what they are worth and record them as assets at that value at that time. It seems to me that the difference between the amount advanced and the asset value received is really a gift or, using government terminology, a "grant" that should be charged to expenditure and included in the deficit.

Although the $3,080 million of special assistance loans outstanding at year end have little or no rate of return and are repayable over periods of up to 55 years, the Government has provided no valuation allowance for them. I believe that the Government should have provided an allowance of approximately $2,200 million — the amount of benefits conferred by the loans as disclosed in Note 7(i). Because the loans continue to be shown on the Statement of Assets and Liabilities at amounts considerably in excess of their worth as assets, my Reservation remains.

Reservation 3: Unrecorded Liabilities

Indexing of employee pensions

The Government has defined liabilities as financial obligations to outside organizations and individuals as a result of events and transactions recorded as at the closing date. However, in accordance with the accounting policy stated in Note 1(vi) and as described in Note 8, financial obligations amounting to $15.8 billion ($16.2 billion in 1984), related to indexing provisions of employee pension plans (including the Canadian Forces and the Royal Canadian Mounted Police), have not been recorded.

Although Note 8 is informative, until the Government appropriately adjusts the financial statements to reflect an additional liability for indexing, the burden is on the reader to do so. I consider this both unfair and undesirable. A reader unfamiliar with financial statements may get quite a different picture than a reader with more experience in this area.

Government officials have advised me that they have initiated a study to determine the extent to which additional liabilities for indexing employee pensions should be recorded and reported in the Government's financial statements and the manner in which to record and report the change in such liabilities from one year to the next. I encourage the officials to complete this study and adjust the financial statements at the earliest possible date.

Deficit of Mortgage Insurance Fund

The Mortgage Insurance Fund is administered by the Canada Mortgage and Housing Corporation (CMHC), an agent Crown corporation, on behalf of the Government. The Fund was created to facilitate an adequate supply of mortgage funds by reducing the risk to lenders and encouraging the secondary market trading of mortgages. If assets of the Fund are not sufficient to meet claims against it, the Government advances money to CMHC to permit the Corporation to discharge its obligations on behalf of the Fund.

The Fund has reported increasing deficits over the past several years. After giving retroactive effect to forgiveness by the Government in 1985 of loans made to the Fund in prior years, the deficits as adjusted at March 31 are as summarized below.

	($ millions)		
	1985	1984	1983
Deficit as reported by the Fund	812	534	270
Advances from the Government during the year	(172)		
Retroactive effect of forgiveness of loans		(308)	(308)
Deficit (surplus) as adjusted	640	226	(38)

As explained in Note 6 to the financial statements, the Government believes that no allowance need be established in the accounts of Canada for the deficit of the Fund. I disagree. In my judgement, the deficits (as adjusted in the above table) are actual liabilities of the Government that should be recorded in the accounts and included in the financial statements because:

- they represent a qualified actuary's best estimate of amounts payable in the future in respect of losses incurred from insurance in force; and
- funds are unlikely to be available in the future from other than the Government to cover these losses.

If an allowance had been established in the accounts of Canada for the deficit of the Mortgage Insurance Fund, as I believe it should have been, reported liabilities of the Government would be increased by $640 million ($226 million in 1984) and the deficit for the year would be increased by $414 million ($226 million in 1984).

Reporting of Summary Financial Information

I continue to believe that the most significant and pervasive problem in financial reporting by the federal government is the use of inappropriate accounting principles in preparing its financial reports. Again this year I have three Reservations which, in my opinion, show that inappropriate accounting policies have resulted in fragmented reporting of Government activities, assets reported at amounts in excess of their value and significant unrecorded liabilities.

I believe strongly that understanding users' activities and financial information needs is the starting point for building consensus about the accounting principles that should be used in preparing the Government's financial reports. This view is consistent with a recent statement of the Public Sector Accounting and Auditing Committee of the Canadian Institute of Chartered Accountants (CICA) which identified the primary objective of government financial statements as the communication of "... reliable information relevant to the needs of those for whom the statements are prepared in a manner that maximizes its usefulness ...".

I have recently completed an intensive two-year study of users' needs for financial information about the Government, the Federal Government Reporting Study. The results of this study, which was conducted jointly with the General Accounting Office of the United States, will be published in the coming months.

The development of accounting principles that are appropriate for Canadian governments and generally accepted by financial statement users, preparers and auditors is progressing. As a chartered accountant, I am proud of the leadership shown by the CICA. As Auditor General of Canada, I am encouraged by the Government's continued support of the CICA and the interest shown in making the financial statements that I audit more responsive to user needs.

ENVELOPES AND OUTLAYS

The increasing complexity of Government responsibilities and the limited resources available to meet those responsibilities led to the policy and expenditure management system. Under this system, the Government manages the resources made available to it by "envelopes". Each envelope represents the resources allocated to a particular policy sector for all elements of departmental spending that relate to that sector.

Under the envelope system, spending is measured in terms of outlays for budgetary expenditure and for loans, investments and advances. Outlays for budgetary expenditure include costs of servicing the public debt, operating and capital expenditure, grants and contributions to other levels of government, persons and organizations, and other forms of transfer payments. Outlays for loans, investments and advances represent the net change in loans, investments and advances.

Details of Outlays by Envelope

Table 4.1 presents outlays on a comparative basis for budgetary expenditure and for loans, investments and advances by major element within each envelope.

ESTIMATES AND APPROPRIATIONS

Parliamentary Spending Authorities

The Government submits its spending proposals to Parliament in the annual Estimates. During the year, the Government may request further appropriations. The initial request is called the "Main Estimates" and additional requests are called "Supplementary Estimates". With these Estimates, the Government requests authority for that part of the proposed spending which is not already provided by other statutes. The amounts making up the total of such proposed spending are authorized in appropriation acts and are generally referred to as "annual" authorities. The balance of the planned spending is made under authority of other statutes which authorize disbursements for specified purposes, and for such amounts and time periods as are set by those acts. The proposed or estimated uses of most of these "statutory" authorities for the current year are included in the Estimates for information purposes; however, they are not included in appropriation acts because they have already been authorized by Parliament.

Annual authorities, with few exceptions, lapse at the end of the year if not used, while statutory authorities, with few exceptions, are carried forward to future years. Those authorities which extend to subsequent years are referred to as "non-lapsing".

Both the budgetary expenditure amounts and the non-budgetary requirements for loans, investments and advances are included under each type of spending authority, annual and statutory.

Table 4.3 presents, for the year ended March 31, 1985, a summary of parliamentary spending authorities requested and approved (annual authority), and estimated uses of authorities already granted (statutory authority).

A Statement of Use of Appropriations by department, as examined by the Auditor General, is presented in Section 2 of this volume. Additional details of appropriations and expenditure by department and by type (annual and statutory) are given in the Introduction (Table 2) of Volume II, and in the departmental sections of the same volume.

Budgetary and Non-budgetary Appropriations and Spending—Annual and Statutory

Budgetary appropriations provide spending authority for those transactions which enter into the calculation of the annual deficit or surplus of the Government. Non-budgetary appropriations provide spending authority for all transactions which result in the acquisition or disposal of loans, investments and advances. Balances of appropriations brought forward from the previous years are available for spending, together with current increases to such authorities.

The totals of these authorities are reduced by the amount of their current year use to determine the balances which lapse, are overexpended or are carried forward to future years, depending upon the type of authority. In cases where the spending of loan repayments is authorized, the non-budgetary spending is reported net of such repayments.

Table 4.4 presents details of the total available parliamentary spending authorities. They include brought forward authorities, parliamentary spending authorities as per Table 4.3 and various adjustments which are explained in the notes to the table.

Table 4.5 presents a summary of budgetary and non-budgetary appropriations and spending made under annual and non-lapsing appropriations and various statutory authorities for the year ended March 31, 1985.

Further departmental details are presented in the Introduction of Volume II (Table 2).

Reconciliation of Outlays for Loans, Investments and Advances to Non-budgetary Use of Appropriations

The following presents a reconciliation of total outlays for loans, investments and advances, as shown in Table 4.1, with the total of non-budgetary appropriations used in the current year, as shown in the Statement of Use of Appropriations in Section 2 of this volume.

The major difference relates to repayments of loans under appropriations which do not authorize spending of repayments. Such amounts are deducted from gross outlays for envelope reporting but not for reporting the use of appropriations.

BUDGETARY REVENUE

Budgetary revenue consists of all tax and non-tax receipts which affect the annual deficit or surplus of the Government, and includes revenue internal to the Government.

The Government generally reports revenue in the year in which it is received, with refunds of revenue allocated to the year in which they are actually paid.

Revenue is reported after deducting refunds paid, and excludes amounts receivable, taxes collected on behalf of provinces and territories, and amounts credited to the Canada Pension Plan Account, the Unemployment Insurance Account, superannuation accounts, other specified purpose accounts, and other liability accounts.

Revenue for a year, therefore, includes receipts credited to the Receiver General by the Bank of Canada and the chartered banks by March 31, and amounts received in Government offices by March 31, but not deposited until April, or not credited to the Receiver General until April. Revenue also includes the amounts received in the mail on the first working day of April, except where it is clear that it was the remitter's intention to discharge an obligation arising in the new year.

The yield from tax revenue is affected by changes in tax rates, by changes in the base on which taxes are calculated, and by variations in economic conditions. A taxpayer's income tax liability relates to the income of a taxation year, but advance collection of personal and corporation income taxes by payroll deductions and instalments results in a distribution of receipts throughout the year.

The major tax changes which had an effect on this year's tax revenue are:

—personal income tax—the standard deduction of $100 for medical receipts and/or charitable donations was repealed; the federal tax reduction was lowered to $100 from $200; and, the indexation of exemptions and brackets was capped to a maximum increase of 5% in 1984;

—incremental oil revenue tax (IORT)—the provisions that suspended the IORT on conventional oil from June 1, 1983 to May 31, 1984 were extended a further year to May 31, 1985. Since incremental revenues can be deducted from corporate taxable income, this suspension of the IORT meant a partially offsetting increase in corporation income tax revenue;

—sales tax—sales tax rates were raised 1 percentage point, effective October 1, 1984; and,

—customs import duties—as scheduled under the Multilateral Trade Negotiations, the sixth of eight annual tariff reductions was implemented in January 1985.

Under fiscal arrangements that became operative in 1962, the federal Government entered into tax collection agreements to collect the personal income taxes of all provinces and territories (except Quebec) and the corporation income taxes of all provinces and territories (except Ontario, Quebec and Alberta). Personal and corporation income taxes collected by the federal Government on behalf of the provinces and territories are not included in the tables shown hereunder.

REVENUE

"Five year comparative summary"
Millions of dollars

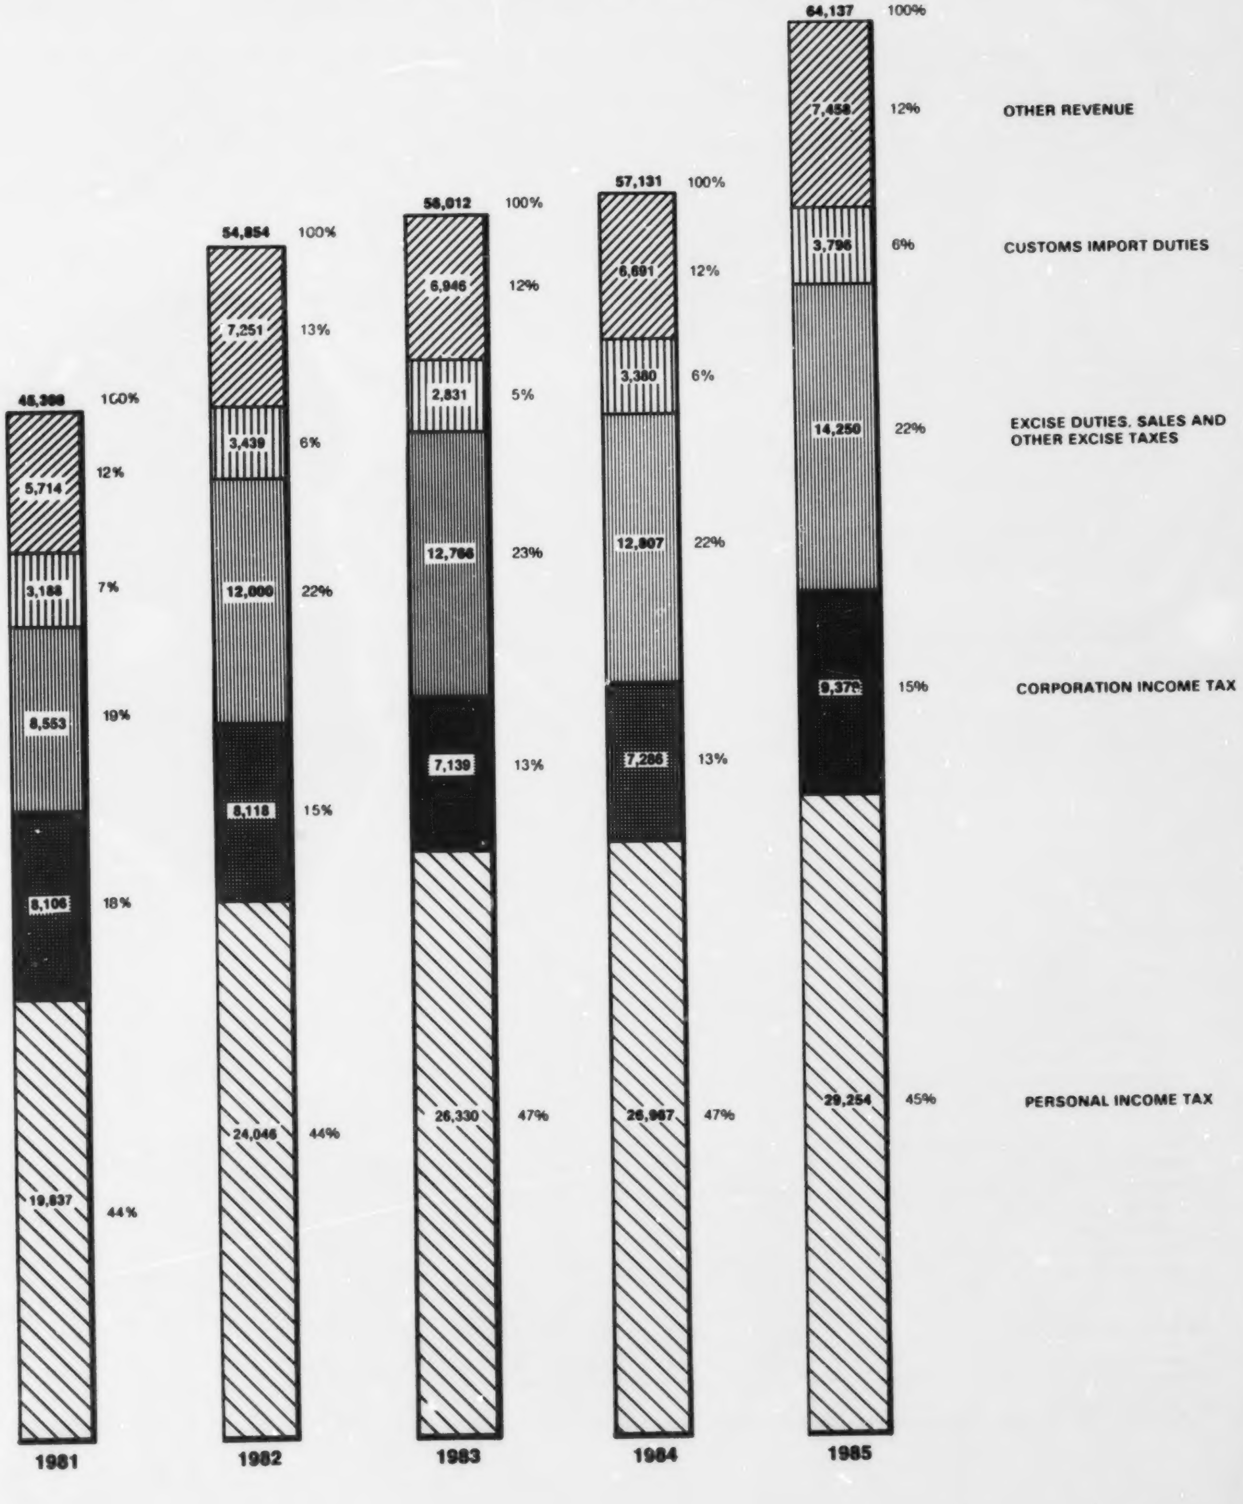

Table 5.1 presents budgetary revenue by main classification and source on both a gross and net basis and segregates revenue internal to the Government from revenue from outside parties. The difference between gross and net revenue is revenue credited to appropriations. Other tables in this section provide additional details for total net revenue (with outside parties and internal to the Government).

Personal Income Tax

This tax is levied on personal income under the provisions of the Income Tax Act.

In 1984-85, personal income tax was the largest source of Government revenue. It amounted to $29,254 million, or 46% of total net budgetary revenue.

Corporation Income Tax

This tax is levied on corporation income under the provisions of the Income Tax Act.

Corporation income tax was the second largest source of Government revenue. It amounted to $9,379 million in 1984-85, or 15% of total net budgetary revenue.

Non-Resident Income Tax

The non-resident income tax is levied on the income earned in Canada by non-residents. It is derived from tax withheld from dividends, interest, rents, royalties, alimony, and income from estates and trusts, paid to non-residents. It amounted to $1,021 million in 1984-85, or 2% of total net budgetary revenue.

Excise Taxes and Duties

Excise taxes and duties totalled $18,046 million in 1984-85, or 28% of total net budgetary revenue.

Sales tax

The sales tax, totalling $7,729 million in 1984-85, was the most important tax levied under the Excise Tax Act.

Customs import duties

The revenues from customs import duties, consisting mainly of *ad valorem* taxes on the importation of goods, totalled $3,796 million in 1984-85.

Excise duties

Excise duties, which totalled $1,462 million in 1984-85, are levied on alcoholic beverages (other than wines) and tobacco products. (Additional taxes on tobacco products and taxes on wines are levied under the Excise Tax Act.)

Petroleum and gas revenue tax and incremental oil revenue tax

The petroleum and gas revenue tax came into effect on January 1, 1981, and is applicable to net operating revenues related to the production of oil and gas.

The incremental oil revenue tax became effective January 1, 1982 and is levied on incremental revenues from oil discovered prior to 1981 and results from differences between the wellhead oil prices and the prices as scheduled in the National Energy Program of 1980. Commencing in June 1982, this tax has been suspended for three years for conventional oil. This tax remains in place for petroleum produced from tar sands mining projects in commercial production prior to 1976.

Canadian Ownership special charge

This charge is levied to increase public ownership of the oil and gas industry in Canada. Amounts received from the Canadian Ownership special charge were previously credited to the Canadian Ownership Account. See Note 2 to the audited financial statements included in Section 2 of this volume.

Oil export charges

The federal share of revenues from oil export charges totalled $408 million in 1984-85. In accordance with Section 17.1(1)(*b*) of the Energy Administration Act, oil export charges are shared with oil producing provinces. The share is in respect of oil produced in, and exported from, provinces during the year.

Excise tax—Gasoline

Receipts from the excise tax—Gasoline were $404 million in 1984-85. Under certain conditions, the amounts received may be refunded to purchasers. As of March 31, 1985, $477 million was received, and $73 million was refunded and charged to revenue.

Natural gas and gas liquids tax

This tax, which came into effect during 1980-81, was imposed on all sales of natural gas and gas liquids. Its rate has been set at zero per cent effective February 1, 1984.

Non-Tax Revenue

Return on Investments

Return on investments consists mainly of interest from loan and advances, transfer of profits and surpluses, and renta income from properties.

Return on investments, related to the assets on the Statement of Assets and Liabilities, is summarized in Table 5.4. Additional details are given in Section 14 of this volume and in the departmental sections of Volume II.

BUDGETARY EXPENDITURE

Budgetary expenditure consists of all charges to budgetary appropriations which affect the annual deficit or surplus of the Government. Such charges include those for work performed, goods received, services rendered, and transfer payments made, during the year, and, expenditure internal to the Government.

Expenditure excludes amounts charged to the Canada Pension Plan Account, the Unemployment Insurance Account except for benefits to fishermen, superannuation accounts, other specified purpose accounts, and other liability accounts.

In this section, expenditure is analysed in several different ways:

- by function, i.e. broad policies;
- by envelope, i.e. policy sector;
- by standard object, i.e. productive resources acquired or transfer payments made;
- by program, i.e. purpose; and,
- by type, i.e. operating, capital, and grants and contributions.

Expenditure by Function

The functional presentation of expenditure reflects the broad policies pursued by the Government. These functions, which are reflected in Table 6.1, are primarily services provided to the people of Canada or to other governmental jurisdictions within Canada.

The largest category of expenditure under the functional classification is health and welfare, which accounted for $31,357 million, or 31% of total net expenditure.

Expenditure by Envelope

Table 6.2 presents expenditure by envelope reflecting the broad policy sectors of the Government. The table is presented on both a gross and net basis and segregates expenditure with outside parties from expenditure internal to the Government. The difference between gross and net expenditure is revenue credited to appropriations. Other tables in this section provide additional details for total net expenditure (with outside parties and internal to the Government).

Expenditure by Standard Object

The standard object presentation of expenditure is related to the goods and services acquired, and transfer payments made, by the Government.

A comparative summary of expenditure by standard object is presented in Table 6.3. Additional details are given in Volume II.

Grants, contributions and other transfer payments were the largest category, and accounted for $49,190 million or 49% of total net expenditure. Payments included fiscal transfer payments to provinces, $5,521 million; payments under the Public Utilities Income Tax Act, $293 million; payments for insured health services and extended health care, $6,330 million; family allowance payments, $2,418 million; guaranteed income payments, $2,953 million; spouse's allowance payments, $249 million; old age security payments, $8,216 million; Canada Assistance Plan payments, $3,635 million; and, post-secondary education payments, $2,265 million.

Salaries and wages accounted for $10,789 million or 11% of total net expenditure. The increase of $681 million was due mainly to higher salary rates.

Public debt charges totalled $22,551 million or 22% of total net expenditure. The increase of $4,405 million was due mainly to an increase in unmatured debt.

Expenditure by Type

Expenditure may be classified under three major types: operating, capital, and grants and contributions. Operating expenditures consist of expenditures incurred in conducting the administrative and operating activities of the program; capital expenditures are for the construction and acquisition of fixed assets; grants and contributions represent payments for other than goods and services, made for the purpose of furthering program objectives.

A comparative summary of expenditure by type is presented in Table 6.5.

SUPPLEMENTARY STATEMENTS

Public Debt Charges

Public debt charges include interest on unmatured debt (including Treasury bills) and on specified purpose accounts, cost of issuing new loans, amortization of bond discounts, premiums and commissions, and the costs of servicing the public debt.

The increase of $3,832 million in public debt charges related to unmatured debt reflects mainly an increase in this debt, which rose from $143,160 million at March 31, 1984 to $172,898 million at March 31, 1985. The increase of $573 million in public debt charges related to specified purpose accounts was due mainly to an increase in superannuation accounts.

A comparative summary of public debt charges is presented in Table 6.6. Details can be found in Section 14 of this volume.

Expenditure under Statutory Authority

The spending authority provided by statutory appropriations is for specified purposes and for such amounts and such time as the acts prescribe. This spending authority does not generally lapse at the end of the year in which it is granted. Expenditure under such authority accounts for more than half of the total net expenditure each year.

In 1984-85, expenditure under statutory authority amounted to $62,159 million, accounting for 62% of the total net expenditure of $100,254 million.

Table 6.7 presents a comparative summary of these statutory expenditures.

LOANS, INVESTMENTS AND ADVANCES

Loans, investments and advances is a category of financial claims represented by debt instruments and ownership interests held by the Government of Canada, acquired through the use of parliamentary appropriations. Some of these appropriations permit repayments to be used for further loans and advances. Many appropriations are non-lapsing, that is, unexpended balances may be carried forward from year to year. Details of the use of non-budgetary appropriations, for loans, investments and advances, can be found in the departmental sections of Volume II.

Loans, investments and advances are recorded at cost and are subject to valuation to reflect estimated losses on realization. Foreign currency transactions are translated and recorded in Canadian currency equivalents at the exchange rates prevailing at the transaction dates. Loans, investments and advances resulting from foreign currency transactions are, in turn, reported at year-end closing rates of exchange; net gains are credited to revenue as premium and discount on exchange, while net losses are charged to budgetary expenditure of the Department of Finance.

The allowance established to reflect estimated losses on realization of financial claims held by the Government has been authorized by the Minister of Finance and the President of the Treasury Board, under Section 54(2)(b) of the Financial Administration Act.

Revenue received during the year on loans, investments and advances, is credited to return on investments; details are given in Section 14 of this volume. In accordance with stated accounting policies, accrued interest and interest due but not received are not reported as revenue. Table 7.15 gives details of recorded uncollected interest.

Transactions and year-end balances of loans, investments and advances are presented as follows:

—Crown corporations;

—provincial and territorial governments;

—national governments including developing countries;

—international organizations;

—Veterans' Land Act Fund advances;

—joint and mixed enterprises; and,

—miscellaneous.

Transactions and balances are further summarized in Sections 1 and 2 of this volume.

Some tables in this section present the continuity of accounts, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges, i.e. inflow and outflow of transactions. In addition, the term "account(s) without current transactions" has been included in some tables, to provide a link with figures published in the previous year's edition of the Public Accounts, and to show net transactions in accounts which were closed out in the previous year.

CROWN CORPORATIONS

Loans and advances to, and investments in, Crown corporations represent the balance of financial claims held by the Government against corporations for working capital, capital expenditure and other purposes, investment in the capital stock of corporations, and loans and advances to corporations for re-lending.

A Crown corporation means a parent Crown corporation or a wholly-owned subsidiary; a parent Crown corporation is wholly-owned directly by the Crown; a wholly-owned subsidiary is wholly-owned by one or more parent Crown corporations directly or indirectly through any number of subsidiaries each of which is wholly-owned directly or indirectly by one or more parent Crown corporations. These include the corporations listed in Parts I and II of Schedule C of the Financial Administration Act, the Bank of Canada, the Canada Council, the Canadian Broadcasting Corporation, the Canadian Film Development Corporation, the Canadian Institute for International Peace and Security, the Canadian Wheat Board, the International Development Research Centre, and the National Arts Centre Corporation.

A Crown corporation is ultimately accountable to Parliament, through a minister of the Crown, for the conduct of its affairs. Most of the Crown corporations listed in the schedules to the Financial Administration Act are agents of Her Majesty in right of Canada. This status is granted in one of the following ways:

(i) designation by Parliament, through a special act of incorporation;
(ii) statutory authorization; and,
(iii) proclamation by the Government Companies Operation Act.

Financial statements of parent Crown corporations can be found in Volume III of the Public Accounts. The financial statements of wholly-owned subsidiaries of Crown corporations are also included in this volume whenever their accounts are not consolidated with those of the parent corporation. These financial statements are appended to those of the related parent Crown corporation.

Lending Institutions

Table 7.2 presents a summary of the balances and transactions for the various types of loans, investments and advances which were made to Crown corporations providing financial assistance.

Canada Deposit Insurance Corporation

The Corporation was established by the Canada Deposit Insurance Corporation Act, to provide insurance, up to $60,000 per depositor per institution, on deposits with federal member institutions and approved provincial institutions.

The Corporation is an agent of Her Majesty, reports through the Minister of Finance, and is listed in Part I of Schedule C of the Financial Administration Act.

Section 37 of the Act provides that the Minister of Finance, with the approval of the Governor in Council, may advance to the Corporation amounts by way of loans on such terms and conditions as the Governor in Council may determine. The aggregate of such loans authorized to be outstanding at any time is $1,500,000,000.

The loan made during the year bears interest at the rate of 11.875% per annum, and is due March 6, 1986.

Canada Mortgage and Housing Corporation

The Corporation was established by the Canada Mortgage and Housing Corporation Act, to promote the construction of new houses, the repair and modernization of existing houses, the improvement of housing and living conditions in Canada, and to promote the development of communities through the provision of infrastructure facilities.

The Corporation is an agent of Her Majesty, reports through the Minister of Labour, and is listed in Part I of Schedule C of the Financial Administration Act.

During the year, the Corporation received financial assistance of $1,965.1 million from budgetary appropriations. It paid interest of $873.3 million and transferred $39.7 million of profit to the Government.

Capital stock

The Government's investment in the capital of the Corporation is authorized by Section 17 of the Canada Mortgage and Housing Corporation Act.

Housing

Advances have been made to enable the Corporation to lend money under the following sections of the National Housing Act:

- (*a*) Section 14.1—for rental housing projects on the security of a first mortgage and to sell or purchase loans made on rental housing projects;
- (*b*) Section 15—to any person to assist in
  - (i) the construction, purchase or improvement of a low-rental housing project;
  - (ii) the purchase of existing buildings and the land upon which they are situated and their conversion into a low-rental housing project; or,
  - (iii) the conversion of existing buildings into a low-rental housing project;
- (*c*) Section 27.5—to municipalities for selected neighbourhoods for the purpose of improving premises within the neighbourhood in respect of which the contribution is made;
- (*d*) Section 34.1—
  - (i) to the owner of a family housing unit or of housing accommodation of the hostel or dormitory type for the purpose of assisting in the repair, rehabilitation or improvement thereof;
  - (ii) to a non profit corporation for the purpose of assisting in the conversion of an existing residential building owned by the corporation, to a building containing a different number of family housing units, housing accommodation of the hostel or dormitory type or a different number of hostel or dormitory beds;
- (*e*) Section 34.18—to co-operatives for the purpose of assisting in the construction, acquisition or improvement of a housing project;
- (*f*) Section 42—to provinces, municipalities or public housing agencies to assist in the acquisition and the servicing of land for housing purposes;
- (*g*) Section 43—to a province, municipality or public housing agency for the construction or acquisition of a public housing project;
- (*h*) Section 58—to a person unable to obtain a loan from an approved lender for construction of a house or housing project; and,
- (*i*) Section 59—to Indians to assist in the purchase, improvement or construction of housing projects on Indian reserves.

The advances bear interest at rates from 3.5% to 17.625% per annum, and are repayable over 18 to 50 years, with final instalments between September 30, 1997 and September 30, 2034.

Real estate

Section 55 of the National Housing Act authorizes advances to: (*a*) acquire land or housing projects by way of purchase, lease or otherwise; (*b*) install services in and effect improvements to or in respect of land acquired, and develop and lay out such land for housing purposes; (*c*) construct, convert or improve housing projects; and, (*d*) acquire building materials and equipment and other personal property for use in connection with housing projects.

During the year, additional advances were authorized by Public Works Vote L100, Appropriation Acts No 1 and No 2, 1984-85, and by Labour Vote L30b, Appropriation Act No 3, 1984-85.

The advances bear interest at rates from 9.525% to 16.157% per annum, and are repayable over 50 years, with the final instalment on December 31, 2033.

Joint projects

Section 40 of the National Housing Act authorizes advances to undertake projects jointly with the government of any province or any agency thereof, for (*a*) the acquisition and development of land for housing purposes or for any purpose incidental thereof; (*b*) the construction of housing projects or housing accommodation of the hostel or dormitory type for sale or for rent; and, (*c*) the acquisition, improvement and conversion of existing buildings for a housing accommodation of the hostel or dormitory type.

The advances bear interest at rates from 5% to 17.96% per annum, and are repayable over 25 to 50 years, with final instalments between March 31, 2005 and September 30, 2034.

Urban renewal scheme

Advances have been made to enable the Corporation to lend money under Section 25 of the National Housing Act, to a province or municipality, to assist in the implementation of an urban renewal scheme.

The advances bear interest at rates from 5.31% to 8.75% per annum, and are repayable over 20 to 50 years, with final instalments between December 31, 1985 and December 31, 1999.

Student housing projects

Advances have been made to enable the Corporation to lend money under Section 47 of the National Housing Act, to a province or agency thereof, a municipality or agency thereof, a hospital, school board, university, college, cooperative association or charitable corporation, to assist in (*a*) the construction, acquisition or improvement of a student housing project; (*b*) the acquisition of existing buildings and their conversion into a student housing project; or, (*c*) the conversion of existing buildings into a student housing project.

The advances bear interest at rates from 5% to 10.54% per annum, and are repayable over 20 to 50 years, with final instalments between September 30, 1993 and December 31, 2030.

Sewage treatment projects

Advances have been made to enable the Corporation to lend money under Section 51 of the National Housing Act, to any province, municipality or municipal sewerage corporation, to assist in the establishment or expansion of a sewage treatment project, and in the construction of a trunk storm sewer system.

The advances bear interest at rates from 5% to 10.376% per annum, and are repayable over 18 to 50 years, with final instalments between September 30, 1993 and December 31, 2030.

Advances were made, pursuant to Section 9(6) of the National Housing Act, to enable the Corporation to discharge its obligations under Section 8 of the Act.

During the year, Labour Vote 26b, Appropriation Act No 3, 1984-85, authorized the forgiveness of all advances outstanding as of June 30, 1984.

Ownership assistance

Advances have been made to enable the Corporation to lend money under Section 34.15 of the National Housing Act, to assist in (*a*) the construction of a house or a condominium unit by a person who owns the house or condominium unit and intends to occupy the house, one of the family housing units thereof or the condominium unit, or by a builder who intends to sell the house or condominium unit to a person who will own and occupy the house, one of the family housing units thereof, or the condominium unit; or, (*b*) the acquisition of a house or condominium unit by a prospective qualified owner.

The advances bear interest at rates from 7.625% to 9.625% per annum, and are repayable over 20 to 50 years, with final instalments between December 31, 1992 and March 31, 1996.

Export Development Corporation

The Corporation was established by the Export Development Act, to facilitate and develop export trade by the provision of loans, insurance, guarantees and other financial facilities.

The Corporation is an agent of Her Majesty, reports through the Secretary of State for External Affairs, and is listed in Part I of Schedule C of the Financial Administration Act.

Capital stock

The Government's investment in the capital of the Corporation is authorized by Section 11 of the Export Development Act.

During the year, the Government subscribed for 760,000 additional shares for a total value of $76 million.

Loans

Loans to the Corporation are authorized by Sections 12 and 13 of the Export Development Act. Pursuant to Section 12, the Corporation may borrow money from public and private sources by any means, including the issue and sale of bonds, debentures, notes or other evidences of indebtedness of the Corporation. Pursuant to Section 13, loans to the Corporation may be made out of the Consolidated Revenue Fund on terms and conditions fixed by the Minister of Finance.

Section 14 limits the Corporation's outstanding borrowings under Sections 12 and 13 to an amount equal to ten times the aggregate of the paid-in capital of the Corporation from time to time and the retained earnings, if any, determined according to the most recent statements of accounts of the Corporation for a financial year, that have been audited by the Auditor General of Canada.

For the purposes of the Export Development Act, Section 31 also authorizes the making of loans by the Government of Canada through the Corporation. These loans are administered by the Corporation on behalf of the Government and are reported further in this section under "National governments including developing countries" and "Miscellaneous Loans, Investments and Advances".

The loans bear interest at rates from 5.5% to 9.25% per annum, and are repayable over 4 to 15 years, with final instalments between April 15, 1985 and October 15, 1988.

During the year, receipts and other credits included loan repayments of $115,967,502, while payments and other charges included a valuation adjustment of $553,550 in respect of loans totalling $4,500,000 US. The Corporation paid interest of $24.1 million to the Government.

(*a*) engage in exploration for, and development of, hydrocarbons and other types of fuel or energy;

(*b*) engage in research and development projects relating to fuel and energy resources;

(*c*) import, produce, transport, distribute, refine and market hydrocarbons of all descriptions;

(*d*) produce, distribute, transport and market other fuels and energy; and,

(*e*) engage or invest in ventures or enterprises related to the exploration, production, importation, distribution, refining and marketing of fuel, energy and related resources.

The Corporation is an agent of Her Majesty, reports through the Minister of Energy, Mines and Resources, and is listed in Part II of Schedule C of the Financial Administration Act.

During the year, the Corporation received financial assistance of $60.5 million from budgetary appropriations.

The Government's investment in the capital of the Corporation is authorized by Sections 5, 22, 24.1 and 25 of the Petro-Canada Act.

Bank of Canada

The Bank of Canada was established by the Bank of Canada Act, to regulate credit and currency, in the best interests of the economic life of the nation, to control and protect the external value of the national monetary unit, and to mitigate, by its influence, fluctuations in the general levels of production, trade, prices and employment so far as may be possible within the scope of monetary action, and generally to promote the economic and financial welfare of Canada.

The Bank is not an agent of Her Majesty and reports through the Minister of Finance.

The Government's investment in the capital of the Bank is authorized by Section 17 of the Act. An amount of $5,000,000 represents the par value of 100,000 shares, and the remaining balance of $920,000 represents premiums paid in respect of the acquisition, in 1938, of shares held by the public.

The profits of the Bank are remitted annually to the Government. In 1984-85, the profit of the Bank was $1,852.2 million.

Canada Ports Corporation

The Corporation was established by the Canada Ports Corporation Act, to administer, manage and control Canadian harbours, and any other harbour, work or property of Canada transferred by the Governor in Council.

The Corporation is an agent of Her Majesty, reports through the Minister of Transport, and is listed in Part II of Schedule C of the Financial Administration Act.

During the year, the Corporation received financial assistance of $35.2 million from budgetary appropriations.

Under the authority of the Canada Ports Corporation Act, loans are made to finance capital expenditures of various harbours under the jurisdiction of the Canada Ports Corporation. A summary of the balances and transactions for the loans made to various harbours follows:

	April 1/1984	Receipts and other credits	Payments and other charges	March 31/1985

The Corporation is an agent of Her Majesty, reports through the Minister of Transport, and is listed in Part I of Schedule C of the Financial Administration Act. The Corporation was authorized to be dissolved pursuant to the Crown Corporations Dissolution Authorization Act, passed by the House of Commons on September 11, 1985.

Capital stock

The Government's investment in the capital of the Corporation is recorded in this account.

Advances

The advances are repayable from moneys to be received upon collection of the final instalment on the sale of the eight vessels to Cuban interests which was due to be paid August 19, 1963 by an irrevocable letter of credit issued through the Bank of America. However, on July 3, 1963, the United States Cuban Assets Control Regulations became effective which prohibited the Bank of America from honouring payment of the draft. Since that time, negotiations to obtain a preferred status, in order to collect the receivable, have not been successful. It is the opinion of management, based on legal counsel, that these moneys plus applicable interest will be collected when the regulations are repealed.

A waiver of the application of the statute of limitations has been obtained until January 1, 1989, and further extensions will be obtained as required.

Canadian Patents and Development Limited

The Corporation was incorporated pursuant to the Canada Corporations Act, and continued under the Canada Business Corporations Act, to make available to the public through licensing arrangements with industry, the industrial and intellectual property which results from publicly-funded research and development.

The Government's investment in the capital of the Corporation is recorded in this account.

Government of Canada Financial Interest in Crown Corporations

Table 7.4 summarizes the Government's financial interest in its Crown corporations as at March 31, 1985.

In accordance with the accounting policies of the Government, the accounts of Crown corporations are not consolidated with those of the Government and only the financial transactions between the Government and Crown corporations are recorded in the accounts of Canada. Crown corporations are categorized as being either agents or non-agents of the Crown. Agency status is normally expressly stated in the articles of incorporation. Crown corporations are defined to include either parent Crown corporations or wholly-owned subsidiaries. A wholly-owned subsidiary is wholly-owned by one or more parent Crown corporations. This table includes consolidated financial information on parent Crown corporations. Financial information on unconsolidated wholly-owned subsidiary corporations is presented separately. This table summarizes financial information regarding agent and non-agent Crown corporations as at March 31, 1985. This financial information is based on financial statements prepared according to generally accepted private sector accounting principles. For Crown corporations with financial year ends other than March 31, unaudited financial information is included in the table. The table displays "Assets" less "Borrowings and other liabilities", to arrive at "Net assets". "Assets" are further analysed in Table 7.5 "Details of Government of Canada Financial Interest in Crown Corporations" which follows.

In accordance with Section 45 of the Financial Administration Act, the payment of all money borrowed by agent Crown corporations, and interest thereon, is a charge on and payable out of the Consolidated Revenue Fund. Such borrowings therefore constitute unconditional obligations of the Government and are recorded as such in the accounts of Canada net of borrowings expected to be repaid directly by these corporations. Such borrowings are included in the column "Borrowings from other than Government". The amounts which are expected to be repaid by the Government are deducted from this column and are described as the "Allowance for borrowings of agent Crown corporations expected to be repaid by the Government".

Borrowings of non-agent Crown corporations are not obligations of the Government. However, when the Government expressly guarantees such borrowings, they become potential obligations of the Government.

Balances which represent transactions with the Government, and which are recorded in the accounts of Canada include: long-term obligations to the Government, share capital and contributed surplus as well as claims against the Government. Such balances are described in this table as "Recorded financial interest" of the Government.

"Unrecorded financial interest" represents retained earnings of agent and non-agent Crown corporations adjusted for items which had previously been included in their asset and liability accounts. These adjustments arise from timing differences in the recording of transactions between the Crown corporations and the Government. Crown corporations record amounts payable to or receivable from Government on an accrual basis for such items as income taxes. The accounts of Canada do not include such amounts until payment is either received or made. Such amounts which represent transactions with the Government and which are not recorded in the accounts of Canada are adjusted and reported under "Unrecorded financial interest". They include: grants receivable, current or deferred income taxes receivable or payable, capitalized or accrued interest payable, sundry accounts payable, long-term capitalized leases payable and prepaid expenses related to Canada. "Unrecorded financial interest" adjustments represent funds which will be eventually received or disbursed by Canada. Also added to "Unrecorded financial interest" is the "Allowance for borrowings of agent Crown corporations expected to be repaid by the Government" as previously described. Total financial interest represents recorded and unrecorded financial interest. The minus sign indicates a negative financial interest.

Other information presented in this table includes "Change in financial interest from previous year" which identifies the net increase or decrease since April 1, 1984. The major changes in financial interest, including gross transactions with outside parties, are presented in Table 7.5 "Details of Government of Canada Financial Interest in Crown Corporations". Also included in this table is the "Financial assistance under budgetary appropriations" which summarizes the assistance received by these entities during 1984-85. Details are given in Table 7.7 "Financial Assistance under Budgetary Appropriations to Crown Corporations".

Also, Section 40 of the Financial Administration Act states that "an annual statement of all borrowing transactions on behalf of Her Majesty shall be included in the Public Accounts". A statement of all borrowing transactions on behalf of Her Majesty is included in Section 13 of this volume. Transactions and balances related to Crown corporations are presented in Note 3 to this table.

(1) All Crown corporations listed in this table are parent Crown corporations unless indicated by an asterisk(*).

(2) As a result of an amendment to the Financial Administration Act (FA Act), the following Crown corporations were added to this table: Pêcheries Canada Inc, Canada Council, Harbourfront Corporation, Mingan Associates, Ltd, National Arts Centre Corporation, St Anthony Fisheries Limited, Societa a responsibilita limitata Immobiliare San Sebastiano and Standards Council of Canada. Subsequently, the following corporations were also added to the FA Act and this table: Canadian Institute for International Peace and Security, International Centre for Ocean Development, International Development Research Centre, Prince Rupert Port Corporation and Halifax Port Corporation. The following unconsolidated subsidiaries are reported separately: Canada Lands Company (Mirabel) Limited, Canada Lands Company (Le Vieux Port de Montréal) Limited, Canada Lands Company (Vieux Port de Québec) Inc, Canertech Inc, CN Marine Inc, The Jacques Cartier and Champlain Bridges Incorporated and The Seaway International Bridge Corporation, Ltd.

Subsequent to the year end, Parliament approved legislation to procure the dissolution of Canadian National (West Indies) Steamships Ltd, St Anthony Fisheries Limited, Societa a responsibilita limitata Immobiliare San Sebastiano, Uranium Canada, Limited, and has sold the Northern Transportation Company Limited to the Inuvialuit Development Corporation and Nunasi Corporation.

This amendment to the FA Act also re-classified the National Battlefields Commission and Crown Assets Disposal Corporation as departmental corporations which are part of the Government as an accounting entity.

(3) The borrowing transactions shown below are borrowings by agent Crown corporations which are reported as such on the Government's Statement of Assets and Liabilities, except where the Government is the lender. Borrowings by non-agent Crown corporations are not included because such borrowings are not on behalf of Her Majesty.

(4) Canada Deposit Insurance Corporation—Unrecorded financial interest consists of premiums credited to the Deposit Insurance Fund plus adjusted accumulated net earnings. The deposits with member institutions insured by the Corporation totalled $172.6 billion as at April 30, 1985.

(5) Canada Development Investment Corporation: On March 30, 1984, Canadair Limited changed its name to Canadair Financial Corporation Inc. The loans and other general obligations of Canadair Limited have been assumed by Canadair Financial Corporation Inc. The financial statements of Canadair Financial Corporation Inc are consolidated with those of the Canada Development Investment Corporation and the outstanding loans amounting to $1,146,173 (including $29,197 of accrued interest and exchange adjustments) are included under the Canada Development Investment Corporation. This amount is reported in this table and the principal portion is included in the Government's Statement of Assets and Liabilities as "Borrowings of Canadair Financial Corporation Inc to be repaid by the Government" while the interest portion is included under "Interest and matured debt" which is part of "Other liabilities". Also included under the Canada Development Investment Corporation are the borrowings of its subsidiaries The de Havilland Aircraft of Canada, Limited, and Canadair Limited amounting to $21,148. In addition, the borrowings of Eldorado Nuclear Limited, another subsidiary of the Canada Development Investment Corporation, amounting to $567,837 are also included. During the current fiscal year, Canadair Financial Corporation Inc and The de Havilland Aircraft of Canada, Limited received respectively an amount of $300,000,000 and $150,000,000 under budgetary appropriations. The separate financial statements of Canadair Limited, The de Havilland Aircraft of Canada, Limited and Eldorado Nuclear Limited, are included in Volume III of the Public Accounts as appendices to the Canada Development Investment Corporation. In June 1985, the Government passed legislation authorizing the Minister of Finance to make arrangements to assume direct responsibility for the repayment of outstanding loan obligations of Canadair Financial Corporation Inc amounting to approximately $1.2 billion. Subsequently, by the end of August 1985, the Government had repaid approximately $763,625,000 of this amount leaving $280 million US and $50 million Cdn outstanding.

(6) Canada Mortgage and Housing Corporation—Unrecorded financial interest includes a net deficit of $777,317,000 in insurance and guarantee funds. The estimated amount of insurance in force as at March 31, 1985 was $39.5 billion.

(7) Canadian National (West Indies) Steamships Ltd—The assets of the Corporation include blocked funds amounting to $878,582 of which $470,400 has been due since 1963 from Cuban interests, and, $408,182 represents interest due from the Bank of America.

(8) Pêcheries Canada Inc—Financial information used is as of December 31, 1984.

(9) Canertech Inc is an unconsolidated subsidiary of Petro-Canada and financial information used is as of December 31, 1984.

(10) Bank of Canada—Recorded share capital includes $920,000 representing a premium paid in respect of the acquisition in 1938 of shares held by the public. Consequently, unrecorded financial interest has been reduced by $920,000. "All other liabilities" include an amount of $110,022,384 representing deposits of the Government of Canada on hand in the Bank of Canada. Income and expense figures are as of December 31, 1984.

(11) Canadian National Railway System—Recorded share capital includes a premium of $19,452,732 representing the excess of previous years' depreciation not charged to Canadian National Railway's retained earnings over the Government's investments in Canadian Government Railways and Canadian National Railways Company. These investments were charged to budgetary expenditure by the Government of Canada and were credited to shareholder's equity by Canadian National Railways. Consequently, after the capital revision of Canadian National Railways, the recorded capital stock of the Corporation is $19,452,732 less than the recorded investment of the Government. Accordingly, unrecorded financial interest is being reduced by this deficiency. "Borrowings from other than Government" include $97,347,000 which is guaranteed by the Government.

(12) In accordance with the International Centre for Ocean Development Act, financial information will not be available until December 31, 1985.

(13) Mingan Associates, Ltd—No financial information available.

(14) Less than $500.

Details of Government of Canada Financial Interest in Crown Corporations

Table 7.5 presents balances which appear in Table 7.4 "Government of Canada Financial Interest in Crown Corporations". "Assets" are segregated between "Financial assets" and "Non-financial assets". "Financial assets" comprise cash, short-term investments and accounts receivable; "Non-financial assets" include inventories, prepaid expenses, deferred charges, intangible assets, and fixed assets net of accumulated depreciation.

This table also presents changes in the unrecorded financial interest for the year ended March 31, 1985, by displaying the opening balance, income and expenses and resulting net income (loss), other adjustments and the closing balance for each Crown corporation.

Income and expenses of Crown corporations are shown net of transactions with the Government and other Crown corporations and are those of the previous twelve months. This results in the amount of net income (loss) received from outside sources.

Other adjustments include the net effect, from year to year, of the timing differences which make up the balance of unrecorded financial interest. These items relate to asset and liability accounts recorded by the corporations but not recorded in the accounts of Canada.

The revenues and expenses of Crown corporations which relate to the Government and other Crown corporations complete the other adjustments category.

Consolidation of Crown Corporations with Government

Note 5 to the Audited Financial Statements, in Section 2 of this volume, presents a summarized consolidated statement of assets and liabilities together with gross revenue and expenditure.

In accordance with the accounting policy stated in Note 1(i) to the Audited Financial Statements, the assets, liabilities, revenues and expenditures reported in the separate financial statements of Crown corporations are not consolidated in the Government's financial statements. As a consequence, revenues and expenditures reported in the Government's statements include, respectively, amounts received from and paid to these corporations, but exclude corporate revenues and expenditures resulting from transactions with parties other than the Government. Similarly, assets and liabilities reported in the Government's statements include, respectively, amounts owing from and payable to these corporations, but exclude corporate assets and liabilities resulting from transactions with parties other than the Government.

However, the Government provides consolidated information which entails the elimination of transactions between the Government and Crown corporations and between Crown corporations themselves.

Before balances and transactions between the Government and Crown corporations and between Crown corporations themselves can be eliminated, Crown corporations' accounts must be adjusted to the Government's modified cash basis of accounting. In order to arrive at Crown corporation balances and transactions on the Government's modified cash basis of accounting, adjustments must be made for differences in accounting policies. The differences include accounts receivable, fixed assets, inventories, prepaid expenses, deferred revenues and credits, and other items not recorded on the Government's Statement of Assets and Liabilities. Similarly, revenue must be accounted for strictly on the cash basis and items such as depreciation, gain or loss on disposal of fixed assets including acquisitions and proceeds, are also reversed to revenue or expenditure. In addition, revenues and expenses of Crown corporations related to the Government and other Crown corporations which had been previously excluded for financial interest purposes are now included for consolidation purposes in order to be eliminated.

All such amounts resulting from accounting policy differences and additions are aggregated and deducted from the total financial interest figures shown on Tables 7.4 and 7.5 and are described as "Conversion to the Government's modified cash basis of accounting for consolidation purposes". Government balances and transactions are then added. They are followed by eliminations of reciprocal assets, liabilities, revenues and expenditures between the Government and Crown corporations and Crown corporations themselves to arrive at consolidated totals.

Financial Assistance under Budgetary Appropriations to Crown Corporations

Table 7.7 summarizes financial assistance under budgetary appropriations for both agent and non-agent Crown corporations. It should be read in conjunction with Table 7.4. The purpose for which payments have been made under budgetary appropriations is segregated between: (*a*) amounts to cover operating expenses and (*b*) amounts for capital expenditures.

All amounts reported represent charges to appropriations or authorities approved by Parliament.

Federal-provincial employment loans program

Loans have been made, to provinces, provincial agencies and municipalities, to assist in the creation of employment. The loan authority provides for the forgiveness of that portion of the principal amount equal to 75% of normal direct on-site payroll costs incurred and paid before June 30, 1972.

The loans bear interest at rates from 6.5% to 7.41% per annum, and are repayable either in annual instalments over 10 to 20 years, or at maturity, with final repayments between April 1, 1988 and November 30, 1994.

Federal-provincial fiscal arrangements

These amounts represent overpayments in respect of provincial equalization entitlements under the Federal-Provincial Fiscal Arrangements and Established Programs Financing Act. These overpayments are non-interest bearing and are recovered in the subsequent year.

Municipal Development and Loan Board

Under the Municipal Development and Loan Act, loans have been made, to provinces and municipalities, to augment or accelerate municipal capital works programs.

The loans bear interest at rates from 5.25% to 5.625% per annum, and are repayable in annual or semi-annual instalments over 15 to 50 years, with final instalments between April 1, 1985 and March 31, 2016.

Special development loans program

Loans have been made, to provinces, provincial agencies and municipalities, to assist in the creation of employment.

The loans bear interest at rates from 5.91% to 7.54% per annum, and are repayable either in annual or semi-annual instalments over 10 to 20 years, or at maturity, with final repayments between April 1, 1987 and March 30, 1993.

Winter capital projects fund

Loans have been made, to provinces, provincial agencies and municipalities, to assist in the creation of employment. There is provision for the forgiveness of that portion of the principal amount equal to 50% of normal direct on-site payroll costs for the duration of the loan program, plus 50% for the periods December-May 1973, 1974 and 1975. Finance Vote L13a, Appropriation Act No 1, 1974, authorized in fiscal years subsequent to March 31, 1976, the consolidation of any loan made pursuant to that authority, which may include the amount of interest accrued thereon to the date of consolidation.

The loans bear interest at rates from 7.11% to 9.84% per annum, and are repayable either in annual instalments over 5 to 20 years, or at maturity, with final repayments between April 1, 1985 and February 28, 1999.

Atlantic Development Board carry-over projects

Loans have been made to finance certain water projects that were carried over from the Atlantic Development Board. Loans were made pursuant to terms and conditions of agreements between Canada and the provinces in the Atlantic region, with the approval of the Governor in Council.

The terms and conditions of the loans, with their year-end balances, are as follows:

(*a*) bearing interest at the rate of 7.5% per annum, repayable over 28 years at various anniversary amortization dates, with the final instalment on July 31, 1999, $48,338; and,

(*b*) bearing interest at rates from 7.161% to 8.5% per annum, repayable over 30 years at various anniversary amortization dates, with final instalments between November 21, 1998 and April 1, 2006, $5,982,686.

Atlantic Provinces Power Development Act

Loans have been made to the Atlantic provinces, to assist in the generation of electrical energy by steam driven generators in the provinces, and in the control and transmission of electric energy.

The loans bear interest at rates from 4.5% to 8.5% per annum, and are repayable in equal annual instalments over 29 to 40 years, with final instalments between March 31, 1992 and March 31, 2014.

Special areas and highways agreement

Loans have been made to finance development of community and industrial infrastructure projects for special areas, and for highway development, pursuant to terms and conditions of agreements between Canada and the provinces, with the approval of the Governor in Council.

The loans bear interest at rates from 5.768% to 10.164% per annum, and are repayable in equal annual instalments over 5 to 30 years, with final instalments between March 31, 1986 and March 31, 2009.

Regional electrical interconnections

Loans have been made to assist in financing regional electrical interconnections, under agreements with the Provinces of Manitoba, New Brunswick, Nova Scotia and Prince Edward Island, and the Government of Canada.

During the year, additional loans were authorized by Energy, Mines and Resources Vote L30, Appropriation Acts No 1 and No 2, 1984-85.

The loans bear interest at rates from 9% to 15.625% per annum, and are repayable in annual instalments over 29 to 31 years, with final instalments between December 31, 2008 and October 31, 2009.

The annual instalment from the Province of New Brunswick, due March 31, 1985, was received in 1985-86.

Mainland Investments Limited

Loans have been made to the Province of Nova Scotia for the purchase of shares of Mainland Investments Limited, in accordance with an agreement between Canada and Nova Scotia, pursuant to Section 8 of the Special Areas Act.

The loans bear interest at the rate of 7% per annum, and are repayable over 15 years, with the final instalment on February 28, 1988. During the first 5 years, interest only is payable, and during the subsequent 10 years, equal annual instalments of principal and accrued interest are required on March 30.

Loading ramp, Yarmouth, NS

Loans have been made to the Province of Nova Scotia, for the construction of an end-loading ramp at Yarmouth, Nova Scotia.

The loans bear interest at the rate of 8% per annum, and are repayable in semi-annual instalments over 15 years, with the final instalment on September 14, 1985.

Comprehensive development plan agreement

Loans have been made to Prince Edward Island, to assist in financing the realization of a comprehensive and co-ordinated development plan of the province, pursuant to an agreement with the province, whose territory has been designated a "special rural development area".

The terms and conditions of the loans, with their year-end balances, are as follows:

(*a*) repayable over 30 years in equal instalments due at various anniversary dates, bearing interest at rates from 6.688% to 9.375% per annum, with final instalments between March 25, 2000 and March 27, 2005, $4,891,000; and,

(*b*) repayable in equal annual instalments over 30 years, bearing interest at rates from 6.688% to 9.375% per annum, with final instalments between March 31, 2001 and March 31, 2005, $6,663,151.

Town of Oromocto

Capital assistance loans have been made to the Town of Oromocto, New Brunswick.

The loans bear interest at rates of 5.25%, 5.375% and 5.625% per annum, and are repayable in equal semi-annual instalments over 20 years, with final instalments between July 1, 1985 and April 1, 1986.

Agricultural service centres

Loans and advances have been made to provincial and municipal authorities, to assist in the construction or expansion of water supply and waste disposal facilities in key agriculture service centres, which are essential to rural adjustment and urban development in the agricultural portion of the Prairie region.

During the year, additional loans and advances were authorized by Agriculture Vote L20, Appropriation Acts No 1 and No 2, 1984-85.

Advances

The amounts shown as advances represent outlays made on incomplete projects. When a project is completed, the advances are transferred to the loan account.

Upon completion of projects, interest is calculated and added to the amount of advances being transferred to loans in accordance with the terms and conditions of the agreements between Canada and the provinces, with the approval of the Governor in Council.

Loans

This account records amounts transferred from the advances account when projects are completed.

The terms and conditions of the loans, with their year-end balances, are as follows:

(*a*) repayable in equal annual instalments over 20 years, bearing interest at rates from 6.747% to 13.476% per annum, with final instalments between March 30, 1992 and March 30, 2003, $13,217,272; and,

(*b*) repayable in equal annual instalments over 20 years, bearing interest at rates from 9.593% to 13.466% per annum, with final instalments between March 31, 1999 and March 31, 2001, $310,232. No loan repayments were received from the Province of Alberta since 1980-81.

South Saskatchewan River project—Treasury bills

Treasury bills are received as payment of the Province of Saskatchewan's share of certain expenditures on the South Saskatchewan River project.

The Treasury bills bear interest at rates from 5% to 5.875% per annum, and are repayable in semi-annual instalments, with the final instalment on December 31, 1986.

China

A loan to China was authorized under the Export Credits Insurance Act.

Greece

A non-interest bearing loan to Greece was authorized by PC 1932-2630. Parliamentary authority is required to write-off the balance.

Jamaica—Economic assistance

A loan has been made to the Government of Jamaica, to provide economic assistance. The maturity under the agreement is August 9, 1989. Interest at 11% per annum is payable annually on August 9. Up to August 9, 1989, the interest rate will be equal to the Crown corporations' 5 year borrowing rate.

The agreement, as amended in 1984, provides for the deferment of one-half of the interest due on August 9, 1984 and is repayable in semi-annual instalments over the period February 15, 1989 to August 15, 1993 and bears interest at a rate of 13.5% per annum.

United Kingdom

The United Kingdom Financial Agreement Act, 1946

Under authority of the United Kingdom Financial Agreement Act, a credit of $1,250,000,000 was extended to the

Government of the United Kingdom which could have been drawn on at any time prior to December 31, 1951. The purpose of the credit was to facilitate purchases by the United Kingdom of goods and services in Canada and to assist the United Kingdom in meeting transitional post-war deficits in its current balance of payments, in maintaining adequate reserves of gold and dollars, and in assuming the obligations of multilateral trade. No interest was payable prior to January 1, 1951. The amount of the credit drawn by December 31, 1951 was to be repaid in 50 annual instalments beginning on that date, with interest at the rate of 2% per annum, with the final instalment on December 31, 2000.

Deferred principal

The agreement, as amended in 1957, provides for the deferment of interest in respect of the year 1956 and of seven instalments of principal and interest after December 31, 1956, under certain conditions. Interest for 1956, and interest and principal for 1957, 1964, 1965, 1968 and 1976 were deferred. The maturity of the deferrals is to commence December 31, 2001, and continue until December 31, 2006.

Developing countries—Special loan assistance

Special loan assistance is given to developing countries. During the year, additional loans were authorized by External Affairs Vote L45, Appropriation Acts No 1 and No 2, 1984-85.

The following table presents the balances and transactions for the loans made to developing countries, together with their terms and conditions of repayments.

Similar assistance has been provided to developing countries by way of subscriptions to the capital of the International Development Association in the amount of $1,898 million, and loans to other international financial institutions in the amount of $1,188 million. These amounts are reported later in this section under the heading "International Organizations".

Development of export trade

Pursuant to Section 31 of the Export Development Act, the Governor in Council may authorize the Corporation to make loans to foreign customers where the liability is for a term, or in an amount in excess of that normally assumed by the Corporation. Such loans are financed directly by payments out of the Consolidated Revenue Fund and are administered by the Corporation on behalf of the Government of Canada.

During the year, receipts and other credits included loan repayments of $22,984,192, while payments and other charges included loans of $9,321,257 and a valuation adjustment of $14,170,896 in respect of loans totalling $168,103,481 US. Interest of $27.1 million was received and credited to Non-tax revenue—Return on investments.

The loans bear interest at rates from 3.25% to 10.5% per annum, and are repayable over 6 to 22 years, with final instalments between April 1, 1985 and March 25, 2008.

North Atlantic Treaty Organization—Damage claims recoverable

Article VIII of the NATO Status of Forces Agreement signed April 4, 1949, as amended, deals with claims for damages to third parties arising from accidents in which a member of a visiting force is involved. This account is charged with the amount recoverable from other states, for claims for damages which took place in Canada, and is credited with recoveries.

The advances are non-interest bearing and have no specific repayment terms.

INTERNATIONAL ORGANIZATIONS

This group records Canada's subscriptions to the capital of the African Development Bank, the Asian Development Bank, the Caribbean Development Bank, the Inter-American Development Bank, the International Bank for Reconstruction and Development (i.e. World Bank), the International Development Association and the International Finance Corporation. It also includes loans and advances to other international organizations.

Capital subscriptions are made in part by the issuance of non-interest bearing, non-negotiable demand notes. The amounts advanced or loaned vary according to the needs of the organizations concerned, and the terms of the agreements.

The net position of the Government vis-à-vis the international organizations has been obtained by deducting from subscriptions, loans and advances, the non-interest bearing notes issued by Canada to these organizations. These notes, payable on demand, represent that portion of the investment by Canada in these organizations which has not yet been encashed by them. These notes are encashed subject to the financial requirements of these organizations.

Table 7.11 presents a summary of the balances and transactions for the subscriptions, loans and advances to international organizations.

(1) The subscriptions to the Association and the loans to the international financial institutions are used to lend funds to developing countries at rates favourable to the borrowers. In addition, as described earlier in this section, under the heading "National Governments including Developing Countries", special loan assistance amounting to $3,080 million has also been provided to developing countries.

African Development Bank

This account records Canada's subscriptions to the capital of the African Development Bank, as authorized by the International Development (Financial Institutions) Assistance Act, the International Development (Financial Institutions) Continuing Assistance Act, and External Affairs Vote L55, Appropriation Acts No 1 and No 2, 1984-85.

At year end, authority had been granted for the purchase of 4,200 paid-in shares and 12,600 callable shares. Instalment payments for the paid-in shares are to be made in non-interest bearing, non-negotiable demand notes. These notes are deducted from subscriptions to show the net position of the Government vis-à-vis the Bank.

During the year, transactions included additional subscriptions in non-interest bearing demand notes.

As at March 31, 1985, Canada's instalment payments amounted to $35,130,263 for 2,520 paid-in shares. The 12,600 callable shares are subject to call by the Bank under certain circumstances. Canada's commitment for callable shares has a current value of $175,651,308.

Asian Development Bank

This account records Canada's subscriptions to the capital of the Asian Development Bank, as authorized by the International Development (Financial Institutions) Continuing Assistance Act, and various appropriation acts (including External Affairs Vote L55, Appropriation Acts No 1 and No 2, 1984-85).

At year end, authority had been granted for the purchase of 11,110 paid-in shares and 81,433 callable shares. Instalment payments for the paid-in shares may be made in cash or in non-interest bearing, non-negotiable demand notes. These notes are deducted from subscriptions to show the net position of the Government vis-à-vis the Bank.

During the year, transactions included additional subscriptions in cash and in non-interest bearing demand notes, and a valuation adjustment.

As at March 31, 1985, Canada's instalment payments amounted to $105,434,978 US for 8,740 paid-in shares and 9,480,000 Special Drawing Rights (SDRs) for 948 paid-in shares. These balances were translated into Canadian dollars at year-end closing rates of exchange ($1 US/$1.3636 Cdn and 1 SDR/1.35507 Cdn). The 81,433 callable shares are subject to call by the Bank under certain circumstances. Canada's commitment for callable shares has a current value of $439,147,591 US and 450,300,000 SDRs valued at $1,209,009,675 Cdn at year-end closing rates of exchange.

Caribbean Development Bank

This account records Canada's subscriptions to the capital of the Caribbean Development Bank, as authorized by the International Development (Financial Institutions) Continuing Assistance Act, and various appropriation acts (including External Affairs Vote L55, Appropriation Act No 1 and No 2, 1984-85).

At year end, authority had been granted for the purchase of 1,585 paid-in shares and 5,355 callable shares. Canada may issue, as payment for shares purchased, pending cash requirements by the Bank, non-interest bearing, non-negotiable demand notes. These notes are deducted from subscriptions to show the net position of the Government vis-à-vis the Bank.

During the year, a valuation adjustment transaction was made.

As at March 31, 1985, Canada's instalment payments amounted to $9,560,310 US for 1,585 paid-in shares. This balance was translated into Canadian dollars at the year-end closing rate of exchange ($1 US/$1.3636 Cdn). The 5,355 callable shares are subject to call by the Bank under certain circumstances. Canada's commitment for callable shares has a current value of $32,300,021 US, valued at $44,044,309 Cdn at the year-end closing rate of exchange.

Inter-American Development Bank

This account records Canada's subscriptions to the capital of the Inter-American Development Bank, as authorized by the International Development (Financial Institutions) Continuing Assistance Act, and various appropriation acts (including External Affairs Vote L55, Appropriation Acts No 1 and No 2, 1984-85).

At year end, authority had been granted for the purchase of 9,982 paid-in shares and 115,220 callable shares. Instalment payments for the paid-in shares may be made in cash or in non-interest bearing, non-negotiable demand notes. These notes are deducted from subscriptions to show the net position of the Government vis-à-vis the Bank.

During the year, transactions included additional subscriptions in the form of non-interest bearing demand notes, and a valuation adjustment.

As at March 31, 1985, Canada's instalment payments amounted to $105,903,066 US for 8,768 paid-in shares. This balance was translated into Canadian dollars at the year-end closing rate of exchange ($1 US/$1.3636 Cdn). The 115,220 callable shares are subject to call by the Bank under certain circumstances. Canada's commitment for callable shares has a current value of $1,389,948,405 US, valued at $1,895,333,645 Cdn at the year-end closing rate of exchange.

International Bank for Reconstruction and Development (World Bank)

This account records Canada's subscriptions to the capital of the International Bank for Reconstruction and Development, as authorized by the Bretton Woods Agreements Act, and various appropriation acts. During the year, transactions included the fourth and fifth instalments in payment for 3,344 shares, and a valuation adjustment.

Canada has subscribed for 21,782 shares of the Bank of which 10% has been paid by cash and notes. The remaining 90% is represented by a guarantee subject to call by the Bank only when required, to meet obligations of the Bank for funds borrowed or loans guaranteed by it, and not for use by the Bank in its lending activities or for administrative expenses.

As at March 31, 1985, the foreign currency balance was translated into Canadian dollars at the year-end closing rate of exchange ($1 US/$1.3636 Cdn).

International Development Association

This account records Canada's subscriptions to the capital of the International Development Association, as authorized by the International Development Association Act, and various appropriation acts. The subscriptions to the Association, which is part of the World Bank Groups, are used to lend funds to developing countries for development purposes, at rates highly favourable to the borrower (no interest, with a 50 year maturity and 10 years of grace).

During the year, transactions included additional subscriptions in the form of non-interest bearing, non-negotiable demand notes. These notes are deducted from the subscriptions to show the net position of the Government vis-à-vis the Association.

International Finance Corporation

This account records Canada's subscriptions to the capital of the International Finance Corporation, which is part of the World Bank Groups, as authorized by various appropriation acts.

At year end, authority had been granted for the purchase of 20,952 paid-in shares.

During the year, a valuation adjustment transaction was made.

As at March 31, 1985, Canada's total instalment payments amounted to $20,952,000 US for 20,952 paid-in shares. This balance was translated into Canadian dollars at the year-end closing rate of exchange ($1 US/$1.3636 Cdn).

International financial institutions

This account records loans for assistance to international financial institutions, as authorized by the International Development (Financial Institutions) Assistance Act, the International Development (Financial Institutions) Continuing Assistance Act, and various appropriation acts (including External Affairs Votes L50 and L55, Appropriation Acts No 1 and No 2, 1984-85).

The balances and transactions for loans to various international financial institutions are as follows:

International Tin Council

This account records Canada's subscriptions to the International Tin Council, as authorized by previous appropriation acts. The subscriptions are for the investment in the buffer stock previously established and carried forward under the Sixth International Tin Agreement.

International Natural Rubber Agreement

This account records Canada's contributions to the financing of the natural rubber buffer stock, as authorized by a previous appropriation act. Pursuant to the International Natural Rubber Agreement, 1979, Canada is committed to participate in the funding of the rubber buffer stock up to $12,500,000.

During the year, Canada received a refund of $744,229 as a result of an adjustment to contributions required from participating members.

International organizations and associations

These items represent the historical value of payments made by the Canadian Government to working capital funds maintained by international organizations of which Canada is a member. Participation in the financing of these working capital funds, on the basis of the scale of assessments, is prescribed by financial regulations for membership in the organizations. Payments into the funds are not subject to interest or repayment schedules, but are recorded by the organizations as credits from member states. Payments by Canada were authorized by appropriation acts.

During the year, an additional advance to the working capital fund of the Paris Union of the World Intellectual Property Organization was authorized by External Affairs Vote L12b, Appropriation Act No 3, 1984-85.

During the year, Canada made a payment of 14,451 Swiss Francs valued at $7,292 Cdn to the Paris Union of the World Intellectual Property Organization. In addition, Canada received a refund of $800 US valued at $1,056 Cdn from the International Atomic Energy Agency.

This account also records payments and the balance outstanding on United Nations bonds purchased by the Canadian Government in September 1962. The bonds yield interest at the rate of 2% per annum, and are repayable over 25 years by annual instalments in amounts from 3.1% to 5.1% of the amount subscribed. During the year, Canada's investment of $923,520 US as at April 1, 1984, was reduced by a payment of $299,520 US valued at $401,057 Cdn. Payments and other charges amounting to $73,440 represent a valuation adjustment of Canada's foreign investment of $624,000 US translated into Canadian dollars at the year-end closing rate of exchange ($1 US/$1.3636 Cdn).

VETERANS' LAND ACT FUND ADVANCES

Advances have been made, under Parts I and III of the Veterans' Land Act, for the acquisition of land, permanent improvements, removal of encumbrances, purchase of stock and equipment, and protection of security and, under Part II of the Act, for the purchase, subdivision and development of land, and for progress payments to veterans during construction and completion of unfinished houses, after termination of construction contracts, etc. On completion of the construction contract for each house, Canada Mortgage and Housing Corporation will place or arrange to have placed, a mortgage on the property and will reimburse the Fund the full cost of that property. The total amount authorized to be outstanding at any time is $605,000,000.

A provision equal to 1/10 of the benefits to veterans was established each year up to and including 1978-79. Since that time, a forecast of requirements has been performed each year, and provisions are established as necessary. These provisions are charged to budgetary expenditure and credited to the allowance for conditional benefits account. The allowance for conditional benefits account represents the accumulated net provisions for benefits to veterans in the form of forgiveness of loans authorized by the Veterans' Land Act. These benefits come into effect only after certain conditions are fulfilled by the veterans. At the end of 10 years, the conditions having been met, the accumulated provision is charged to the allowance for conditional benefits account, and credited to the veteran's loan account.

Table 7.12 summarizes the balances and transactions for advances to the Veterans' Land Act Fund.

Canada Development Corporation

The Corporation was established by the Canada Development Corporation Act, to assist in the creation or development of businesses, resources, properties and industries in Canada. The Minister of Finance may subscribe to purchase and hold shares of the Corporation for the Government of Canada.

The Government has purchased, pursuant to Section 35 of the Act, 30,711,990 no par value common shares.

The Government's holding of shares represents 83.6% of the common shares outstanding, and 47.3% of the voting rights.

On June 27, 1985, legislation respecting the reorganization of Canada Development Corporation (CDC) was first introduced in the House of Commons and as of September 16, 1985, such legislation had not been passed. This legislation authorizes the sale of CDC's common shares held by the Government subject to its terms and conditions. Subsequent to the year end, 23,000,000 common shares, at a unit price of $11.50, were subscribed by the public.

Canarctic Shipping Company Limited

In 1977-78, 305,996 common shares of Canarctic Shipping Company Limited having a total value of $305,996, and representing 51% of the common shares outstanding, were purchased and charged to budgetary expenditure (Transport Vote 10—Marine operating expenditures).

Cooperative Energy Corporation

The Corporation was established under the Cooperative Energy Act, to bring together a number of co-operative financial, agricultural, service and marketing institutions to participate in the Canadian oil and gas industry. The Corporation is a holding company whose shareholders are the participating co-operatives and the Government of Canada.

The Minister of Energy, Mines and Resources may subscribe for, acquire and hold shares and equity debentures of the Corporation for the Government of Canada. For that purpose, the Government of Canada may provide, over the next three years, up to $100,000,000 to match investment funds contributed by participating co-operative organizations.

The Government's investment in the capital of the Corporation, as authorized by the Cooperative Energy Act, is recorded in this account and is made up of:

	March 31, 1985
	$
Equity debentures	3,075,900
57,804 class B shares	5,780,400
489,477 class D shares	48,947,700
	57,804,000

The equity debentures pay 6% interest per year, payable every December 31. As of March 31, 1985, the Government received 454,547 class C shares at $1 each in lieu of cash for the interest due on the equity debentures. These class C shares are not recorded in the accounts of Canada.

Lower Churchill Development Corporation

This account records the Government's investment in the capital of the Corporation. In respect of Canada's participation with the Government of Newfoundland in the development of the hydro-electric power potential of the Lower Churchill River in Labrador, the Government is authorized to purchase approximately 49% of the shares of the Lower Churchill Development Corporation.

The Government has purchased 1,475 class A shares, representing 49% of the shares outstanding. The balance of the outstanding shares is owned by Newfoundland and Labrador Hydro.

Newfoundland and Labrador Development Corporation Limited

Capital stock

The Government has purchased 200 ordinary $1 par value shares of Newfoundland and Labrador Development Corporation Limited, in accordance with an agreement between Canada and Newfoundland pursuant to Section 8(3)(c) of the Special Areas Act. This represents 40% of the authorized shares. The balance of the outstanding shares is owned by the Government of Newfoundland.

Loans

Loans have been made to provide financing and other services to small and medium-sized businesses in Newfoundland.

The loans bear interest at rates from 8.375% to 18.375% per annum, and are repayable at the end of 10 years, with final repayments between April 13, 1987 and March 31, 1992.

N.S. Holdco Limited

The Atlantic Fisheries Restructuring Act authorizes the investment and the provision of financial assistance for the restructure of fishery enterprises to help Atlantic fisheries become more viable, competitive and privately-owned.

Capital stock

During the year, the Government purchased 3,500 class AA-1 preferred shares and 14,000 senior class 1 preferred shares of N.S. Holdco Limited for $3,500,000 and $14,000,000, respectively. N.S. Holdco Limited is the Nova Scotia—based holding company for the federal equity investment in National Sea Products of Halifax, Nova Scotia that was formed from restructuring National Sea Products Limited and HB Nickerson and Sons Limited. The Company issued 3,500 common voting shares without nonimal or par value which are held in proportion to the class AA-1 preferred shares.

As at March 31, 1985, the Government owns 31% of the issued common voting shares and 25% of the issued preferred non-voting shares of N.S. Holdco Limited. The balance of the shares is owned by the Bank of Nova Scotia.

Advance

During the year, the Government advanced $3,000,000 to N.S. Holdco Limited to permit the reimbursement to the Bank of Nova Scotia of costs associated with the restructure of National Sea Products Limited ans HB Nickerson and Sons Limited. In exchange for the amount advanced, the Government is to receive preferred shares of N.S. Holdco Limited.

As at March 31, 1985, the amount advanced was still being held in trust by N.S. Holdco Limited pending final settlement of the refinancing agreement between National Sea Products Limited and HB Nickerson and Sons Limited. The Government will take possession of the preferred shares of N.S. Holdco Limited once this agreement is achieved.

125459 Canada Limited

Council for Yukon Indians

Loans have been made to the Council for Yukon Indians, to provide interim benefits to elderly Yukon Indians pending settlement of Yukon Indians land claims.

During the year, additional loans were authorized by Indian Affairs and Northern Development Vote L55, Appropriation Acts No 1 and No 2, 1984-85.

The loans are repayable in full upon settlement of land claims, and are non-interest bearing before an Agreement-in-Principle for the settlement of a claim is reached.

Eskimo loan fund

Loans have been made to individual Eskimos or groups of Eskimos, to promote commercial activities and gainful occupations. Loans have also been made to co-operative associations, credit unions, caisses populaires or other credit societies incorporated under provincial laws, where the majority of members are Eskimos, or to corporations incorporated under the laws of Canada, or provincial laws, where the controlling interest is held by Eskimos.

The total amount authorized to be outstanding at any time is $7,072,000.

Included in the balance of loans outstanding as at April 1, 1984 was an investment of $170,465 in Canadian Arctic Producers Co-operative Limited (see the Canadian Arctic Producers Co-operative Limited account). This investment was written-off by Indian Affairs and Northern Development Vote 21c, Appropriation Act No 4, 1984-85.

The loans bear interest at rates from 5% to 21% per annum, and are repayable over 1 to 15 years, with final instalments between April 1, 1985 and March 31, 1998.

Indian economic development

Loans have been made for the purposes of economic development of Indians, to Indians or Indian bands, or to individuals, partnerships or corporations, the activities of which contribute or may contribute to such development.

The total amount authorized to be outstanding at any time is $70,000,000.

The loans bear interest at rates from 5% to 21% per annum, and are repayable over 1 month to 15 years, with final instalments between April 1, 1985 and March 31, 1999.

Indian housing assistance

Second mortgage loans have been made to provide financial assistance to Indians and Inuit, for the construction and acquisition of houses and land, in areas other than Indian reserves. The purposes of the account were extended to authorize loans and advances to Indians and Inuit, for repairs or improvements to houses at time of purchase, in areas other than Indian reserves.

The total amount authorized to be outstanding at any time is $20,000,000.

The loans are non-interest bearing, and are repayable in full by equal annual instalments or forgiveness, or, when the borrower sells the property. Whenever certain conditions of occupancy and maintenance are satisfied, instalments are forgiven at the rate of 10% per annum for up to 10 years.

During the year, repayments included forgiveness of $688,630, pursuant to Northern Affairs and National Resources Vote L51a, Appropriation Act No 9, 1966.

Indians and Inuit of Quebec

Loans were made to Indians and Inuit of Quebec, to meet legal and other related costs in their court action concerning the James Bay Hydro Project.

During the year, the loans were repaid in full.

Inuvialuit Development Corporation

Non-interest bearing loans were made in support of the Agreement-in-Principle for comprehensive land claims settlement.

During the year, the loans were repaid in full.

Native claimants

Loans have been made to native claimants, to defray the costs related to the research, development and negotiation of claims.

During the year, additional loans were authorized by Indian Affairs and Northern Development Vote L50, Appropriation Acts No 1 and No 2, 1984-85.

The terms and conditions of the loans are as follows:

(*a*) loans made before an Agreement-in-Principle for the settlement of a claim is reached are non-interest bearing;

(*b*) loans made after the date on which an Agreement-in-Principle for the settlement of a claim has been reached, bear interest at a rate equal to the rate established by the Minister of Finance in respect of borrowings for equivalent terms by Crown corporations; and,

(*c*) loans are due and payable, as to principal and interest, on the date on which the claim is settled, or on a date fixed in the agreement, which shall be not later than March 31, 1995, whichever date is earlier.

Provincial workmen's compensation boards

This account is operated under the authority of Section 3(4) of the Government Employees Compensation Act, to provide operating funds to enable provincial compensation boards to administer the Act on behalf of the Crown, and pay claims to Canadian Government employees injured in the course of their employment.

The total amount of advances that is authorized to be made to all provincial workmen's compensation boards (except Quebec) is not to exceed three months' disbursements for compensation. The present limit for advances to the Province of Quebec is $1,100,000.

The advances are non-interest bearing and are to be repaid on termination of agreements with provincial boards.

Canadian Forces housing projects

Advances have been made to the Canada Mortgage and Housing Corporation, in respect of loans arranged by the Corporation for housing projects for occupancy by members of the Canadian Forces.

The loans bear interest at rates from 4% to 5.75% per annum, and are repayable over 35 to 48 years, with final instalments between August 1, 1996 and November 1, 2010.

Burgeo Leasing Limited

Loans have been made to Burgeo Leasing Limited, for the construction of an extension to the wharf at Burgeo, Newfoundland. The total loan authority is $240,000.

The loans bear interest based on the composite rate of 7.147% per annum, and are repayable in equal annual instalments over 25 years, with the final instalment on September 1, 1996.

Eurocan Pulp and Paper Co Ltd

Loans have been made to Eurocan Pulp and Paper Co Ltd, for the construction of a marine terminal at Kitimat, British Columbia. The total loan authority is $4,500,000.

The loans bear interest at rates from 7.062% to 7.812% per annum, and are repayable in equal annual instalments over 20 years, with the final instalment on March 31, 1991.

Oil refinery terminal wharf at Come-by-Chance, Newfoundland

Loans have been made for the construction of an oil refinery terminal wharf at Come-by-Chance, Newfoundland. The total loan authority is $28,200,520.

The loans bear interest at the rate of 1.803% per quarter, and are repayable in equal quarterly instalments over 15 years, with the final instalment on March 1, 1990. The instalments are in arrears since January 1, 1976. Parliamentary authority is required to write-off the balance.

Sydney Steel Corporation

Loans have been made to Sydney Steel Corporation, for the construction of wharf facilities at Sydney, Nova Scotia. The total loan authority is $6,000,000.

The loans bear interest at the rate of 9.078% per annum, and are repayable in equal annual instalments over 20 years, with the final instalment on June 12, 1998. The instalments are in arrears since June 1, 1979. Parliamentary authority is required to write-off the balance.

Canadian defence industry

Advances have been made to assist Canadian defence industry with plant modernization. Advances shall not exceed one-half of the cost of the acquisition of new equipment to defence industry.

The advances are non-interest bearing, and are repayable over 1 to 10 years, with final instalments between April 1, 1985 and June 1, 1986.

Canadian manufacturers of automotive products

Loans were made to assist manufacturers of automotive products in Canada, including material suppliers and tooling manufacturers, affected by the Canada-United States Agreement on Automotive Products, to adjust and expand their production, such loans to be made for the purpose of acquisition, construction, installation, modernization, development, conversion and expansion of land, buildings, equipment, facilities or machinery, and for working capital.

During the year, the loans were repaid in full.

Company stock option

This account records the purchase by the General Adjustment Assistance Board and the Enterprise Development Board, on behalf of Her Majesty in right of Canada, of the capital stock of a company in order to exercise a stock option in such company that has been taken by the Board in connection with the provision of a loan, or of insurance of a loan or a letter of credit made or issued to the company in accordance with the General Adjustment Assistance Regulations, the Automotive Manufacturing Assistance Regulations, or under the Enterprise Development Program, where, in the opinion of a Board established pursuant to Section 7 of the Department of Regional Industrial Expansion Act:

(i) the value of the capital stock of the company has increased as a result of the assistance provided and the stock option should be exercised, in order to permit Her Majesty in right of Canada to benefit from the increased value of the capital stock of the company; or,

(ii) the stock option should be exercised, to protect the Crown's interest in respect of the loan made or insurance provided; and,

to authorize the sale or other disposition of any capital stock so acquired.

During the year, additional purchases were authorized by Regional Industrial Expansion Vote L25, Appropriation Acts No 1 and No 2, 1984-85.

Consolidated Computer Incorporated

In 1981-82, the Government disposed of its interest in Consolidated Computer Incorporated. The sum of $100,000 was received from Nabu Manufacturing Corporation in consideration of the transfer to it of debentures obtained by the Government as a result of paying off certain loans incurred by Consolidated Computer Incorporated. Now that the above transaction is completed, authority will be requested to delete the Government's investment in the Company from the accounts of Canada.

Enterprise development program

This account records loans to:

(*a*) a person engaged in a manufacturing or processing activity in Canada where, in the opinion of the Enterprise Development Board, such loan is required for the purpose of:

- (i) restructuring operations in order to adapt efficiently to competition from goods imported at such prices, in such quantities or under such conditions as to cause or threaten serious injury; or,
- (ii) adjusting to changes in conditions affecting access to foreign markets which are attributable to the imposition by a country other than Canada of an import surtax or to the taking by such country of other actions having the same effect;

(*b*) a person in respect of whom the Board has authorized the provision of insurance of a loan not exceeding $200,000 where, in the opinion of the Board, such loan is required for the purpose of preventing a serious delay in implementing a restructuring program;

(*c*) a person who has previously obtained assistance in accordance with the Automotive Manufacturing Assistance Regulations, the Pharmaceutical Industry Incentives Development Assistance Regulations or the Footwear and Tanning Industries Assistance Regulations or under the Enterprise Development Program or to any trustee or receiver authorized by law to carry on the business of such person or manufacturer where, in the opinion of the Board, such loan is required for the purpose of protecting the Crown's interest in the assets securing a loan previously made or a loan or letter of credit previously insured, where such a person is unable to obtain sufficient financing on reasonable terms from other sources for such purposes;

(*d*) a person in Canada engaged or about to engage in the tanning or in the manufacture of footwear who, in the opinion of the Board, requires assistance to establish or restructure his operations in order to meet international competition;

(*e*) a person engaged or about to engage in a manufacturing, processing or other commercial activity, for the purpose of promoting the establishment, growth, efficiency or international competitiveness of Canadian industry, and to foster the expansion of Canadian trade; and,

(*f*) a person who has previously obtained assistance under a program of assistance to industry, or any trustee or receiver authorized by law to carry on the business of such person for the purpose of protecting the Crown's interest resulting therefrom.

The loans bear interest at rates from 8.375% to 9.333% per annum, and are repayable over 5 to 20 years, with final instalments between April 15, 1985 and December 1, 1998.

Footwear and tanning industries adjustment program

Loans have been made under the footwear and tanning industries adjustment program, to assist persons in Canada engaged or about to engage in the tanning or in the manufacture of footwear, who have been determined by the General Adjustment Assistance Board to be eligible for assistance to establish or restructure their operations, in order to meet international competition.

The loans bear interest at rates from 8.7% to 10% per annum, and are repayable over 5 to 9 years, with final instalments between April 1, 1985 and December 1, 1989.

This loan program has been superceded by the Enterprise Development Program, and no further loans will be made.

Industrial and regional development program

Loans have been made to firms and industries to help them adjust to changing competitive conditions and to produce new, more viable and competitive products and services.

During the year, loans were authorized by Regional Industrial Expansion Vote L30, Appropriation Acts No 1 and No 2, 1984-85.

The loans bear interest at the rate of 12.625% per annum, and are repayable between January 1, 1989 and December 31, 1998.

Kennedy Round agreement

Loans have been made under the Adjustment Assistance Program related to the Kennedy Round agreement, to assist manufacturers in Canada who have been determined by a board established pursuant to Section 7 of the Department of Regional Industrial Expansion Act: (*a*) to be seriously injured or threatened with serious injury by reason of increased imports attributable to Kennedy Round tariff reductions made by Canada, resulting in exceptional problems of adjustment; (*b*) to be unable to obtain sufficient financing on reasonable terms from other sources, for purposes of making the necessary adjustment; (*c*) to require such loans in order to adapt efficiently to competition from goods imported at such prices, in such quantities or under such conditions as to cause or threaten serious injury; and, (*d*) to be unable to obtain sufficient financing on reasonable terms from other sources for such purposes. The category of persons eligible for loans also includes a manufacturer or other person in Canada:

(*a*) in respect of whom the General Adjustment Assistance Board has authorized the provision of insurance pursuant to Industry, Trade and Commerce Vote 30c, Appropriation Act No 1, 1968, of a loan therein described for an amount not exceeding $200,000; and,

(*b*) who, in the opinion of the Board, requires such loan to prevent serious delay in implementing the restructuring program approved by the Board.

The loans bear interest only if the borrower realizes a profit, and are repayable over 17 years, with the final instalment on March 1, 1990. Parliamentary authority is required to write-off the balance.

This loan program has been superceded by the Enterprise Development Program and consequently no further loans will be made.

Pharmaceutical industry development assistance program

Loans were made, under the pharmaceutical industry development assistance program, to companies in Canada, for the purpose of improving their ability to manufacture and market lower-priced prescription drugs at competitive prices, through reorganization of any of their operation of manufacturing, distribution and research, and who were unable to obtain sufficient financing on reasonable terms from other sources for such purposes.

During the year, the loans were repaid in full.

Radio Engineering Products Limited

Loans have been made to Radio Engineering Products Limited, to provide working capital in order that it might remain viable and complete certain production.

Radio Engineering Products Limited was indebted to Revenue Canada for tax arrears of some $3,500,000, and to the Department of Regional Industrial Expansion for approximately $400,000 under the Defence Industry Productivity Program. At the time of the loans, the Government had acquired control of the Company. In November of 1975, the Company declared bankruptcy and the assets were subsequently disposed of.

These loans are in default since 1974-75. Parliamentary authority is required to write-off the balance.

Parolees

Loans have been made to parolees and individuals under mandatory supervision, to assist in their rehabilitation.

The total amount authorized to be outstanding at any time is $50,000.

The loans are non-interest bearing and are repayable before the expiration of the parole period, or within one year from the date the loans were made, whichever period is the shorter. The repayment of a loan or any part thereof may be forgiven by the Solicitor General, if certain conditions are met.

During the year, loans totalling $10,484 were forgiven pursuant to Solicitor General Vote L103b, Appropriation Act No 1, 1969. These loans were initially recorded in 1981-82, 1982-83, 1983-84 and 1984-85.

Defence production loan account

This account was established under Section 15.1 of the Defence Production Act, to record loans or advances for any purpose other than to assist in the construction, acquisition, extension or improvement of capital equipment or works by any person.

Section 15.2 of the Defence Production Act stated that the aggregate of expenditures charged to the Defence production revolving fund (budgetary account), and to this account, shall not at any time exceed by more than $100,000,000 the aggregate of amounts:

(*a*) received from the sale or disposition of materials, substances or defence supplies;

(*b*) charged to another appropriation in respect of costs of acquisition, storage, maintenance or transportation of stocks of materials or substances purchased, or of stocks of defence supplies acquired, where such materials, substances or defence supplies may be acquired under that appropriation;

(*c*) charged to an appropriation or paid by an agent of Her Majesty or by an associated government, to pay costs incurred in respect of defence supplies, payment for which was made out and charged to the Defence production revolving fund; and,

(*d*) received in repayment of a loan or advance previously charged to this account.

A repayment of $1.7 million owed to this account by CAE Aircraft is in dispute concerning the date when repayment is due. Legal counsel is of the opinion that no loss to the Government will be incurred.

Coast Ferries Limited

A loan was made to the Corporation, for working capital purposes.

The loan bears interest at an annual rate equal to the rate established by the Minister of Finance in respect of Crown corporations' borrowings. The loan was due April 1, 1978. No interest and no repayment have been received since the loan was made.

Corporation of the City of Montreal

A loan has been made to the Corporation of the City of Montreal, for the construction of a vehicular tunnel under the Lachine Canal at Atwater Avenue.

The loan bears interest at the rate of 3.125% per annum, and is repayable in equal annual instalments over 30 years, with the final instalment on June 20, 1991.

Hamilton Harbour Commissioners

Loans have been made to the Hamilton Harbour Commissioners, to assist in the development of the harbour.

The total amount authorized to be outstanding at any time is $4,000,000.

The terms and conditions of the loans, with their year-end balances, are as follows:

(*a*) bearing interest at the rate of 6.062% per annum, repayable in semi-annual instalments over 20 years, with the final instalment on June 30, 1987, $198,905;

(*b*) bearing interest at the rate of 5.562% per annum, repayable in semi-annual instalments over 20 years, with the final instalment on June 30, 1987, $192,368; and,

(*c*) bearing interest at the rate of 4.125% per annum, repayable in semi-annual instalments over 39 years, with the final instalment on January 31, 2001, $775,000.

Lakehead Harbour Commission

Loans have been made to the Lakehead Harbour Commission, for the expansion of the Keefer terminal.

The loans bear interest at the rate of 7.437% per annum, and are repayable in semi-annual instalments over 15 years, with the final instalment on June 30, 1989.

Port Alberni Harbour Commission

Loans have been made to the Port Alberni Harbour Commission, to finance the construction of a new lumber assembly wharf.

The terms and conditions of the loans, with their year-end balances, are as follows:

(*a*) bearing interest at the rate of 8.062% per annum, repayable in semi-annual instalments over 20 years, with the final instalment on June 30, 1991, $252,911; and,

(*b*) bearing interest at the rate of 7.187% per annum, repayable in semi-annual instalments over 20 years, with the final instalment on June 30, 1991, $725,627.

Commonwealth War Graves Commission

Advances have been made to the working capital fund of the Commonwealth War Graves Commission, to maintain graves and cemeteries.

At year end, the balance of the advances was £30,000 UK. This balance was converted to $50,874 Cdn, using the year-end rate of exchange (£1UK=$1.6958 Cdn).

The advances are non-interest bearing and have no fixed terms of repayments.

ALLOWANCE FOR VALUATION

In accordance with the comprehensive policy on valuation, assets are subject to an annual valuation to reflect reductions from the recorded value to the estimated realizable value.

The allowance for valuation for loans, investments and advances, represents the estimated losses on the realization of the loans, investments and advances included in the accounts of Canada at year end.

SUPPLEMENTARY STATEMENT

Recorded Uncollected Interest

In accordance with the Government's stated accounting policies, interest due but not received is not reported as revenue. In certain cases, this uncollected interest is recorded by being added to the applicable loan and advance account, and credited to an uncollected interest account. Since the Government's policy is to report revenue only as received, the balance of the uncollected interest account is deducted from the loan and advance account, to present it on a net basis.

Table 7.15 reports the balances and transactions for the year in respect of the recorded uncollected interest.

SPECIFIED PURPOSE ACCOUNTS

Specified purpose accounts represent the recorded value of the financial obligations of the Government of Canada in its role as administrator of certain public moneys received or collected for specified purposes, under or pursuant to legislation, trusts, treaties, undertakings or contracts. These public moneys may be paid out only for the purposes specified in or pursuant to the legislation, trusts, treaties, undertakings or contracts.

Because of the dedicated purposes of these moneys, specific accounts are required to be maintained to provide an accounting mechanism to ensure that the moneys are used only for the purposes for which they were received or collected. Legislation relating to some accounts permits investments to be made and, in certain cases, the balances of the accounts earn interest.

This section gives details of specified purpose accounts on which summary information was given in Sections 1 and 2 of this volume.

Some tables in this section present the continuity of accounts, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges, i.e. inflow and outflow of transactions. In addition, the term "accounts without current transactions" has been included in one table, to provide a link with figures published in the previous year's edition of the Public Accounts, and to show net transactions in accounts which were closed out in the previous year.

The financial statements of the Canada Pension Plan Account and the Canada Pension Plan Investment Fund, the Unemployment Insurance Account, the Government Annuities Account and the Royal Canadian Mounted Police (Dependants) Pension Fund, together with the Auditor General's reports thereon, are presented at the end of this section.

(1) Amounts received from the Canadian Ownership special charge levied to increase public ownership of the oil and gas industry in Canada are now reported as tax revenue on the Statement of Revenue and Expenditure (Section 2 of this volume). These amounts were previously credited to this account. The investments, previously charged to this account, are now reported under Loans, investments and advances—Petro-Canada (Section 7 of this volume). The closing balance of the account as of March 31, 1983 was adjusted to the Accumulated Deficit account.

Canada Pension Plan Account

The Canada Pension Plan is a compulsory contributory social insurance plan which enables members of the labour force to acquire and retain protection for themselves and their families against loss of income due to retirement, disability or death. Established in 1965, the Plan applies in all parts of Canada, except the Province of Quebec which has a comparable plan.

Under existing arrangements, all benefits and costs incurred in the administration of the program are financed from contributions made by employees, employers and self-employed persons, and the interest earned from the investment of funds.

The Government's financial obligation, as administrator of the Canada Pension Plan, is limited to the balance in the Account.

Table 8.2 presents a summary of the balances and transactions in the Canada Pension Plan Account less investment in securities of the provinces held by the Canada Pension Plan Investment Fund.

Receipts and other credits include:

(*a*) contributions of: (i) 1.8% of earnings by employees earning over $2,000 for the 1984 calendar year and $2,300 for the 1985 calendar year, with matching contributions by employers, subject to maximum payments of $338.40 for the 1984 calendar year and $379.80 for the 1985 calendar year and (ii) 3.6% of earnings of self-employed persons over $2,000 for the 1984 calendar year and $2,300 for the 1985 calendar year, subject to maximum payments of $676.80 for the 1984 calendar year and $759.60 for the 1985 calendar year; and,

(*b*) interest received from securities of the Canada Pension Plan Investment Fund, and from the average daily operating balance.

Payments and other charges include:

(*a*) benefits paid under the Canada Pension Plan as retirement pensions, survivors' benefits paid to widows, widowers and orphans, or as lump sum death benefits, and disability pensions and benefits to children of disabled contributors;

(*b*) benefits paid and recovered from the Canada Pension Plan, in accordance with an agreement with a province providing a comprehensive pension plan;

(*c*) payments that are required to be charged to the Canada Pension Plan Account, in accordance with reciprocal agreements with other countries; and,

(*d*) the costs of administration of the Plan.

When the operating balance exceeds the estimated amount required to meet all payments in the following three-month period, the excess is available for the purchase of securities of the provinces and Canada.

Provinces are advised monthly of the amount of excess moneys in the Canada Pension Plan Account that is available for the purchase of provincial securities. The amount available to each province is the proportion that contributions made to the Plan during the preceding ten years in respect of employment in the province, bears to total contributions. Contributions received in respect of employment in the Yukon Territory, the Northwest Territories and from certain other employees outside Canada, are invested in the special non-marketable bonds of the Government of Canada.

Certain federal employees, such as members of the Canadian Armed Forces, who are resident in the Province of Quebec, contribute to the Canada Pension Plan. The securities of Quebec which are purchased by the Plan relate to the contributions of these employees.

On the Statement of Assets and Liabilities of the Government of Canada, the investment in securities issued by provinces, as charged to the Canada Pension Plan Investment Fund, is deducted from the Canada Pension Plan Account.

Superannuation Accounts

The Government provides pensions to retired employees or their dependants through pension schemes authorized by the Public Service Superannuation Act, the Canadian Forces Superannuation Act and the Royal Canadian Mounted Police Superannuation Act. These pensions are indexed to the cost of living under authority of the Supplementary Retirement Benefits Act. The Government's liabilities in its role as administrator of these pension plans in respect of its employees and certain other contributors, are recorded in the relevant superannuation accounts.

Legislation for basic pensions provides for employee contributions (6½% of salary), employer contributions (prior year's employee contributions for members of the Public Service, and approximately 1.8 and 2.0 times current year's employee contributions for members of the Canadian Forces and the Royal Canadian Mounted Police respectively), allocation of interest (average market yield of 20 year Canada bonds weighted by the quarterly excess of receipts over disbursements in the three accounts each quarter over 20 years), and actuarial valuation deficiencies (full valuation at least once every 5 years with annual adjustments for authorized salary increases). Legislation for indexing basic pensions does not require actuarial valuations but does provide for additional employee contributions (1% of salary), matching employer contributions and allocation of interest (current rate of 5 year Canada bonds).

Receipts and other credits for the superannuation accounts consist of contributions from personnel, related contributions from the Government and participating Public Service corporations, transfers from other pension funds, other Government contributions related to actuarial liability adjustments (not applicable to the Supplementary Retirement Benefits Account), and interest. Payments and other charges for the superannuation accounts consist of payments of pensions, death benefits, refunds of contributions and transfers to other plans.

Actuarial valuations are currently made at least once every five years (quinquennially), the next valuations will be made as at December 31, 1980 for the Public Service Superannuation Account, December 31, 1980 for the Canadian Forces Superannuation Account, and December 31, 1979 for the Royal Canadian Mounted Police Superannuation Account. In accordance with the legislation governing the three superannuation plans, the Minister of Finance has the authority to direct that any actuarial deficiency found will be credited to the appropriate account, charged to unamortized portion of actuarial deficiencies, and amortized to expenditure in five equal annual instalments commencing in the year in which the actuarial report is laid before Parliament. In addition, the cost of added liabilities, created by the authorization of salary increases each year, is credited to the superannuation accounts, charged to unamortized portion of actuarial deficiencies, and amortized to expenditure over a period of five years commencing in the year in which the increases are authorized.

Since the quarter ending September 30, 1969, the regulations, made pursuant to each of the superannuation acts, have provided for the calculation of interest at a rate related to the Canada Pension Plan interest rate. The acts further provide that the amount by which the calculated interest rate (currently about 11% per annum) exceeds the amount of interest calculated at the rate used in the latest actuarial report (currently 6.5% per annum for the Public Service, Canadian Forces and Royal Canadian Mounted Police Superannuation Accounts), may be used to reduce the amortization of actuarial deficiency adjustments charged to budgetary expenditure. Any of these interest earnings not needed to reduce amortization charges are credited to the respective Accounts.

Table 8.4 presents a summary of the balances and transactions for the superannuation accounts including the unamortized portion of actuarial deficiencies. Table 8.5 presents an analysis of actuarial deficiency adjustments.

Table 8.6 presents a summary of transactions in superannuation accounts that resulted in charges to budgetary expenditure. In 1984-85, $5,162 million was charged to budgetary expenditure on account of superannuation plans. This is composed of Government contributions, $752 million; increased superannuation benefits paid during the year due to indexation in excess of the superannuates' share of contributions to the Supplementary Retirement Benefits Account, $676 million; and, interest, $3,734 million ($3,157 million credited to the superannuation accounts and $577 million of interest earnings in excess of 6.5% on the main superannuation accounts which was used to reduce the amortization of actuarial deficiency adjustments).

Supplementary Retirement Benefits Account

This account was established by the Supplementary Retirement Benefits Act, to provide for the payment of increased pension benefits resulting from indexation. Actuarial valuation of the Account is not required by the legislation.

The Chief Actuary of the Department of Insurance has estimated that the actuarial present value of unfunded supplementary retirement benefits, including provision for future indexation, in respect of benefits earned as at March 31, 1985, payable to active or retired contributors or their dependants pursuant to the Public Service, Canadian Forces and Royal Canadian Mounted Police Superannuation Acts, was $15.5 billion ($15.8 billion as at March 31, 1984). This amount is based on an assumed interest rate of 6.5%, and other assumptions as described in the last tabled actuarial reports on those three superannuation accounts. It would be substantially reduced, if an appropriate allowance is made for the relatively high rates of interest that will be credited to the accounts at least for a number of years. This is currently under study.

Increased superannuation benefits paid during the year due to indexation amounted to $700 million ($631 million in 1983-84), of which $676 million ($604 million in 1983-84) represents benefits to superannuates in excess of their share of contributions to the account which has been charged to budgetary expenditure. The payments charged to budgetary expenditure on behalf of contributors amounted to $421 million ($380 million in 1983-84) for the Public Service Superannuation Account, $236 million ($207 million in 1983-84) for the Canadian Forces Superannuation Account, and $19 million ($17 million in 1983-84) for the Royal Canadian Mounted Police Superannuation Account. An amount of $24 million ($27 million in 1983-84) was charged to the Supplementary Retirement Benefits Account.

Unemployment Insurance Account

The Unemployment Insurance Act provides for a compulsory contributory unemployment insurance program applicable to all employees, with few exceptions.

The Act authorizes an account in the accounts of Canada to be known as the Unemployment Insurance Account.

The Act provides that the following be credited to the Account: (*a*) premiums, fines, penalties and interest; (*b*) Government share of benefits paid; (*c*) refunds of overpayments of benefits, and benefit repayments; (*d*) amounts for services rendered to other Government departments or agencies, or to the public; (*e*) amounts provided for any other purpose related to unemployment insurance and authorized by an appropriation administered by the Canada Employment and Immigration Commission; and, (*f*) interest on the balance of the Account at such rates as the Minister of Finance may authorize. The Act also provides that the following be charged to the Account: (*a*) benefits paid under the Act; (*b*) costs of administering the Act; and, (*c*) interest on advances made by the Minister of Finance.

Maximum weekly employee premiums were $9.78 from April 1, 1984 to December 31, 1984 and $10.81 from January 1, 1985 to March 31, 1985. For the same periods, maximum weekly benefits were $255 from April 1, 1984 to December 31, 1984 and $276 from January 1, 1985 to March 31, 1985.

Interest bearing loans are made to the Unemployment Insurance Account, under Section 137(1) of the Unemployment Insurance Act, as a result of deficiencies in contributions from employers and employees. The balance outstanding as at March 31, 1985 bears interest at rates between 9.875% and 13.25% per annum, and is repayable between April 30, 1985 and February 21, 1987. The balance outstanding at year end is deducted from the balance of the Unemployment Insurance Account, to show the net position of the Account.

Government Annuities Account

This account was established by the Government Annuities Act, and modified by the Government Annuities Improvement Act, which discontinued sales of annuities in 1975. The account is valued on an actuarial basis each year, with the deficit or surplus charged or credited to the Consolidated Revenue Fund.

The purpose of the Government Annuities Act was to assist Canadians to provide for their later years, by the purchase of Government annuities. The Government Annuities Improvement Act increased the rate of return and flexibility of Government annuity contracts, and discontinued sales of annuities in 1975.

Receipts and other credits consist of premiums received, funds reclaimed from the Consolidated Revenue Fund for previously unlocated annuitants, earned interest and items transferred from previous years' revenue to cover the actuarial deficit. Payments and other charges represent matured annuities, the commuted value of death benefits, premium refunds and withdrawals, and actuarial surpluses and unclaimed items transferred to non-tax revenue. The amounts of unclaimed annuities, related to annuitants who cannot be located, are transferred to non-tax revenue.

Deposit and Trust Accounts

Deposit and trust accounts is a group of liabilities representing the Government's financial obligations in its role as administrator of certain moneys that it has received or collected for specified purposes and that it will pay out accordingly. To the extent that the funds received are represented by securities, these are deducted from the corresponding accounts to show the Government's net liability.

Table 8.12 presents a summary of the balances and transactions in deposit and trust accounts.

Miscellaneous projects' deposits—Agriculture

These funds, which are for the furtherance of research work, are comprised of contributions from organizations and individuals.

Prairie farm emergency fund

The Prairie Farm Assistance Act provides for a levy of 1% to be deducted by all licensed purchasers of grain, the amount so deducted to be transferred to the Canadian Grain Commission for deposit to the credit of a special account known as the Prairie farm emergency fund. The levy is not collected in respect of grain grown by farmers who participate in approved crop insurance programs. Collection of the levy was discontinued, effective August 1972.

Western grain stabilization account

The purpose of the Western Grain Stabilization Act is to protect prairie grain producers from unexpected and large income declines, through the stabilization of returns on the production and sale of wheat, oats, barley, rye, mustard seed, canola and flax seed as well as any other seed that may be prescribed which is: (*a*) produced in the designated area and, (*b*) named in Schedule 1 to the Canada Grain Act and designated therein as "Canada Western".

This account records funds for this purpose which are received from:

(*a*) levies paid by participating producers—Ranging from 1% to 2½% of grain sales proceeds to an annual maximum of $60,000 eligible proceeds per participant;

(*b*) Government contributions equal to levies paid by producers plus an additional 2% of the participating eligible grain sales proceeds of all participants; and,

(*c*) interest on the amount standing to the credit of the stabilization account, at rates and in accordance with terms and conditions determined by the Minister of Finance.

Members of Parliament retiring allowances account

This account was established by the Members of Parliament Retiring Allowances Act, to provide pension benefits to eligible Members of Parliament who contributed to the plan. "Member" means a member of the Senate or House of Commons. Benefits are also available to widows and dependent children of members who served on or after April 9, 1963 and contributed under the Act.

Receipts and other credits consist of: (*a*) contributions reserved from current indemnities, based on the full amount paid; (*b*) contributions reserved from additional salaries, based on the percentage of contribution elected, up to 10% of the full amount of salary; (*c*) contributions for previous sessions, where members elect to pay arrears, and interest on the arrears; (*d*) interest and mortality insurance on any unpaid balance, based on Canada Life Tables; (*e*) contributions by the Government, of an amount equal to contributions paid or which have become payable in the year; (*f*) interest credited quarterly; and, (*g*) the repayment of pensions after elections to transfer Members of Parliament retiring allowances to the Public Service Superannuation Account.

Payments and other charges consist of: (*a*) payments of annual allowances; (*b*) withdrawal allowances and related interest; (*c*) refunds of contributions which are in excess of the maximum required; and, (*d*) transfers of funds to the Public Service Superannuation Account.

Dependants' pension fund

This fund which pertains to Part IV of the Royal Canadian Mounted Police Pension Continuation Act, provides pension benefits to widows and other dependants of contributing members of the Royal Canadian Mounted Police. It is maintained by 5% contributions from the pay of members of the Force, other than commissioned officers.

Locally-engaged contributory pension account

This account which pertains to Part II of the Locally-Engaged Pension Regulations, provides pension benefits to locally employed Government employees who contributed to the plan. The account is credited with contributions from locally-engaged employees, and charged with payments of benefits.

Public Service death benefit account

This account was established under the Public Service Superannuation Act, to provide life insurance to contributing members of the Public Service.

The account is credited with: (*a*) contributions by employees; (*b*) contributions by the Government and Public Service corporations; and, (*c*) interest. Payments and other charges represent: (*a*) benefits paid in respect of participants who, at the time of death, were employed in the Public Service, or were in receipt of an annuity under Part I of the Public Service Superannuation Act; and, (*b*) benefits of $500 paid in respect of participants who, at the time of death, were employed in the Public Service, or were in receipt of an annuity under Part I of the Public Service Superannuation Act, and on whose behalf a single premium for $500 death benefit coverage for life has been made.

Retirement fund

This fund provides pension benefits to certain eligible Government employees who are not covered by the Public Service Superannuation Account and who contributed to the fund.

Contributions are made to the fund in the form of monthly deductions from the salaries of certain prevailing rate or seasonal and certain other employees. Other credits are interest at the rate of 4% per annum on the balance to the credit of each contributor, the off-setting charge being to interest on public debt. Payments and other charges represent payment of the amounts to the employees' credit upon resignation or death, or, if they become contributors to the Public Service Superannuation Account, transfers to that account.

Returned soldiers' insurance fund

This fund was established by the Returned Soldiers' Insurance Act, to provide life insurance to contributing veterans of World War I. The account is credited with premiums and is charged with disbursements for death benefits and cash surrender values. The account is actuarially maintained and an actuarial liability adjustment as at March 31, 1984 of $30,365 was credited to the account during the year and was charged to budgetary expenditure. The final date on which application for this insurance could have been received, was August 31, 1933.

Veterans' insurance fund

This fund was established by the Veterans' Insurance Act, to provide life insurance to contributing veterans of World War II. The account is credited with premiums and is charged with disbursements for death benefits and cash surrender values. The account is actuarially maintained and an actuarial liability adjustment as at March 31, 1984 of $706,522 was credited to the account during the year and was charged to budgetary expenditure. The final date on which application for this insurance could have been received, was October 31, 1968.

SUPPLEMENTARY STATEMENTS

AUDITOR'S REPORT

THE HONOURABLE JAKE EPP, P.C., M.P.
MINISTER OF NATIONAL HEALTH AND WELFARE

I have examined the statements of the Canada Pension Plan Account and the Canada Pension Plan Investment Fund for the year ended March 31, 1985. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these statements present fairly the balance and changes of the Account and the Fund for the year ended March 31, 1985 in accordance with the accounting policies set out in Note 2 to the statements applied on a basis consistent with that of the preceding year.

NOTES TO STATEMENTS FOR THE YEAR ENDED MARCH 31, 1985

1. Plan description and authority

The Canada Pension Plan (the Plan) is a compulsory and contributory social insurance plan which enables members of the labour force to acquire and retain protection for themselves and their families against loss of income due to retirement, disability or death. The Plan applies in all parts of Canada, except for the Province of Quebec which has a parallel plan.

Under existing arrangements, all benefits and all costs incurred in the administration of the Plan are financed by the contributions made by employees, employers and self-employed persons and the interest earned from the investment of funds.

The Canada Pension Plan Account (the Account) was established in the accounts of Canada by Section 110.(1) of the Canada Pension Plan, a 1965 Act of Parliament, to record the contributions, interest, benefits and expenses of the Plan.

The Canada Pension Plan Investment Fund (the Fund) was established in the accounts of Canada by Section 111.(1) of the Plan to record the investment in securities of the provinces and Canada.

2. Accounting policies

Canada Pension Plan Account

The amounts credited and charged to the Account are in accordance with Sections 110.(2) and 110.(3) of the Plan, respectively. Contributions, interest and benefits are recorded on a cash basis. Contributions are received from Revenue Canada—Taxation based on estimates of collections for the current year and adjustments to the estimates of prior years. Expenses are recorded on an accrual basis. The balance in the Account represents the accumulated excess of contributions and interest over benefits and expenses to date.

Canada Pension Plan Investment Fund

The amounts charged and credited to the Fund are in accordance with Section 111.(2) of the Plan. All securities held are carried at cost, are non-negotiable and have a term of 20 years or such lesser period as may be determined by the Minister of Finance on the recommendation of the Chief Actuary of the Department of Insurance.

3. Interest

	1985	1984

	2,888,316	2,533,749

4. Expenses

Expenses of the Account represent the costs of administration charged by six federal government departments: Revenue Canada—Taxation (collection of contributions); Health and Welfare (administration); Supply and Services (cheque issue and computer services); Public Works (accommodation); Employment and Immigration (assignment of social insurance numbers and maintenance of central index); and Insurance (actuarial services).

Canada Pension Plan Account and the Canada Pension Plan Investment Fund—*Concluded*

NOTES TO STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1985—*Concluded*

5. Investment in securities

Operating balances on deposit with the Receiver General in excess of estimated cash requirements for the following three-month period are available for purchases of securities of the provinces and Canada. The monies available for securities purchases are allocated to the provinces based on the proportion of contributions credited to the Account during the preceding 10 years in respect of employment in a given province to the total contributions in those years. The portion attributed to employment in the Yukon Territory, the Northwest Territories and certain other employees outside Canada are invested in securities of Canada.

The securities of Quebec relate to the contributions of certain federal employees, such as members of the Canadian Armed Forces, who are residents in the Province of Quebec.

6. Financing of the Plan

When the Plan was introduced, the combined employer-employee contribution rate was set at 3.6% of the contributory earnings with the understanding that this would be sufficient to meet the cost of benefits and administration for a certain period of time but not indefinitely. In the initial years, a fund would be built up from which resources would be used to purchase securities of the provinces and, to a much lesser extent, securities of Canada as described in Note 5. However, since inception of the Plan, it has been recognized that the 3.6% contribution rate would need to be raised at some point in the future.

The Plan is not designed to be fully funded on a private sector pension plan basis. However, if the Plan were to be fully funded, the Chief Actuary of the Department of Insurance estimates that an additional $215 billion would need to be invested at December 31, 1984 to pay future benefits of all contributors and pensioners in the Plan at that time. The estimate is based upon ultimate assumptions used in the most recent actuarial report, tabled in the House of Commons on June 5, 1984.

The annual cost of benefits and expenses exceeded the amount of annual contributions in the year ended March 31, 1985. The actuarial report indicated that if no changes were made to the combined employer-employee contribution rate of 3.6% a gradually increasing proportion of the interest would be needed after 1985 to finance benefits and expenses, and no further funds, apart from the reinvestment of a portion of interest owed to the Account, would be available to the provinces as loans. The Account would continue to grow until 1994 when all of the interest would be needed to meet payments. If the increase in the contribution rate were delayed beyond 1994, the balance of the Account would start to decline and by the year 2004, it would be exhausted. The contribution rate would have to increase to 6.1% in 2004 and then slowly rise to a relatively stable rate of between 10 and 11% by 2030 in order to maintain benefit payments.

Under existing legislation, any proposed enactment to alter the general level of benefits or the rate of contributions requires agreement by at least two-thirds of the 10 provinces having an aggregate of not less than two-thirds of the population.

A long-term financing philosophy for the Plan which will include the timing and rate of increase of the contribution rate is being considered by the provinces and the federal government.

Canada Employment and Immigration Commission relating to the Unemployment Insurance Account

AUDITOR'S REPORT

THE HONOURABLE FLORA MACDONALD, P.C., M.P.
MINISTER OF EMPLOYMENT AND IMMIGRATION

I have examined the balance sheet of the Canada Employment and Immigration Commission relating to the Unemployment Insurance Account as at December 31, 1984 and the statement of revenue, expenses and deficit for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Commission relating to the Unemployment Insurance Account as at December 31, 1984 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1984

1. Authority and objective

The Canada Employment and Immigration Commission, a departmental corporation named in Schedule B to the Financial Administration Act, administers the Unemployment Insurance Act, 1971 as amended. The objective of the Act is to provide short-term financial relief and other assistance to eligible workers. The financial transactions relating to this objective are reported through the Unemployment Insurance Account.

In the accounts of Canada, the Unemployment Insurance Account was established by Section 131 of the Act. All amounts received under the Act are deposited in the Consolidated Revenue Fund and credited to this Account. Benefits and the cost of administration of the Act are paid out of the Consolidated Revenue Fund and charged to this Account.

Under Part IV of the Act, the Minister of National Revenue is responsible for collecting premiums from employers and employees.

2. Accounting policies

(a) Premiums

The premiums are recorded based on an estimate of the amount to be collected in the current year and include adjustments between actual and estimated premiums of prior years.

(b) Penalties

Penalties, levied pursuant to Section 47 of the Act, are recorded on an accrual basis.

(c) Benefits

Benefits represent warrants issued during the year less benefit overpayments identified by the Commission during the year and benefit repayments received and estimated receivable under Section 142 of the Act.

(d) Administration

The costs of administration of the Act are determined by the Unemployment Insurance Regulations and are charged to the Account by the Commission.

(e) Interest

Interest on the balance of the account with Receiver General for Canada and interest on advances from Canada are recorded on an accrual basis.

(f) Government's share of benefits

The Government's share of benefits is recorded on an accrual basis.

3. Restatement of prior year

The balances at December 31, 1983 of the account with Receiver General for Canada and the unredeemed warrants established at that date at $92 million and $385.8 million respectively were restated by $218 million to reflect all warrants redeemed by the Bank of Canada.

Canada Employment and Immigration Commission relating to the Unemployment Insurance Account—*Concluded*

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1984—*Concluded*

6. Advances from Canada

Advances from Canada are made under Section 137 of the Act and the Unemployment Insurance Account Advance Regulations, by means of promissory notes which bear annual interest compounded semi-annually at rates varying from 9.75% to 13.25%. The balance as at December 31 consists of $3,753 million ($3,328 in 1983) in principal and accrued interest of $395 million ($383.7 million in 1983). Of the amount of $3,753 million in principal, $1,680 million is repayable in 1985 and $2,073 million in 1986.

7. Overpayments and underpayments of benefits

The large number of claimants to be monitored and the requirement for prompt service require selective internal control procedures rather than universal and therefore the verification of claims is mainly done after claimants have begun to receive benefits.

As a result, overpayments and underpayments of benefits exist which the Commission estimated at $300 million and $84 million respectively for the year ended December 31, 1984. These amounts are included in the benefits for the year.

Government Annuities Account

AUDITOR'S REPORT

THE HONOURABLE FLORA MacDONALD, P.C., M.P.
MINISTER OF EMPLOYMENT AND IMMIGRATION

I have examined the balance sheet of the Government Annuities Account as at March 31, 1985 and the statement of operations and actuarial reserves for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Account as at March 31, 1985 and the results of its operations for the year then ended in accordance with the provisions of the Government Annuities Acts and Regulations and generally accepted accounting principles applied, except for the change in determining the value of the actuarial reserves and surplus as explained in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985

1. Authority and purpose

The Government Annuities Account was established in 1908 by the Government Annuities Act, R.S.C. c. G-6, and modified by the Government Annuities Improvement Act, S.C. 1974-75-76, c. 83.

The purpose of the Act was to assist individuals and groups of Canadians to provide for their later years by purchasing Government annuities. The Improvement Act increased the rate of return on Government annuity contracts, increased their flexibility and discontinued future sales.

The Account is administered by the Canada Employment and Immigration Commission and operates through the Consolidated Revenue Fund.

2. Significant accounting policies

(a) Basis of accounting

The accounts of the Government Annuities Account are maintained on an accrual basis.

(b) Actuarial reserves

In accordance with Section 15 of the Acts, and with the Government Annuities Regulations, actuarial reserves comprise: (i) in respect of unmatured annuities, accumulated premiums and accrued interest, and (ii) in respect of matured annuities, the present value of such annuities actuarially determined on the basis of such rate or rates of interest and mortality tables as is prescribed.

(c) Actuarial surplus due to Canada

If at the end of any fiscal year the recorded amount of actuarial reserves exceeds or is less than the calculated amount of actuarial reserves, the difference results in an actuarial surplus or deficit which is charged or credited to the Government Annuities Account within the Consolidated Revenue Fund.

(d) Interest from Canada

Interest from Canada is calculated annually on actuarial reserves, at a rate of seven per cent, as required by the Improvement Act.

(e) Unclaimed annuities

Unclaimed annuities represent amounts transferred to the Consolidated Revenue Fund in respect of annuities that could not be paid because the annuitants could not be located.

3. Actuarial surplus

As of March 31, 1985, a refined retrospective valuation method for deferred annuities was adopted, which resulted in a $13,373,000 reduction in actuarial reserves and therefore in a corresponding amount of additional actuarial surplus being generated.

The assumptions regarding the distribution of matured government annuities by frequency and by incidence of payment were also revised. The ensuing modification providing for the earlier incidence of payment than assumed heretofore resulted in an increase in actuarial

reserves of $7,358,000 thus reducing by the same amount the actuarial surplus for the year.

Had these two changes not taken place, the actuarial surplus would have amounted to $829,000 instead of the actual amount of $6,015,000.

4. Actuarial reserves

The method utilized to calculate the actuarial reserves of $1,089,629,000 (1984—$1,122,629,000) was in accordance with subsection 15(1) of the Government Annuities Improvement Act, S.C. 1974-75-76, c. 83 and the Regulations pertaining thereto.

The Regulations provide that the Mortality Tables to be used in the preparation of tables for determining the values of annuities shall be the Annuity Table for 1949 without projection for males and females and modified by Projection Scale C.

Mortality experience in recent years has shown that life expectancy has increased at a faster rate than that provided by Projection Scale C. Should this trend continue at the same rate in the future, the 1949 Mortality table adjusted by Projection Scale C may need to be modified and could result in a potential liability that would impact future actuarial reserves. Sufficient information is not available at this time to determine this liability. However, the Canada Employment and Immigration Commission has in progress mortality analysis and projects to determine this amount.

5. Services provided without charge

Administrative services are provided to the Account by the Canada Employment and Immigration Commission without charge.

For the year ended March 31, 1985, the cost of these services amounted to $3,654,000 (1984—$3,532,000), including amounts for services provided without charge by other Government departments to the Commission.

Royal Canadian Mounted Police (Dependants) Pension Fund

AUDITOR'S REPORT

THE HONOURABLE ELMER MACKAY, P.C., M.P.
SOLICITOR GENERAL OF CANADA

I have examined the statement of receipts and disbursements and fund balance of the Royal Canadian Mounted Police (Dependants) Pension Fund for the year ended March 31, 1985. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the receipts and disbursements of the Fund and its balance for the year ended March 31, 1985 in accordance with the basis of accounting set out in Note 2 to the financial statement, applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENT MARCH 31, 1985

1. Authority and operations

The Royal Canadian Mounted Police (Dependants) Pension Fund was established in 1934 by the Royal Canadian Mounted Police Pension Continuation Act. The Act provides for members of the Force, other than commissioned officers, appointed before March 1, 1949, to purchase certain survivorship benefits for their dependants by payment of specified contributions. The Fund is credited with these contributions together with interest computed quarterly on the balance to the credit of the Fund at the end of the preceding quarter, and charged with contributions withdrawn and pensions. All transactions of the Fund are made through the Consolidated Revenue Fund.

Section 56 of the Act directs the Minister of Finance to have an actuarial valuation of the Fund made at least once every 5 years. If the actuarial valuation discloses a surplus, the Governor in Council may, by order, increase pensions. If there is an actuarial deficiency, the Governor in Council may direct that there be credited to the Fund, out of any unappropriated moneys in the Consolidated Revenue Fund, such amount as may be required to re-establish solvency of the Fund.

2. Basis of accounting

All transactions of the Fund are accounted for on a cash basis.

3. Supplementary information

The most recent actuarial valuation was made as at March 31, 1982. The valuation disclosed an actuarial surplus of $1,812,000 of which $692,000 was allocated to increased pensions, retroactive to January 1, 1982.

OTHER LIABILITIES

This section contains information on accounts reported on the Statement of Assets and Liabilities under "Other Liabilities". The establishment and operation of these accounts is authorized by Parliament in annual appropriation acts and other legislation.

Some tables in this section present the continuity of accounts, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges, i.e. inflow and outflow of transactions. In addition, the term "account without current transactions" has been included in one table, to provide a link with figures published in the previous year's edition of the Public Accounts, and to show net transactions in accounts which were closed out in the previous year.

Table 9.1 presents the year-end balances for other liabilities.

Interest due

Interest due is the interest on the bonded debt, which is due and payable but has not been redeemed by bond holders.

Interest accrued

Interest accrued is the interest accumulated as at March 31 on the bonded debt and certain other liabilities, that is not payable until a future date.

Provision for compound and bonus interest on Canada savings bonds

This account records the estimated future obligations for additional interest payments, to holders of certain Canada savings bonds.

Matured debt

This account records financial obligations represented by certificates of indebtedness issued by the Government of Canada, that have become due but that have not been presented for redemption. Unclaimed matured bonds are transferred to non-tax revenue if they remain unredeemed 15 years after the date of call or maturity, whichever is earlier; the minimum time before such a transfer is made is 5 years from the date of maturity.

Unamortized Discount on Treasury Bills

This account records the portion of the discount on outstanding Treasury bills which has not yet been charged to expenditure. The discount is amortized as an expenditure over the term of issue.

Accounts Payable

This account represents amounts owing at the year end pursuant to contractual arrangements, or for work performed, goods received, or services rendered, relating to appropriations on which Parliament has imposed annual ceilings, and items to be paid from certain statutory authorities.

Outstanding Cheques and Warrants

This account records cheques and warrants issued but not yet presented for payment.

Table 9.3 presents a summary of the balances in this account.

Outstanding cheques

Cheques issued in Canadian dollars, and unpaid at March 31, are recorded in this account. Cheques outstanding for 10 years are transferred to non-tax revenue. During the year, an amount of $2,716,264 was transferred to revenue.

Cheques in foreign currencies are credited to the Government's cash account at the time of issue.

Imprest account cheques

Imprest account cheques issued and unpaid at March 31, with the exception of those outstanding for 10 years or more (which have been transferred to non-tax revenue), are recorded in this account. During the year, an amount of $10,822 was transferred to revenue.

Unemployment Insurance warrants

This account records outstanding Unemployment Insurance benefit warrants.

Allowance for Employee Vacation and Termination Benefits

This account represents allowances for amounts owing for earned and unpaid annual vacation leave ($400 million) and for employee benefits payable upon termination of employment ($1,650 million).

Allowance for Borrowings of Agent Crown Corporations Expected to be Repaid by the Government

In accordance with Section 45 of the Financial Administration Act, the payment of all money borrowed by agent Crown corporations, and interest thereon, is a charge on and payable out of the Consolidated Revenue Fund. Such borrowings therefore constitute unconditional obligations of the Government.

This account reports the borrowings of agent Crown corporations expected to be repaid by the Government (see Table 7.4 in Section 7 of this volume) and does not include the borrowings of Canadair Financial Corporation Inc since Parliament already provided authority (Regional Industrial Expansion Vote 7c, Appropriation Act No 4, 1984-85) to assume the debt of this Corporation. The borrowings of this Corporation are reported under Unmatured Debt (Section 11 of this volume) on the Government's Statement of Assets and Liabilities.

Eldorado Mining and Refining Limited—Unpresented capital stock

The liability of the Government of Canada for the value of the paid-up capital stock of the former company, which has not been redeemed at the close of the year, is recorded herein.

Miscellaneous departmental paylist deductions

Deductions from the salaries and wages of certain employees are credited to this account pending transmittal to related outside organizations.

Contractors' and other holdbacks

This account records the amounts withheld to ensure that contracts are carried out as stipulated. Holdbacks are charged to appropriations of departments or agencies concerned, and are credited to this account under Section 35 of the Financial Administration Act. They are paid out in accordance with contracts under regulations of the Treasury Board.

Suspense accounts

Accounts in which transactions are recorded temporarily, pending their ultimate disposition.

FOREIGN EXCHANGE ACCOUNTS

Foreign exchange accounts represent financial claims and obligations of the Government of Canada which are identified with Canada's foreign exchange operations. Financial claims and obligations denominated in foreign currencies are reported at Canadian dollar equivalents at March 31. Net gains resulting from the translation of the net assets denominated in foreign currencies, to Canadian dollar equivalents as at March 31, are credited to revenue as premium and discount on exchange, and net losses are charged to budgetary expenditure of the Department of Finance.

Table 10.1 presents the continuity of each foreign exchange account, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges. It should be noted, however, that this table excludes unmatured debt payable in foreign currencies, amounting to $9,057 million as at March 31, 1985 ($6,086 million as at March 31, 1984); details relating to these obligations are presented in Section 11 of this volume.

Exchange Fund Account—Advances

This account records the moneys advanced from the Government of Canada to the Exchange Fund Account, in Canadian and other currencies, for the purchase of gold, foreign currencies and securities, and Special Drawing Rights (SDRs).

The Exchange Fund Account is operated under the provisions of the Currency Act. In accordance with this Act, audited financial statements for the Exchange Fund Account are prepared for each calendar year. These financial statements as at December 31, 1984, together with the Auditor General's report thereon, are found at the end of this section.

Table 10.2 shows advances to, and assets held by, the Exchange Fund Account as at March 31, 1985. Gold held by the Account is valued at 35 SDRs per fine ounce ($47.31 Cdn as at March 31, 1985 and $47.53 Cdn as at March 31, 1984).

In 1984-85, payments and other charges consisted of advances to the Exchange Fund Account in the amount of $20,110 million, and a valuation adjustment of $206 million. Receipts and other credits consisted of repayments of advances of $19,408 million, and a valuation adjustment of $131 million.

(2) Less than $500,000.

International Monetary Fund—Subscriptions

This account records the value of Canada's quota (i.e. subscription assigned) in the capital of the International Monetary Fund (IMF).

The amount by which the sum of Canada's subscriptions and loans to the IMF, under special facilities, exceeds the IMF's holdings of Canadian dollars represents the amount of foreign exchange which Canada is entitled to draw from the IMF on demand, for balance of payments purposes. The subscription is expressed in terms of the SDR, a unit of account defined in terms of a "basket" of five major currencies.

Canada has accumulated its subscriptions through settlements to the IMF in Canadian dollars, gold and SDRs. Annual maintenance of value payments are made to, or received from, the IMF when the Canadian dollar depreciates or appreciates against the SDR, in order to maintain the SDR-value of the IMF's holdings of Canadian dollars. In 1984-85, receipts and other credits consisted of a valuation adjustment of $3 million and a maintenance of value adjustment of $32 million, while payments and other charges consisted of a maintenance of value adjustment of $25 million.

International Monetary Fund—Notes Payable

This account records non-marketable, non-interest bearing notes issued by the Government of Canada to the IMF. These notes are payable on demand and are subject to redemption or re-issue, depending on the needs of the IMF for Canadian currency.

Canadian dollar holdings of the IMF include these notes and a small working balance (initially equal to one-quarter of one percent of Canada's subscription) held on deposit at the Bank of Canada. In 1984-85, notes payable to the IMF increased by $32 million.

Special Drawing Rights Allocations

This account records the value of SDRs allocated to Canada by the IMF. The Special Drawing Right is an international currency created by the IMF, and allocated to countries participating in its Special Drawing Rights Department. It represents a liability of Canada, as circumstances could arise whereby Canada could be called upon to repay these allocations, in part or in total.

As an asset, SDRs represent rights to purchase currencies of other countries participating in the IMF's Special Drawing Rights Department, as well as to make payments to the IMF itself. All SDRs allocated to Canada by the IMF have either been used to settle subscriptions in the IMF, or have been advanced to the Exchange Fund Account.

There was no allocation of SDRs by the IMF to Canada during the year. In 1984-85, payments and other charges consisted of a valuation adjustment of $3 million.

SUPPLEMENTARY STATEMENT

Exchange Fund Account

AUDITOR'S REPORT

THE HONOURABLE MICHAEL WILSON, P.C., M.P.
MINISTER OF FINANCE

I have examined the balance sheet of the Exchange Fund Account as at December 31, 1984 and the statement of income for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Account as at December 31, 1984 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1984

1. Authority and objective

The Account is governed by Part II of the Currency and Exchange Act, R.S.C. 1970, c.C-39, as amended (the Act). Amendments made in 1984 changed the title of the Act to the Currency Act. The Account is in the name of the Minister of Finance and is administered by the Bank of Canada as fiscal agent. The Account is funded by advances from the Consolidated Revenue Fund (CRF) which are limited to Cdn $10 billion by Order in Council dated March 1, 1979 and are not subject to interest. The net income for the year due to the CRF is payable within three months after the end of the year.

The main objective of the Account is to aid in the control and protection of the external value of the Canadian dollar and the Minister acquires for the Account those assets which are deemed appropriate for this purpose in accordance with the Act.

2. Accounting policies

Valuation of assets

US dollar securities, Special Drawing Rights (SDRs) and International Monetary Fund (IMF) notes are adjusted for amortized premiums and discounts where applicable, and include accrued interest. Gold is recorded at 35 SDRs per fine ounce. Cash and short-term deposits include accrued interest where applicable.

Translation of foreign currencies and SDRs

Assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the year-end exchange rates in the Canadian foreign exchange market. Assets and liabilities denominated in SDRs are first translated into US dollars at the year-end US dollar value of the SDR, as calculated by the IMF, and then into Canadian dollars. Investment income in foreign currencies is translated into Canadian dollars at the foreign exchange rates prevailing on the date the income is recorded. The assets and liabilities denominated in foreign currencies and SDRs have been translated into Canadian dollars at the following year-end exchange rates:

	1984	1983
US dollar	1.3217	1.2444
Deutsche mark	0.4187	0.4562
Swiss franc	0.5078	0.5702

Special Drawing Right	1.29554	1.30283

Exchange Fund Account—*Continued*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1984—*Continued*

Investment income

Investment income is recorded on an accrual basis and includes interest earned, amortization of premiums and discounts, and gains and losses on the sale of securities.

Valuation gains and losses

Valuation gains and losses include the increases and decreases in the value of assets and liabilities arising from the translation of foreign currencies and SDRs during the year and at year end. Valuation gains and losses also include gains or losses on transactions in foreign currencies, SDRs and gold, and on the liquidation of liabilities. In accordance with the provisions of the Act, valuation gains and losses for the year are taken into income in three equal portions over the current and two succeeding years.

Operating expenses

The Bank of Canada provides, without charge, the administrative, custodial and fiscal agency services to carry out the objectives of the Account.

3. Securities denominated in US dollars

	1984	1983
	(in millions of US dollars)	
US Government treasury bills	843.9	1,817.3
International Bank for Reconstruction and Development bonds	95.0	30.0
Accrued interest	5.0	1.0
	943.9	1,848.3

Estimated market value at year end:
1984—US $944 million (Cdn $1,248 million)
1983—US $1,848 million (Cdn $2,300 million)

4. Special Drawing Rights

SDRs were created by the IMF to supplement international reserve assets. SDRs are allocated to member countries in proportion to their quotas in the IMF and can be used in transactions between participants in the SDR Department of the IMF or in transactions with the IMF itself. The value of the SDR is calculated by the IMF as a weighted average of the market values of five major currencies. At year end, one SDR was equivalent to US $0.980205 (1983—US $1.04695).

The liability of a member country to the IMF in respect of cumulative SDR allocations is the settlement obligation that would be incurred upon the termination of that country's participation in the SDR Department of the IMF or on the liquidation by the IMF of this Department. SDRs allocated to Canada by the IMF are advanced from the CRF to the Account. However, some SDRs have subsequently been returned to the CRF and used to pay part of Canada's increased subscription in the IMF.

The IMF pays interest on SDRs held and charges interest at an identical rate on the cumulative allocations. The interest rate is based on short-term money market rates in the countries whose currencies are used to calculate the value of the SDR. Interest paid by the IMF on SDRs held by the Account is included in investment income. Interest on Canada's cumulative allocations is charged directly to the CRF.

The following is a reconciliation between the IMF cumulative allocations of SDRs to Canada and the SDRs held by the Account:

	1984	1983
	(in millions of SDRs)	
Cumulative allocations to Canada	779.3	779.3

	(in millions of US dollars)	
Notes	160.9	129.4
Accrued interest	10.1	5.8
	171.0	135.2

These notes represent Canada's participation in the Supplementary Financing Facility established to assist members of the IMF with balance of payments needs. The notes were acquired in 1980, 1983 and 1984 and have original terms to maturity of five years. They are redeemable on demand if Canada represents that it has a balance of payments need and are transferable to other members.

6. Gold

	1984	1983
	(in thousands of fine ounces)	
Held at beginning of the year	20,170	20,263
Sales	33	93
Held at end of the year	20,137	20,170
	(in millions of US dollars)	
	690.9	739.1

Gold is recorded at 35 SDRs (US $34.31; 1983—US $36.64) per fine ounce. During the year, the market price of gold, as recorded at the London fixings, ranged from a low of US $303.25 (1983—US $374.25) per fine ounce to a high of US $406.85 (1983—US $511.50) and closed at US $309.00 (1983—US $381.50).

The Minister of Finance has authorized loans and/or sales, at market related prices, of part of the gold held by the Account, to the Royal Canadian Mint and others. At year end, the Account's gold holdings included gold loans of 88 thousand (1983—40 thousand) fine ounces.

7. Official international reserve assets

The Account is the principal repository of Canada's official international reserves. These international reserves, as defined by the Minister of Finance, consist of assets held by the Account as well as foreign assets held by both the Bank of Canada and the CRF.

8. Due to the Consolidated Revenue Fund—Advances

		2,311.8		3,210.4

The proceeds of Canada's borrowings in foreign currency and the IMF allocations of SDRs have been advanced in foreign currency and SDRs from the CRF to the Account. The borrowings include foreign bond and note issues and bank loans, as well as borrowings under Standby Credit Arrangements with Canadian and foreign banks. Redemptions of such borrowings are made using the resources of the Account. Interest payable by Canada on borrowings in foreign currencies is charged directly to the CRF.

9. Provision for valuation losses on uncompleted contracts

At year end, the Account had outstanding short-term swap arrangements with the Bank of Canada as well as uncompleted foreign exchange transactions.

As the exchange rates on these uncompleted contracts differ from the year-end rates at which the Account's assets and liabilities are valued, additional valuation gains or losses will occur upon settlement. The provision for valuation losses on uncompleted contracts arises from the revaluation of such contracts using the year-end rates of exchange and represents the portion of future net losses attributed to the current year.

Under the swap arrangements with the Bank of Canada, the Account sells US dollars to the Bank and agrees to repurchase these amounts at the same exchange rates at which they were sold. These contracts are undertaken to assist in the Bank's management of chartered banks' cash reserves. Swaps outstanding at year end amounted to US $370 million (Cdn $488 million) (1983 — US $225 million; Cdn $280 million). Assets transferred to the Bank under swap arrangements remain part of Canada's official international reserves.

UNMATURED DEBT

Unmatured debt represents financial obligations resulting from certificates of indebtedness issued by the Government of Canada that have not yet become due. It also includes the borrowings of Canadair Financial Corporation Inc to be repaid by the Government.

The Government's holdings of its own securities have been deducted from unmatured debt, to report the amount of the Government's liabilities to outside parties.

Some tables in this section present the continuity of accounts, by showing the opening and closing balances, as well as issues and retirements, i.e. inflow and outflow of transactions. In addition, the term "account(s) without current transactions" has been included in some tables, to provide a link with figures published in the previous year's edition of the Public Accounts, and to show net transactions in accounts which were closed out in the previous year.

Note: this table includes unmatured debt issued by the Government of Canada. Borrowings of agent Crown corporations which are unconditional obligations of the Government, but not included in unmatured debt, can be found in Section 13 of this volume.

Marketable Bonds

Marketable bonds are interest-bearing certificates of indebtedness issued by the Government of Canada, and have the following characteristics:

—bought and sold on the open market;

—payable in Canadian or foreign currency;

—subject to call or redemption before maturity;

—fixed dates of maturity;

—interest payable either in coupon or registered form; and,

—face value guaranteed at maturity.

Registered marketable bonds are transferable by endorsement and delivery by one holder to another. Bearer marketable bonds need not be endorsed.

Table 11.2 presents a summary of the balances and transactions for marketable bonds. Since most of the marketable bonds are not subject to call or redemption before maturity, exceptions only are noted in the table.

The year-end balances of marketable bonds payable in foreign currencies were translated into Canadian dollars using the closing rates of exchange at March 31, 1985.

---

[1] Issues and retirements of the marketable bonds payable in foreign currencies include the translation of these currencies to Canadian dollars using closing rates of exchange at March 31.

[2] Exchangeable at the option of the holder for an equal par value bond bearing the same interest rate.

[3] Subject to redemption before maturity.

Canada Savings Bonds

Canada savings bonds are interest-bearing certificates of indebtedness issued by the Government of Canada, and have the following characteristics:

—issued to Canadian residents;

—issued in Canadian currency only;

—registered in the name of the holder;

—fixed dates of maturity;

—not marketable;

—redeemable on demand by the holder, with accrued interest calculated to the end of the previous month;

—not subject to call before maturity; and,

—term to maturity of seven years or more.

Certain series of Canada savings bonds include provisions for cash bonuses payable at maturity.

Table 11.3 presents a summary of the balances and transactions for Canada savings bonds.

Treasury Bills

Treasury bills are short-term certificates of indebtedness issued by the Government of Canada to pay sums of money on given dates, and have the following characteristics:

—issued at a discount in lieu of interest payments;

—common terms: 3 months, 6 months and 12 months;

—issued in Canadian currency only;

—transferable; and,

—bought and sold on the open market.

Three-month and six-month bills are usually issued weekly, while other bills are issued every two weeks, usually for periods of one year or less.

The balance at March 31, 1985 consists of $20,900 million in three-month bills; $21,150 million in six-month bills; and, $10,250 million in 364-day bills.

Table 11.5 presents a monthly summary of Treasury bill issues and redemptions.

Borrowings of Canadair Financial Corporation Inc to be Repaid by the Government

The "Allowance for borrowings of agent Crown corporations expected to be repaid by the Government" is reported under Other Liabilities in Section 9 of this volume and does not include the borrowings of Canadair Financial Corporation Inc since Parliament already provided authority (Regional Industrial Expansion Vote 7c, Appropriation Act No. 4, 1984-85) to assume the debt of this Corporation. Therefore, $1,117 million ($100 million payable in Canadian currency and $1,017 million payable in foreign currencies) of borrowings as at March 31, 1985 are reported separately in this section.

Notes and Loans Payable in Foreign Currencies

This account records borrowings by the Government of Canada under agreements with banks in Canada, United States, Switzerland, Japan and other international banks.

Transactions during the year consisted of issues and retirements in United States dollars and Swiss francs, issues in Japanese yen, and valuations of all year-end balances. The balances at March 31, 1985 consist of:

—$1,000,000,000 US ($1,363,600,000 Cdn) in one-month notes from American banks;

—$400,000,000 US ($545,440,000 Cdn) in a one-month note from Canadian chartered banks;

—$1,750,000,000 US ($2,386,300,000 Cdn) five year loans from international banks;

—300,000,000 SF ($158,400,000 Cdn) three year loan, 700,000,000 SF ($369,600,000 Cdn) five year loans, and 200,000,000 SF ($105,600,000 Cdn) six year loan, from Swiss banks; and,

—120,000,000,000 Yen ($653,400,000 Cdn) eight year loan, 31,150,000,000 Yen ($169,611,750 Cdn) ten year loan, and 35,000,000,000 Yen ($190,575,000 Cdn) twenty year loan, from Japanese banks.

The foreign currency balances were translated into Canadian dollars using the year-end closing rates of exchange at March 31, 1985.

Table 11.6 presents a summary of the balances and transactions for the notes and loans payable in foreign currencies.

Interest Rates

Table 11.7 sets out unmatured debt at March 31, for each of the years 1980-81 to 1984-85 inclusive, with the average rate of interest thereon. For purposes of comparison, unmatured debt is classified as to marketable bonds, non-marketable bonds (include Canada savings bonds and the Canada Pension Plan Investment Fund), Treasury bills, and notes and loans payable in foreign currencies. The borrowings of Canadair Financial Corporation Inc to be repaid by the Government are excluded from Table 11.7.

Cash in hands of collectors and in transit

This account records public moneys received by public officers prior to April 1, but not deposited to the credit of the Receiver General for Canada in the Bank of Canada, before that date.

Moneys received after March 31 but applicable to the current year

Public moneys received after March 31, but applicable to the year just ended, are recorded in this account.

This account includes refunds of old year expenditure received prior to the closing of the accounts, and receipts to be credited to asset, liability, and (in exceptional cases) revenue accounts, where the omission of the credits in the old year would tend to make the accounting incomplete or inconsistent.

Cash

The Government's cash account represents public moneys on deposit at March 31, to the credit of the Receiver General for Canada, with the Bank of Canada, chartered banks and other financial institutions.

The cash position of the Government is affected not only by budgetary transactions, but also by non-budgetary, foreign exchange and unmatured debt transactions, all of which must be taken into account when considering the full scope of the Government's financial operations.

Table 12.2 presents a summary of the balances and related transactions in current and special Receiver General deposits.

The year-end balances denominated in foreign currencies have been translated into Canadian dollar equivalents at year-end closing rates of exchange. Foreign currencies held include United Kingdom pounds sterling, United States dollars, Belgian, Swiss and French francs, and West German marks.

Receiver General special deposits

These are balances in the hands of fiscal agents of the Government, for the purchase or redemption of Government securities, and for the payment of interest.

Fixed Assets

Fixed assets are tangible, durable items of value, including major additions or alterations thereto, from which benefits are expected to be derived during their useful lives.

The fixed assets of the Government, which include land, engineering structures and works (such as canals, harbours and roads), buildings, and machinery and equipment, are charged to budgetary expenditure at the time of acquisition or construction, in accordance with the accounting policies of the Government of Canada which are described in Note 1 to the audited financial statements (Section 2 of this volume). Their existence, however, is acknowledged on the Statement of Assets and Liabilities by reporting them at the nominal value of $1.

Accumulated Deficit

The accumulated deficit is the account recording the net sum of annual deficits and surpluses of the Government of Canada since Confederation, together with certain amounts charged or credited directly to this account. The accumulated deficit is also equal to the excess of recorded liabilities over net recorded assets.

A Statement of Accumulated Deficit is published in Section 2 of this volume.

A five year comparative statement of the accumulated deficit, in terms of total liabilities and net recorded assets, is presented as follows:

Contingent Liabilities

A contingent liability is a potential liability which may become an actual liability when one or more future events occur or fail to occur.

The Government of Canada as an accounting entity is defined as all the departments named in Schedule A of the Financial Administration Act; any division or branch of the Public Service of Canada, including a commission appointed under the Inquiries Act, designated by the Governor in Council as a department for purposes of the Financial Administration Act; the staffs of the Senate, the House of Commons, and the Library of Parliament; and, any corporation named in Schedule B of the Financial Administration Act. Corporations listed in Parts I and II of Schedule C of the Financial Administration Act, and those Crown corporations that are not subject to the Financial Administration Act, are excluded from this definition. Information regarding contingent liabilities of Crown corporations can be found in Table 7.8—"Contingent Liabilities of Crown Corporations", while details of their borrowings can be found in Table 7.4—"Government of Canada Financial Interest in Crown Corporations". Some Crown corporations also operate insurance programs. Information regarding these insurance programs can be found in Note 6 to the audited financial statements of the Government in Section 2 of this volume.

The contingent liabilities of the Government comprise explicit guarantees by the Government, which include borrowings by other than Crown corporations, both from agent Crown corporations and from other than agents. Such explicit guarantees consist of guarantee programs of the Government, explicit guarantees by the Government for loans, financial arrangements and other potential liabilities, insurance programs of the Government and other explicit guarantees. They also comprise potential losses arising from pending and threatened litigation relating to claims and assessments in respect of breach of contract, damages to persons and property, and like items. Pending and threatened litigation is reported in total in the following table. This table is also summarized in Note 4 to the audited financial statements of the Government in Section 2 of this volume.

---

(1) Represents the average percentage over the most recent 5 years of net claims to the average amount of outstanding guarantees as at March 31, 1985.

(2) Committed guarantees exist for the following loans to be made: to Indians for on-reserve housing, $26,764,846—for Indian economic development, $69,162. At the reporting date, no loans had been issued for these amounts.

(3) Letters of comfort have been issued by the Minister of Finance to the Bank of Canada with respect to funds advanced or guarantees provided by the Bank of Canada to the Bank for International Settlements (BIS). The letters pertain to BIS standby credit facilities in favour of the International Monetary Fund. The Government's potential liability at March 31, 1985 amounted to 180 million Special Drawing Rights ($178,400,000 US) while actual exposure amounted to 76 million Special Drawing Rights ($75,300,000 US).

(4) The Act places limits on the maximum amount of guarantee for loans made by eligible lenders over different loan periods. The maximum amount of guarantee per lender is expressed in legislation as a percentage of aggregate loans made to qualified borrowers and varies depending upon the dollar value range of aggregate loans made by the lender. The authorized limits for given loan periods are included in the figure reported until all qualified loans made by all eligible lenders in the given periods are no longer outstanding, and are not adjusted for loan repayments nor payments made by the Government for guaranteed amounts in which default has occurred.

(5) Less than .1%.

(6) Includes $4,139,360 attributable to the Canadian Industrial Renewal Board.

(7) Amount denominated wholly or partially in a foreign currency and translated at the closing rate of exchange as at date of statement.

(8) Authorized limit for loan guarantees for on-reserve housing totals $250,000,000 (shown above) for loans made by the Canada Mortgage and Housing Corporation, the Farm Credit Corporation and other approved lenders.

(9) Maislin Industries Ltd was placed in receivership on July 11, 1983 and was declared bankrupt on October 19, 1983. To date, the Government has made interim payments totalling $18,500,000 US to creditors under a guarantee in the amount of $27,000,000 US. It is anticipated that the Company's assets will be liquidated by December 31, 1985 and that the Government will be called upon to make a payment of $6,500,000 US to settle remaining obligations to creditors at that time.

(10) Two agreements have been entered into with insurance companies under the credit reinsurance program. However, as at March 31, 1985, no loans have been reinsured under the agreements. The amount of reinsurance outstanding under the credit reinsurance program shall not exceed $600,000,000.

(11) There have been no claims under the Nuclear Liability Act since its inception in 1970. The Act covers 15 Canadian nuclear installations as at March 31, 1985.

(12) The Fishing Vessel Insurance Plan is administered by the Government to insure fishermen against abnormal capital losses. A specified purpose account is credited with premiums, recoveries, and with advances to the account by the Government, such advances not to exceed $150,000 at any time. The account is debited with refunds of premiums and payments in settlement of third party vessel collision damage claims against fishermen, where the collision involves a vessel insured under the Plan. As at March 31, 1985, the insured value of vessels under the Plan amounted to $358,493,000; the balance of the account was $4,478,433 and outstanding claims against the account totalled $1,250,000.

(13) Includes $2.9 billion related to the administration of native statutory and treaty obligations by the Department of Indian Affairs and Northern Development. This amount represents plaintiffs' claims in 42 litigation cases. There are another 64 cases and settlements of Native Land claims currently under negotiation, for which amounts are not stated in the claims, and it is not possible to determine the amounts that may be ultimately payable.

TAXATION

$

Remissions of income tax:

Barbeau, Gisèle
Preville Lumber Products Inc 3,941

PC 1985—6/538 dated February 14, 1985, authorizes the remission of $1,287, $1,417 and $1,237 for the 1969, 1970 and 1971 taxation years respectively to Gisèle Barbeau.

PC 1985—5/538 dated February 14, 1985, authorizes the remission of $898 for the 1970 taxation year to Preville Lumber Products Inc.

Preville Lumber Products Inc was audited for the 1968 to 1971 taxation years. The company was declared to be a personal corporation because the source of the income was entirely investments. All income was declared to be income of Mr Camille Barbeau and all expenses disallowed. These expenses included wages to his wife, Mrs Gisèle Barbeau. Reassessments were issued for 1968 to increase the income of Mr Camille Barbeau and decrease the assessments for Preville Lumber Products Inc and Mrs Gisèle Barbeau. Mr Barbeau appealed the decision and the Federal Court denied his appeal on November 2, 1981.

Reassessments were never processed for Mrs Barbeau and Preville Lumber Products Inc for the years 1969 to 1971. As the same income was assessed in the hands of two or more taxpayers, the remissions are granted.

Béique, Jacqueline 8,398

PC 1985—7/711 dated March 7, 1985, authorized the remission of $1,698, $1,571, $533, $2,284 and $2,312 plus relevant interest for the 1972, 1973, 1974, 1977 and 1978 taxation years respectively.

Half of the income of the taxpayer's late husband was declared by him and half by his wife on the basis that they were entitled to do so because of the community of property that existed between them. His 1972 to 1979 returns were reassessed to include that portion of his income reported by his wife. Her 1975 and 1976 returns were also reassessed to delete the income for those years only.

As the 1972, 1973, 1974, 1977 and 1978 returns are now statute-barred, the remission was granted because of double taxation.

Chevron Standard Limited 15,000,000

$

PC 1984—1758 dated May 24, 1984, authorized the remission of $90 million to Chevron Standard Limited in respect of the 1975 to 1982 taxation years. The Order is conditional upon Chevron Standard Limited discontinuing all outstanding actions in the Federal Court of Canada, withdrawing all notices of objection and refraining from commencing any court actions claiming a reduction in taxes payable by reason of:

(1) the non-inclusion or deduction of provincial royalties, the petroleum and gas revenue tax, or the proceeds of disposition deemed received under Section 69(6) of the Act, and

(2) the non-application of the special tax on corporations under Part XIV of the Act.

In addition Chevron Standard Limited must provide to Revenue Canada, Taxation a written designation that Chevron Resources Limited receive the amounts remitted.

The remission is to be satisfied by permitting Chevron Canada Resources Limited to reduce taxes otherwise payable for 1983 and subsequent by an amount equal to the lesser of $15 million or the tax otherwise payable by it until the full $90 million is utilized. Should the full $90 million not be remitted by 1988 the outstanding balance will be paid during the 1989 taxation year to Chevron Canada Resources Limited. For greater certainty no part of the remission amount is to be considered as interest and no taxes including withholding taxes, Part XIV tax, interest, or penalties shall be imposed upon Chevron Standard Limited or Chevron Canada Resources Limited by reason only of the remission.

Dominion Engineering Works Ltd 91,363

PC 1984—1/3714 dated November 15, 1984, remits income tax in the amount of $91,363 plus relevant interest payable for the 1977 taxation year.

A reassessment for 1977 disallowed the manufacturing and processing tax credit on the grounds that the income involved was Canadian investment income. As this reassessment was against Head Office Policy, the remission was approved.

Doran, John B 1,101

PC 1985—1/151 dated January 15, 1985, authorized the remission of $1,101 for the 1978 taxation year. The taxpayer in 1981 was certified legally incompetent as a result of an accident. Mrs Doran was appointed curatrice for her husband. In 1983 after a robbery at their residence Mrs Doran determined that income tax returns for her husband and for herself were not filed and as a result he had lost his entitlement to a refund due to the requirement that refund claims be made within four years. The remission was approved for humanitarian reasons because of the financial burden on the family.

Hamilton Brothers Oil and Gas Corporation 10,786,620

PC 1985—703 dated March 7, 1985, authorized the remission of $675,670, $2,220,049, $955,119,

NATIONAL REVENUE—TAXATION—*Continued*

$

$2,191,065, $3,152,781 and $1,591,936 plus any interest or penalty for the taxation years 1974, 1975, 1976, 1977, 1978 and 1979 respectively.

On condition that the taxpayer withdraws all further litigation, the non-inclusion of income under subsection 69(6) and the non-application of the special tax under Part XIV of the Income Tax Act is allowed. The remission is conditional on the balance of tax owing being paid as outlined in an agreed upon schedule.

Hudson's Bay Oil and Gas Company Remission Order

PC 1985—343 dated February 5, 1985, authorized the remission for the period ending after 1981 and before 1984, the amount of income tax payable under Part I exceeds the amount of tax that would be payable if any outlay or expense incurred by Dome Energy before January 1, 1985 and related to the acquisition of capital stock of Hudson's Bay Oil and Gas Company is allowed.

A remission is also granted for each year after 1983 and before 1991, the amount of tax, interest and penalties payable which exceeds the amount of tax, interest and penalties payable which is related to the acquisition of the capital stock by Dome Energy.

Isolated Posts Housing and Travel Assistance Benefits Remission Order

PC 1984—3792 dated November 29, 1984, authorized the remission of income tax on housing benefits and travel assistance benefits received or enjoyed by employees at isolated posts in the 1983, 1984, and 1985 taxation years.

Isolated Posts Benefits and Allowances Remission Order, Amendment

PC 1984—3791 dated November 29, 1984, this amendment extends the application of PC 1980—1717 June 26, 1980 to the 1983, 1984 and 1985 taxation years.

Jones, Gwellyn 2,864

PC 1985—2/247 dated January 24, 1985, remits income tax, penalties, and relevant interest for 1974, 1975, and 1976.

On December 13, 1977 the taxpayer was assessed on apparent unreported wages. In addition 163(2) penalties were assessed. The request for a two month extension to submit additional information was denied. When the Department sent a collection notice in 1980 the taxpayer advised the taxes were paid on these amounts when earned.

The Department replied that notice of objection had not been received within 90 days of reassessment. The taxpayer advised that he had contacted the district office upon receipt of the notices of reassessment and that constitued a notice of objection as far as he was concerned.

The taxpayer provided documentation which indicated the reassessments contained some errors. In view of the Departmental error and that he did indirectly object to the reassessments a remission was granted.

$

Lafond & Frères Auto Inc 8,275

PC 1984—2/3471 dated October 25, 1984, authorized the remission of 1978 Income Tax and interest.

As a result of an audit the taxpayer and its shareholders were reassessed. The Department of Justice agreed to a debt settlement and the shareholders paid their portion of the debt. The taxpayer did not understand that pursuant to the settlement an amount was owing by the company and the shareholders. Since a Consent to Judgement had been filed with the Court, the taxpayer was precluded from raising further argument in this matter. A remission was recommended as the shareholders and corporation are in severe financial difficulty and bankrutcy would be imminent if the tax liability was not extinguished.

Liberian Iron Ore Limited Remission Order

PC 1984—3527 dated November 1, 1984, remits for the 1976 and subsequent taxation years income tax payable arising as a result of the redemption of Series C Preferred Shares of the capital stock of Liberian American—Swedish Minerals Company owned and acquired in exchange for certain debentures. The tax to be remitted is equal to the amount, which would have been payable if the signed Canada—Liberian Tax Convention had been ratified.

Ocic, Zeljko 1,678

PC 1984—2/3375 dated October 18, 1984, authorized the remission of tax and interest for 1975, 1976 and 1977. The taxpayer filed for 1976 to 1977 as being self-employed. The 1974 return was reassessed to disallow expenses claimed and treat the taxpayer has being an employee. Subsequent to this 1975 and 1976 were reassessed but self-employment income was not adjusted to a calendar year basis which resulted in double taxation. Because of departmental error as well as the effort made by the taxpayer to correct the matter, a remission was granted.

Pechiney Quebec Inc

PC 1984—3581 dated November 1, 1984, authorized the remission of non-resident tax paid on interest payable to eight non-resident French Banks in relation to project loans taken to finance the aluminium smelter project at Bécancour, Quebec.

Quebec Forward Averaged Income 1982 Tax Remission Order

PC 1984—2894 dated August 23, 1984, provides for the remission of income tax in respect of forward averaged income earned in the Province of Quebec in 1982.

Remissions of tax, fee or penalty—*Concluded*

NATIONAL REVENUE—TAXATION—*Concluded*

$

PC 1984—9/1630 dated May 10, 1984, authorized the remission of $1,580 tax payable, penalty of $41, and interest of $1,361 in respect of the 1973 taxation year.

In 1976 the taxpayer was assessed to include $10,918 in 1973 income pursuant to a T4A Slip. The notice of assessment was returned as undeliverable. In 1979 the taxpayer submitted an affidavit that he never worked for the payor. The payor had no records for 1973 and cannot confirm the payment. The remission was granted as the taxpayer lived partly on welfare in 1978 and 1979, his income is low, enforcement of the reassessment would cause undue hardship, and the payor cannot confirm the alleged payment.

Ronaldo Ouellet Ltée 12,858

PC 1984—2/2684 dated July 25, 1984, authorized the remission of income tax and interest to the extent of $12,858 for the taxation years 1976 and 1977.

In 1980 the taxpayer was reassessed to disallow expenses on the basis of information received from the Province of Quebec. When Quebec subsequently reversed these assessments it was too late for the taxpayer to file an objection or to obtain an extension.

Since the assessments were erroneous and could not be corrected within the required time, a remission was granted.

Simon, Barbara 1,226

PC 1984—8/1630 dated May 10, 1984, authorized the remission of $1,226 income tax in respect of 1975 and 1976.

The remission was granted as the department neglected to make adjustments for the married exemption and to allow additional medical expenses for these years. A hardship situation exists due to her late husband's financial difficulties and her own modest income.

Townsend, Estate of Mrs Louise P 2,287

PC 1985—9/1041 dated March 28, 1985, authorized the remission of $2,287 late filing penalty in respect of the 1980 taxation year.

The Townsend family resided in Pennsylvania and owned a summer vacation home in Ontario. Mrs Townsend inherited the home from her husband. On her death, there was considerable confusion as to whether there was any consequential capital gains tax with regard to the summer vacation home and as a result, there was a delay in filing returns. The confusion arose with regard to the Canada-US Tax Treaty. It was finally decided that the Treaty offered no protection in the case of deemed dispositions.

$

Since the delay in filing returns was due in part to misleading information provided by Revenue officials, a remission of the late-filing penalty was approved.

Woods, Edmund James 2,986

PC 1985—8/711 dated March 7, 1985, authorized the remission of $522 and $2,464 for the 1977 and 1978 taxation years respectively.

The taxpayer, a Winnipeg fireman, suffered a heart attack in 1977. He was initially denied workmen's compensation but received his fireman's pay until May, 1979. In 1984, he was finally awarded compensation. In the years in question, his pay was taxable but the compensation was not. Since the City of Winnipeg is a self-insured employer and the taxpayer had received his pay, the City merely kept the compensation eventually awarded.

Because the taxpayer paid more income tax than would have been payable had the compensation awarded not been unduly delayed, a remission of the extra tax in 1977 and 1978, now statute-barred, was approved.

Statement of all borrowing transactions on behalf of Her Majesty

Note: this information is required by Section 40 of the Financial Administration Act. The borrowing transactions included in this statement are: borrowings by the Government for general purposes, and borrowings by agent Crown corporations which are reported as such on the Government's Statement of Assets and Liabilities, except where the Government is the lender. Borrowings by non-agent Crown corporations are not included because such borrowings are not on behalf of Her Majesty.

Financial assistance given to railways by the Government of Canada in 1984-85 (with cumulative figures to March 31, 1985)

The 1952 Canadian National Railways Capital Revision Act stated that "The Minister shall include annually in the Public Accounts a summary statement of all assistance, including land grants, guarantees and capital subsidies but not including grants made pursuant to statutes for the relief of unemployment, that has at any time been given by the Government of Canada to each of (a) the National System (Canadian National Railway System), including its predecessor companies; (b) the Pacific Railways (Canadian Pacific Limited) as defined in the 1952 Canadian National-Canadian Pacific Act, including its predecessor companies; and (c) any other railway".

The following statement presents the budgetary and non-budgetary financial assistance showing annual and cumulative payments. Only individual payments of $50,000 or over are reported in this statement.

Railways have been interpreted to include the following for purposes of this statement: (i) for Canadian National Railways—all companies owned, operated or managed by Canadian National, (ii) for Canadian Pacific—only companies engaged in transportation, communications and hotel activities.

Non-budgetary assistance represents the net increase or decrease to loans, investments and advances.

Budgetary assistance represents a charge to budgetary appropriations which affect the annual deficit or surplus of the Government.

* Figures restated for cumulative assistance of $309,674,591 related to CN Marine Inc., control of which was transferred to the Government during the year.

(s) Statutory authority.

[1] Canadian National Railways Company. The Corporation is a beneficiary of loan guarantees by the Government amounting to $97,347,000 in 1985 ($163,052,000 in 1984).

[2] Cumulative land grants given to Canadian National Railway System including predecessor and affiliated companies and to Canadian Pacific Railway Company and other companies included in that system are 5,728,912 and 32,848,477 acres respectively.

[3] 12,200 additional common shares purchased by the Government in 1984-85. Total shares issued: 6,523,902 no par value shares.

[4] Total shares issued: 93,000 no par value shares.

[5] Controlled by Canadian National Railway.

[6] Controlled by Canadian Pacific Limited.

Losses of $1,000 or more due to accidental destruction of, or damage to, assets which would normally be covered by insurance had insurance existed

The Government does not generally place insurance on movable and immovable property. The Government, therefore, absorbs losses when they occur.

[1] For unmatured debt, the amount of principal represents the closing balance as at March 31, 1985. For the specified purpose accounts, the amount of principal represents the net closing balance as at March 31, 1985.

[2] Amounts reported in this column represent interest (i.e. interest on unmatured debt (including Treasury bill discounts) and on specified purpose accounts) unless otherwise indicated.

[3] Exchangeable at the option of the holder for an equal par value bond bearing the same interest rate.

[4] Converted to $1 US = $1.3636 Canadian.

[5] Converted to 1 DM = $.4460 Canadian.

[6] Converted to 1 SF = $.5280 Canadian.

[7] Term to maturity is 20 years, or such lesser period as may from time to time be fixed by the Minister of Finance on recommendations of the Chief Actuary of the Department of Insurance, redeemable in whole or in part before maturity only at the option of the Minister of Finance.

[8] Converted to 1 Y = $.005445 Canadian.

[9] Interest on this balance is distributed to the Provinces of Ontario and Quebec on a basis of population.

Capital leases

Commitments under capital lease arrangements

This statement provides details of commitments under capital lease arrangements which are summarized in Note 15 to the audited financial statements in Section 2 of this volume. A capital lease is a lease that, from the point of view of the Government, transfers substantially all the benefits and risks incident to ownership of the asset to the Government. (in thousands of dollars)

INTRODUCTION TO THE PUBLIC ACCOUNTS

Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by Section 55 of the Financial Administration Act.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the accounts of Canada and from more detailed records maintained in departments and agencies. The accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department is responsible for agreeing its accounts to the control accounts of the Receiver General, and maintains detailed records of the transactions in those accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years.

Format of the Public Accounts

The Public Accounts is produced in three volumes. **Volume I** presents a summary and analysis of the financial transactions of the Government while **Volume III** contains an annual consolidated report on the businesses and activities of all parent Crown corporations together with a listing of all Crown corporations and other corporate interests of Canada.

Volume II presents the financial operations of the Government, segregated by department. It contains financial operations of individual departments and their associated agencies, and additional information and analysis.

(a) Departmental Financial Operations

In a fashion similar to the Estimates, Volume II uses a uniform set of statements to present each department's financial operations. In most respects, the level of detail is the same as in the Estimates and provides the following information:

(i) Use of Appropriations

This is the principal departmental statement. It is a summary of the use by department of both the budgetary and non-budgetary authorities given to them by Parliament in appropriation acts and other statutes. It displays, by program:

—the wording of the relevant appropriations or statutes;

—the amount authorized under each appropriation or statute;

—the total use made during the year of the authorized amounts;

—unexpended balances (amounts lapsed and carried forward) or amounts overexpended; and,

—the total use for the previous year.

(ii) Total Cost of Programs—Budgetary

This table shows the total calculated cost for each program, by adding to net expenditure, the imputed value of services provided by other departments, and of accommodation provided by the reporting department and by the Department of Public Works, and by deducting non-tax receipts credited to revenue.

The total calculated program cost is also reflected in the Estimates and in the Public Accounts in the "Programs by Activity" table.

(iii) Programs by Activity—Budgetary

This is a comparison of budgetary appropriations with actual expenditures and the imputed costs and revenues referred to in *(ii)*. The table displays total program expenditures by activity and type of vote, and total cost of programs by type of vote. It is related to the "Program by Activities" table displayed in the Estimates.

(iv) Grants and Contributions

This table displays details of amounts appropriated for grants and contributions, by class of recipients and by program, and the payments.

(v) Budgetary Expenditure by Program and Standard Object

This table presents net expenditure by standard object and relates to the "Objects of Expenditure" table shown in the Estimates.

(vi) Revenue

Each department displays summary and detailed statements of revenue collected as part of its operations.

(vii) Revolving Funds

The commercial orientation of a revolving fund is reflected in the balance sheet and statement of operations, or income and expenditure, presented each year. A revolving fund's minimum goal is the recovery of cost, and most commercial accounting conventions are used to measure cost.

(viii) Other Entities

To further the objectives of the Government and of departments, various entities such as departmental corporations have been created by appropriation acts and other legislation. Financial statements for these entities are also shown.

(b) Additional Information and Analysis

Further details of certain outlays are provided, in Volume II, to supplement the statements already presented. This supplementary information includes:

—accounts receivable and deletions (Section 30);

—professional and special services (Section 31);

—construction and acquisition of land, buildings, works, machinery and equipment (Section 32);

—payments of damage claims, ex gratia payments, Federal Court awards and nugatory payments (Section 33);

—selected miscellaneous payments and federal-provincial shared-cost programs (Section 34);

—grants and contributions (Section 35); and,

—miscellaneous statements by department (Section 36).

Summary Tables

The following tables provide summaries of the financial operations contained in the departmental sections.

Table 1	summarizes the appropriations and the use of appropriations. (This statement also appears in Section 2 of Volume I.)
Table 2	summarizes by department the budgetary and non-budgetary appropriations and spending made under annual and non-lapsing appropriations and various statutory authorities.
Table 3	summarizes expenditure by department and by standard object.
Table 4	summarizes revenue by department and by main classification.

AGRICULTURE

Department

Objectives

ADMINISTRATION PROGRAM*

—To provide overall direction and administrative support services for the Department.

AGRI-FOOD DEVELOPMENT PROGRAM

—To stimulate the development of the agri-food industry, to provide for a dependable and adequate supply of food at reasonable prices to consumers and to ensure stable and equitable returns to producers and processors.

AGRI-FOOD REGULATION AND INSPECTION PROGRAM

PROGRAM

—To ensure the continued supply of safe, high quality, nutritious food for the domestic and export trade.

RACE TRACK SUPERVISION REVOLVING FUND

—To protect the pari-mutuel betting public associated with horse racing.

CANADIAN FORESTRY SERVICE PROGRAM*

—To promote and enhance the sustained economic utilization of Canada's forest resource through environmentally sound forest management.

CANADIAN GRAIN COMMISSION PROGRAM

—To provide quality assurance of Canadian grain in domestic and export markets in the interests of Canadian agriculture.

Canadian Dairy Commission

Objective

—To achieve a sound, healthy and viable dairy industry.

Canadian Livestock Feed Board

Objective

—To ensure the availability of adequate feed grain supplies and storage space to meet the needs of livestock feeders in Eastern Canada and British Columbia and to contribute to reasonable price stability for such supplies; to assist in equalizing feed grain prices to livestock feeders in Eastern Canada and in British Columbia.

Canagrex

Objective

—To promote, facilitate and engage in the export of agricultural and food products from Canada.

Farm Credit Corporation

Objective

—To provide long-term mortgage credit to farmers and loans to syndicates of farmers and to perform operational and administrative functions related to the organization of Canadian agriculture into economic farm units in the hands of competent operators.

Agricultural Products Board

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the Agricultural Products Board in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Board.

This statement of operations was prepared in accordance with the accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Previous year's figures have been reclassified to conform to the current year's presentation. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Board maintains a set of accounts which provides a centralized record of the Corporation's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in the statement of operations, unless indicated otherwise.

The Board's directorate of financial services develops and disseminates financial management and accounting policies, and issues directives which maintain standards of accounting and financial management. The Board maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Board's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs where frequent contacts are maintained between staffs of Agriculture Canada and of the Office of the Auditor General. The Board also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The accounting system and financial statement of the Board have evolved over the years to meet changing conditions.

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1985

1. Authority and objective

The Board which was established in 1951 and operates under the authority of the Agricultural Products Board Act, R.S., c. A-5, consists of a chairman and two members appointed by the Governor in Council.

The objective of the Board is to stabilize the prices of agricultural commodities through the purchase and sale of surplus commodities in times of depressed markets.

The Board's operations are funded by a budgetary appropriation through the Department of Agriculture.

2. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

All expenditure is recorded on the accrual basis, in accordance with the Government's Payables at Year End (PAYE) accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis.

(b) Revenue recognition

Revenue is recorded on the cash receipts basis in accordance with the Government's accounting policies.

(c) Estimates of amounts for services provided without charge from Government departments are included in expenditures.

AUDITOR'S REPORT

THE HONOURABLE JOHN WISE, P.C., M.P.
MINISTER OF AGRICULTURE

I have examined the balance sheet of the Agricultural Products Board as at March 31, 1985 and the statements of operations and equity for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1985 and the results of its operations and the changes in its equity for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied, after giving retroactive effect to the change to the accrual basis of accounting as explained in Note 3, on a basis consistent with that of the preceding year.

1. Authority and objective

The Agricultural Products Board, which was established in 1951, operates under the authority of the Agricultural Products Board Act and comprises a chairman and two members appointed by the Governor in Council.

The objective of the Board is to stabilize the prices of agricultural commodities through the purchase and sale of surplus commodities in times of depressed markets.

2. Accounting policies

The Board follows the accrual basis of accounting for the transactions authorized pursuant to the Agricultural Products Board Act.

Inventories are valued at the lower of cost and net realizable value.

Furniture and equipment are charged to administrative expenses in the year of acquisition.

An estimated amount for services provided to the Board without charge by Government departments is included in administrative expenses.

A statement of changes in financial position has not been presented since the Board's financing activities are disclosed in the statement of equity.

3. Changes in accounting policy

Effective April 1, 1984 the Board retroactively changed its basis of accounting from the modified cash basis to the accrual basis. Accordingly, the statement of operations for 1984 has been restated. Further, to adequately reflect financial position, a balance sheet and statement of equity are now presented.

The statement of operations for 1984 has been restated to reflect a loss for that year of $1,143,522 whereas, before the accounting change, reported net expenditures for 1984 amounted to $5,429,109. Had the accounting change not been adopted the statement of operations for 1985 would have shown a net expenditure of $2,156,105.

4. Inventories

Agricultural Stabilization Board

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the Agricultural Stabilization Board in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Board.

This statement of operations was prepared in accordance with the accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Previous year's figures have been reclassified to conform to the current year's presentation. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Board maintains a set of accounts which provides a centralized record of the Corporation's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in the statement of operations, unless indicated otherwise.

The Board's directorate of financial services develops and disseminates financial management and accounting policies, and issues directives which maintain standards of accounting and financial management. The Board maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Board's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs where frequent contacts are maintained between staffs of Agriculture Canada and of the Office of the Auditor General. The Board also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The accounting system and financial statement of the Board have evolved over the years to meet changing conditions.

On June 28, 1985, Bill C-25, an Act to amend the Agricultural Stabilization Act, received Royal Assent. The amendments included in the Bill provide additional authority to prescribe support prices, past, present or future, and for periods other than a year but not less than ninety days, as well as setting out the terms and conditions of entering into joint (tripartite of bipartite) stabilization programs. Winter and spring wheat, other than that grown in the Canadian Wheat Board designated areas, were added to the list of named commodities, with sheep being replaced by lamb and wool. These amendments will materially affect the operations of the Board in future years.

AUDITOR'S REPORT

THE HONOURABLE JOHN WISE, P.C., M.P.
MINISTER OF AGRICULTURE

I have examined the statement of operations of the Agricultural Stabilization Board for the year ended March 31, 1985. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the net cost of operations of the Board for the year ended March 31, 1985 in accordance with the accounting policies set out in Note 2 to the financial statement applied on a basis consistent with that of the preceding year.

Included in expenditure is an amount of $12.6 million, disbursed pursuant to the Agricultural Stabilization Act, that has been used to finance export marketing losses of the Canadian Dairy Commission. This use by the Commission is not consistent with the basis upon which the funds have been voted by Parliament. The Appropriation Acts and Estimates for the year ended March 31, 1985 provide funds for payments to producers pursuant to the Agricultural Stabilization Act with no mention of financing the export losses of the Commission. Therefore, I am of the opinion that the $12.6 million was used in a manner not authorized by Parliament.

NOTES TO THE STATEMENT OF OPERATIONS
MARCH 31, 1985

1. Authority and objectives

The Board, which was established in 1957 and operates under the authority of the Agricultural Stabilization Act, consists of three members appointed by the Governor in Council. The Board is a departmental corporation named in Schedule B to the Financial Administration Act.

The objectives of the Board are to stabilize the prices of agricultural commodities in order to assist the agricultural industry to realize fair returns for its labour and investment and to maintain a fair relationship between prices received by farmers and the costs of goods and services that they buy.

The Board's operating expenditures and contributions for designated commodities are funded by a budgetary lapsing authority while contributions for named commodities pursuant to the minimum provisions of the Agricultural Stabilization Act are funded through a statutory authority.

2. Significant accounting policies

(a) Expenditure recognition

Expenditure is recorded on the accrual basis, in conformity with the Government of Canada accounting policy for recording Payables at Year End, except that termination benefits and vacation pay are recorded on the cash basis.

(b) Adjustment of prior year's Payables at Year End

Adjustment of any overstatement of prior year's Payables at Year End is recorded as revenue in the year during which the amounts payable are disbursed.

(c) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as revenue when received.

(d) Capital purchases

Acquisitions of capital assets are charged to administrative expenditure in the year of purchase.

(e) Services provided without charge

Estimated amounts for services provided without charge by Government departments are included in expenditure.

5. Subsequent events

(a) On June 28, 1985, Bill C-25, an Act to amend the Agricultural Stabilization Act, received Royal Assent. The amendments included in the Bill provide additional authority to prescribe support prices, past, present or future, and for periods other than a year but not less than ninety days, as well as setting out the terms and conditions of entering into joint (tripartite or bipartite) stabilization programs. Spring and winter wheat, other than that grown in the Canadian Wheat Board designated areas, were added to the list of named commodities, with sheep being replaced by lamb and wool. These amendments will materially affect the operations of the Board in future years.

(b) Expenditure includes an amount of $9.3 million to be paid to the Canadian Dairy Commission for the benefit of producers of industrial milk and cream. This amount is in respect of milk deliveries over and above that for which funds were provided under Governor in Council authority PC 1985-1384, dated April 25, 1985. Additional Governor in Council authority for this amount is being sought by the Board.

6. Comparative figures

Comparative figures have been reclassified to conform with the presentation adopted in the current year.

Canadian Grain Commission

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the Canadian Grain Commission in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Commission.

This statement of operations was prepared in accordance with the accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Previous year's figures have been reclassified to conform to the current year's presentation. To fulfill its reporting responsibility, the Commission maintains a set of accounts which provides a centralized record of the Commission's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in the statement of operations, unless indicated otherwise.

The Department of Agriculture's directorate of financial services develops and disseminates financial management and accounting policies, and issues directives which maintain standards of accounting and financial management. The Commission maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Commission's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs where frequent contacts are maintained between staffs of the Commission and of the Office of the Auditor General. The Commission also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The statement of operations has been examined by the Auditor General, his role being to express an informed opinion as to whether the Commission's statement of operations, considered in its entirety, presents fairly, in conformity with stated accounting policies, the Commission's financial transactions.

The accounting system and financial statement of the Commission have evolved over the years to meet changing conditions.

NOTES TO FINANCIAL STATEMENT
FOR THE YEAR ENDED MARCH 31, 1985

1. Authority and objectives

The Canadian Grain Commission was established under Section 3 of the Canada Grain Act (1970) to establish and maintain standards of quality for Canadian grain and regulate grain handling in Canada, to ensure a dependable commodity for domestic and export markets. The Canadian Grain Commission operates under lapsing authority however, there are some personnel costs covered by statutory authorities.

2. Significant accounting policies

(a) Expenditure

Expenditure includes all amounts for work performed, goods received or services rendered prior to April 1, 1985. This basis is in accordance with the current Government of Canada accounting policies. Operating expenditures also includes services provided without charge by other Government departments.

(b) Revenue

Revenue is recorded on a cash basis in accordance with Government of Canada accounting policies. Revenue is credited directly to non-tax revenue.

3. Changes in financial statement presentation

The allocation of expenditure between operations and administration groupings has been revised to comply with the detailed instructions, Volume II of the Public Accounts of Canada.

4. Parliamentary appropriations

	1985	1984
	$	$
Department of Agriculture		
Vote 40 (Vote 30, 1983-84)—Program expenditures and contributions	36,372,000	34,423,700
Amount lapsed	3,660,010	1,635,555
	32,711,990	32,788,145
Statutory—Salaries	260,580	252,950
Statutory—Contributions to employee benefit plans	4,565,000	4,141,000
Use of appropriations	37,537,570	37,182,095

5. Contingencies

The Commission has exercised its powers under Sections 36 and 38 of the Canada Grain Act in revoking licences which included the realization of posted securities. As a result, various claims and lawsuits have been brought against the Commission. In the opinion of management and legal counsel the losses, if any, cannot be determined at this time.

Subsequent to year end, the Commission was given notice of a statement of claim that names the Commission as one of several Government departments who allegedly were negligent in the manner of testing of toxins contained in the winter wheat crops of 1980.

Damages are claimed for storage costs and transportation costs incurred by reason of the alleged negligence.

Accordingly, no provision has been made in the accounts of the Commission.

6. Restatement of previous year figures

For comparative purposes, the 1983-84 figures have been restated to conform with the 1984-85 presentation.

Race Track Supervision Revolving Fund—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985

1. Authority and purpose

The Race Track Supervision Revolving Fund was established under Appropriation Act No. 1, 1970, which authorized the operation of the Fund in the current and subsequent fiscal years in accordance with terms and conditions prescribed by Treasury Board for the purpose of providing race track supervision in Canada.

The Fund has a continuing non-lapsing authority from Parliament to make payments out of the Consolidated Revenue Fund for working capital, capital acquisitions and temporary financing of accumulated operating deficits, the total of which is not to exceed $2,000,000 at any time.

Charges to the Fund are to include administration expenses of race track supervision and costs of research relating to the use of drugs on horses and race surveillance techniques including the publication, distribution and sale of the results of such research. All revenues from activities approved by Treasury Board are to be credited to the Fund.

2. Significant accounting policies

(a) Fixed assets

Fixed assets, acquired from parliamentary appropriations prior to April 1, 1970, are recorded in the Fund in accordance with Treasury Board Circular 1970-7 at values determined as at that date by officers of the Department. Subsequent acquisitions are recorded in the Fund at cost and are depreciated from the year of the acquisition on a straight-line basis over their estimated useful lives as follows:

Furniture and equipment	10 years
Electronic data processing equipment	5 years
Automotive	3 years
Buildings	25 years

(b) Pension plan

Employees of the Race Track Division operating the Supervision Revolving Fund are covered by the Public Service Superannuation Act and the Supplementary Retirement Benefits Act. The Government of Canada's portion of the pension cost is included in the employee fringe benefit charge assessed against the Fund. The actual payment of the pension is made from the Public Service Superannuation and the Supplementary Retirement Benefits Accounts.

(c) Vacation pay

The accrued liability on the balance sheet represents the amount of vacation pay credits outstanding at the end of the year.

(d) Employee termination benefits

Employees leaving Government service generally receive termination benefits at the rate of one week's pay for each complete year of continuous service to a maximum of twenty eight weeks' pay. However, upon resignation, benefits are generally payable only to those with ten or more years of continuous service and the entitlement is reduced to one half week's pay for each year of continuous employment to a maximum of thirteen weeks' pay.

The provision at the end of the year consists of one half week's pay at current salary rates for each complete year of service to a maximum of thirteen weeks' pay.

COMMUNICATIONS

Department

Objectives

COMMUNICATIONS AND CULTURE PROGRAM*

PROGRAM

—To develop policies, programs and co-operative arrangements which achieve Canada's social and economic objectives for communications and culture and to foster the orderly development and operation of communications and culture for Canada in both the domestic and international spheres.

GOVERNMENT TELECOMMUNICATIONS AGENCY REVOLVING FUND

—To plan, develop, co-ordinate and provide telecommunications services and facilities that satisfy the requirements of federal departments and agencies at the lowest possible cost.

Canada Council

Objective

—To support the creation and production of all forms of art and to facilitate public access to the arts and to co-ordinate UNESCO activities in Canada and Canadian participation in UNESCO activities abroad apart from political questions and assistance to developing countries.

Canadian Broadcasting Corporation

Objective

—To develop and provide national broadcasting service for all Canadians in both official languages, in television and radio, and an international service, both of which should be primarily Canadian in content and character.

Canadian Film Development Corporation

Objective

—To foster and promote the development as well as Canadian programming of a feature film industry in Canada.

Canadian Radio-television and Telecommunications Commission

Objective

—To encourage the development and implementation of the national broadcasting and telecommunications policies through the regulation and supervision of the Canadian broadcasting and telecommunications systems.

National Arts Centre Corporation

Objective

—To promote the development of the performing arts.

National Film Board

Objective

—Cultural interpretation and presentation of Canada, as well as service and support to departments and agencies of the Government, through the medium of film.

National Library

Objective

—To facilitate the use of the library resources of the country by the people and the Government of Canada.

National Museums of Canada

Objective

—To safeguard and demonstrate, and to assist others to safeguard and demonstrate, the products of nature and culture, with particular but not exclusive reference to Canada, so as to increase interest in and to disseminate knowledge of Canada's natural and cultural legacy for the enrichment of present and future generations.

Public Archives

Objective

—The systematic preservation of Government and private records of Canadian national significance in order to facilitate not only the effective and efficient operation of the Government of Canada and historical research in all aspects of the Canadian experience, but also the protection of rights and the enhancement of a sense of national identity based on archives as the collective memory of the nation.

Government Telecommunications Agency Revolving Fund

MANAGEMENT REPORT

The accompanying financial statements of the Government Telecommunications Agency (GTA) Revolving Fund have been prepared as required by and in accordance with the policy and procedures of the Treasury Board for revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund. The financial transactions contained in these financial statements have been subjected to a review by representatives of the Auditor General.

These financial statements were prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements is based on management's best estimate and judgment and gives due consideration to materiality. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The Assistant Deputy Minister, Financial Management develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. These are supplemented by additional systems and procedures developed and implemented by the Fund's Finance and Administration Division. The Fund maintains systems of financial management and internal control at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. The Fund is managed on a cost revenue dependent basis and all costs are allocated, on an equitable basis, to the users of telecommunications services and recovered on a timely basis. Financial management and internal control systems are augmented by the activities of internal audit and by frequent contacts with departmental financial and internal audit officers and with the staff of the Office of the Auditor General. An internal audit was carried out by the Audit Services Bureau of the Department of Supply and Services during the period January-March 1984. The auditors concluded "... that the acquisition, utilization and protection of human, financial and physical resources under the responsibility of the Finance and Administration Division are achieved in an effective and economic manner".

The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified accounting staff, by organizational arrangements that provide appropriate divisions of responsibility, and by a high standard of internal communications aimed at ensuring that regulations, policies, procedures and managerial authorities are understood throughout the Agency.

The accounting systems and financial statements of the Fund have evolved over the years to meet changing conditions. A feasibility study on the Fund's financial systems was completed in May 1985 resulting in the recommended development of an integrated financial information system for introduction by April 1, 1986. The new system is required to handle the increased volume and complexity of financial transactions within the Fund and the need for accurate and timely allocation and recovery of costs, budgetary control, and improved financial reporting.

Government Telecommunications Agency Revolving Fund—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985

1. Purpose and authority

The Government Telecommunications Agency Revolving Fund was originally established in 1963 to plan and provide telecommunications facilities and services at the request of federal departments and agencies. Section 23 of the Adjustment of Accounts Act authorized the Minister to make payments out of the Consolidated Revenue Fund for working capital, capital equipment and temporary financing of operating requirements, the total of which was not to exceed $8,000,000 at any time. This authority was increased to $12,000,000 by Appropriation Act No. 4, 1981-82, to $15,000,000 by Appropriation Act No. 4, 1983-84 and to $19,000,000 by Appropriation Act No. 4, 1984-85. In accordance with Vote 2c, Appropriation Act No. 4, 1982-83, an amount of $1,485,822 of the accumulated deficit has been written off to the authority. An amount of $741,781 representing net assets assumed by the Fund and assets contributed to the Fund was charged against this authority when the Fund became budgetary.

2. Significant accounting policies and practices

(a) Fixed assets

Fixed assets are carried at cost. In most cases, depreciation is calculated using the diminishing balance method at the following rates: automobiles (30%), office equipment (20%), furniture and fixtures (10%). Telecommunications equipment constitutes a special category of assets, and is depreciated over the first five to seven years of utilization of the equipment.

(b) Deferred charges—Service contracts

Advance payments to suppliers for future telecommunications services are recorded as deferred charges and are amortized on a straight-line basis over a five-year period. In 1984-85, the amortization amounted to $180,000.

(c) Deferred revenue—Service contracts

Advance payments from client departments and agencies for future telecommunications services are recorded as deferred revenue and are included in revenue on an equal basis over a five-year period. In 1984-85, $238,684 was recognized as revenue.

(d) Employee termination benefits

Termination benefits accrue to employees over their years of service with the Government of Canada as provided for under collective agreements. The cost of these benefits is recorded in the accounts as the benefits accrue to the employees.

National Film Board

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the National Film Board Revolving Fund as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund. In order to assure maximum objectivity and freedom from bias, the financial data contained in these financial statements has been presented to the Board of Trustees.

These financial statements were prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements is based on management's best estimates and judgments and gives due consideration to materiality. To fulfill this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The Director of Administration and Financial Services develops and disseminates financial management and accounting policies and issues specific directives which maintain standards of accounting and financial management. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs where contacts are maintained between our internal auditor and staff of the Office of the Auditor General. The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

These financial statements have been examined by the Auditor General, his role being to express an informed judgement as to whether the financial statements present fairly the financial position of the Board as at March 31, 1985 and the results of its operations and the changes in its financial position for the year ended in conformity with generally accepted accounting principles.

AUDITOR'S REPORT

THE HONOURABLE MARCEL MASSE, P.C., M.P.
MINISTER OF COMMUNICATIONS

I have examined the balance sheet of the National Film Board as at March 31, 1985 and the statements of operations, accumulated net charge against the Revolving Fund's authority, accumulated deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1985 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1985

1. Authority and purposes

The National Film Board was established in 1950 under the National Film Act to initiate and promote the production and distribution of films in the national interest and in particular to:

produce and distribute, and to promote the production and distribution of, films designed to interpret Canada to Canadians and to other nations;

represent the Government of Canada in its relations with persons engaged in commercial motion picture film activity in connection with motion picture films for the Government or any department thereof;

engage in research in film activity and to make available the results thereof to persons engaged in the production of films;

advise the Governor in Council in connection with film activities; and

discharge such other duties relating to film activity as the Governor in Council may direct it to undertake.

The Board, through the operation of a revolving fund having a permanent continuing authority from Parliament, can make payments out of the Consolidated Revenue Fund for working capital and the interim financing of operating costs and the acquisition of fixed assets and can record the increase in the net book value of fixed assets against this authority, which provides that the aggregate of admissible working capital and net book value of fixed assets is not to exceed $20 million at any one time. A parliamentary authority, to replenish the revolving fund for net acquisitions of fixed assets and the admissible cost of operations, is voted annually and recorded in the year to which it applies. Any unused balance lapses.

2. Significant accounting policies

Production of films and other visual material

All production costs are charged to operations in the year in which they are incurred and shown in the statement of operations as follows:

Board's program

All costs incurred for unsponsored productions and the excess of costs over the sponsor's contribution for partially-sponsored productions.

Government of Canada and outside parties

All costs incurred for fully-sponsored productions and the sponsored costs of partially-sponsored productions.

Revenues from production of films and other visual material are accounted for at an amount equal to the sponsored production costs during the year in which these costs are incurred. Any profit is recognized in the year the production is completed.

Film prints

The cost of prints made for sale purposes is recorded as inventories. The cost of other prints is expensed on a current basis.

Inventories

Productions in progress are carried at the cumulative amount of costs incurred for each production exceeding advances invoiced, up to the amount of the sponsored unbilled balance. On the other hand, any cumulative excess of advances invoiced over costs incurred is recorded as advances on productions.

Materials and supplies are carried at the average cost.

Film prints and other visual material held for sale are carried at the lower of the average direct cost of production and net realizable value.

Fixed assets

Equipment, office equipment and furniture, motor vehicles and garage equipment are carried at cost. Depreciation is calculated on the straight-line method over the estimated useful lives of the assets, generally 5 to 10 years. No depreciation is provided during the year of acquisition.

Leaseholds improvements are charged to operations as incurred.

The Board enters into agreements to acquire the exclusive use of certain fixed assets through leasing arrangements. Rentals are charged to operations in the year to which they apply.

Employee termination benefits

On termination of employment, employees of the Board are entitled to certain benefits provided for under their collective agreements and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

Pension plan

All employees participate in the superannuation plan administered by the Government of Canada. The employees and the Board contribute equally to the cost of the plan. This contribution represents the total liability of the Board. Contributions in respect of current service and admissible pest service are expensed during the year in which payments are made. The terms of payment for past service are set by the applicable purchase conditions in effect, generally over the number of years of service remaining prior to retirement.

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the National Museums of Canada in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Corporation. In order to assure maximum objectivity and freedom from bias, the financial data contained in this financial statement was derived from the financial statements as of March 31, 1985 as published in the annual report of the Corporation and that were audited by the Auditor General of Canada.

This statement of operations was prepared in accordance with the accounting policies set out in Note 2. Previous year figures have been reclassified to conform to the current year's presentation. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Corporation maintains a set of accounts which provides a centralized record of the Corporation's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in the statement of operations, unless indicated otherwise.

The Corporation's directorate of financial services develops and disseminates financial management and accounting policies and issues directives which maintain standards of accounting and financial management. The Corporation maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Corporation's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs where frequent contacts are maintained between staffs of the Corporation and of the Office of the Auditor General. The Corporation also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1985

1. Authority and objective

The National Museums of Canada was established by the National Museums Act in 1968 and is a departmental corporation named in Schedule B to the Financial Administration Act.

The Corporation's objective is to demonstrate and to assist others to safeguard and demonstrate, the products of nature and culture, with particular but not exclusive reference to Canada, so as to increase interest in and to disseminate knowledge of Canada's natural and cultural legacy for the enrichment of present and future generations.

The Corporation's operations comprise the National Gallery of Canada, the National Museum of Man, the National Museum of Natural Sciences, the National Museum of Science and Technology, National Programmes, Corporate Management and Corporate Services.

Operations and grants and contributions are funded by budgetary lapsing authorities and employee benefits are authorized by statutory authorities.

2. Accounting policies

(a) Expenditure

Expenditure is accounted for on the accrual basis of accounting, except for employee termination benefits, vacation pay, and trust account transactions which are accounted for on the cash basis of accounting.

(b) Revenue

Revenue is accounted for on the cash basis of accounting in accordance with Government of Canada accounting policies.

(c) Capital purchases

Capital acquisitions are charged to operating expenditure in the year of purchase.

(d) Services provided without charge

Estimated amounts for services provided without charge by Government departments are included in the operating expenditure.

(e) Refunds of previous year's expenditure

Refunds of previous year's expenditure are recorded as revenue when received and not deducted from expenditure.

(f) Pension plan

The employees of the Corporation participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Corporation contribute equally to the cost of the plan. Contributions in respect of current service are expensed during the year in which services are rendered. With respect to past service, contributions are expensed when paid.

(g) Publishing and boutiques operations

Operating expenditure of publishing and boutiques do not include costs relating to personnel, travel, building maintenance, rent and utilities. These costs are included as general operating expenses.

3. Change in accounting policies

In 1984-85, the financial reporting for the Corporation was changed from an accrual basis to the Government's modified cash basis of accounting. This was done in order to make it consistent with other reporting provided in the Public Accounts for the National Museums of Canada and to meet the reporting requirements of the Receiver General for Canada. As a result of this change:

(a) The net cost of operations for 1984-85 is increased by $645,000.

(b) The equity of the Corporation, as reflected in the financial statements for 1983-84, has been adjusted to reflect the write down of the appropriate assets and liabilities as follows:

	(in thousands of dollars)

AUDITOR'S REPORT

TO THE CHAIRMAN OF THE BOARD OF TRUSTEES
OF THE NATIONAL MUSEUMS OF CANADA

I have examined the balance sheet of National Museums of Canada as at March 31, 1985 and the statements of operations, equity and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1985 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied, after giving retroactive effect to the change in the method of accounting for employee termination benefits as explained in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985

1. Authority, objective and operations

The National Museums of Canada was established by the National Museums Act in 1968 and is a departmental corporation named in Schedule B to the Financial Administration Act.

The Corporation's objective is to demonstrate, and to assist others to safeguard and demonstrate, the products of nature and culture, with particular but not exclusive reference to Canada, so as to increase interest in and to disseminate knowledge of Canada's natural and cultural legacy for the enrichment of present and future generations.

The Corporation's operations comprise the National Gallery of Canada, the National Museum of Man, the National Museum of Natural Sciences, the National Museum of Science and Technology, National Programmes, Corporate Management and Corporate Services.

2. Accounting policies

(a) Basis of accounting

Expenses and revenue are accounted for using the accrual basis of accounting, except for refunds of previous years' expenditure and the trust account which are recorded on a cash basis. Parliamentary appropriations are recorded in the year to which they apply.

(b) Inventories

Inventories are valued at the lower of cost and net realizable value, except for the cost of books and pamphlets which is written down on a straight-line basis over a five-year period to take into account obsolescence.

(c) Property and equipment

Property and equipment are carried at cost and depreciated using the straight-line method over their estimated useful lives as follows:

Equipment	5 to 12 years
Building renovations	25 years
Office furniture	5 to 10 years

(d) Collections

Collections constitute the major portion of the Corporation's assets but are shown at a nominal value of $1,000 on the balance sheet because of the practical difficulties in reflecting them at a meaningful value. Objects purchased for the collections of the Corporation are recorded as expenses in the year of acquisition. Objects donated to the Corporation are not recorded in the books of accounts.

(e) Services provided without charge

Amounts for services provided without charge by Government departments are included in operating expenses.

(f) Pension plan

The employees of the Corporation participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Corporation contribute equally to the cost of the Plan. This contribution represents the total liability of the Corporation. Contributions in respect of current service are expensed during the year in which services are rendered. With respect to admissible past service, contributions are expensed when paid; the terms of payment are set by the applicable purchase conditions.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985—*Continued*

(g) Publishing and boutiques operations

Operating expenses of publishing and boutiques do not include costs relating to personnel, travel, building maintenance, rent and utilities. These costs are included as general operating expenses.

(h) Employee termination benefits

On termination of employment, employees of the Corporation are entitled to certain benefits provided for under their collective agreement and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

3. Change in accounting policy

During the year, the Corporation applied retroactively the following change to its accounting policy relating to the method of accounting for employee termination benefits. Formerly charged to expenditure in the year in which they were paid, they are now recorded in the accounts as the benefits accrue to the employees.

As a result of this change, the excess of financing over cost of operations for 1985 and 1984 have been decreased by $362,000 and $614,000 respectively.

EMPLOYMENT AND IMMIGRATION

Department

Objective

DEPARTMENTAL ADMINISTRATION PROGRAM

—To ensure that federal labour market, income related and immigration policies and programs are developed and implemented in an effective manner consistent with national economic and social goals and to provide information to the public concerning these policies and programs.

Canada Employment and Immigration Commission

Objectives

ADMINISTRATION PROGRAM

—To provide efficient and timely support services to the Commission and Department.

EMPLOYMENT AND INSURANCE PROGRAM

—To further the attainment of national economic and social goals by realizing the full productive potential of Canada's human resources, while supporting the initiatives of individuals to pursue their economic needs, and, more generally, their self-fulfillment through work.

IMMIGRATION PROGRAM

—To administer the admission of immigrants and visitors in accordance with the economic, social and cultural interests of Canada.

ANNUITIES PROGRAM

—To administer contracts entered into under the Government Annuities Act.

Immigration Appeal Board

Objective

—To make available to persons who have been ordered removed from Canada or to persons in Canada whose relatives have been refused admission to Canada, an independent court to which they may appeal such decisions, not only on legal grounds, but also on discretionary grounds; and to permit the redetermination of refugee claims.

Canada Employment and Immigration Commission

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the Canada Employment and Immigration Commission (CEIC) in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of CEIC. In order to assure maximum objectivity and freedom from bias, the financial data contained in this financial statement has been examined by the senior management of CEIC.

This statement of operations was prepared in accordance with the accounting policies set out in Note 2. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the CEIC maintains a set of accounts which provides a centralized record of the CEIC financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in the statement of operations, unless indicated otherwise.

Financial Services develops and disseminates financial management and accounting policies, and issues directives which maintain standards of accounting and financial management. The CEIC maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard CEIC assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs where frequent contacts are maintained between staffs of the CEIC and of the Office of the Auditor General. CEIC also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

MARCH 31, 1985

1. Authority and objectives

The Canada Employment and Immigration Commission was established under Section 7 of the Employment and Immigration Reorganization Act, 1977 and is a departmental corporation named in Schedule B to the Financial Administration Act. All the Commission's operating and contributions and grants expenditures are funded by budgetary lapsing authorities whereas employee benefits, annuities agents supplementary retirement benefits, and the Government's contribution to the Unemployment Insurance Account and in respect of fishermen's benefit are authorized by statutory authorities. The Commission is divided into four program areas and their objectives are as follows:

Administration Program—To provide efficient and timely support services to the Commission and the Department.

Employment and Insurance Program—To further the attainment of national economic and social goals by realizing the full productive potential of Canada's human resources, while supporting the initiatives of individuals to pursue their economic needs, and more generally, their self-fulfillment through work.

Immigration Program—To administer the admission of immigrants and visitors in accordance with the economic, social and cultural interests of Canada.

Loans to immigrants and other classes of persons for the purposes of paying the costs of admission, transportation and reasonable living expenses are made under a non-budgetary statutory authority advanced by the Minister of Finance pursuant to the Immigration Act, Section 121. The total amount of loans outstanding shall not, at any time, exceed $60,000,000.

Annuities Program—To administer contracts entered into under the Government Annuities Act.

2. Significant accounting policies

The statement of operations was prepared using the following accounting policies:

(i) Expenditure is recorded for all goods and services received and/or performed up to March 31, in accordance with the Government's Payables at Year End accounting policy, with the exception of termination benefits and vacation pay.

(ii) Revenue is recorded on a cash basis in accordance with the Government's accounting policies.

(iii) Acquisitions of capital assets are charged to operating expenditure in the year the expenditure is incurred.

(iv) Estimated amounts for services provided without charge from other Government departments are disclosed in the statement of operations.

(v) Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure.

5. Trust funds and specified purpose accounts

The Canada Employment and Immigration Commission also has the responsibility to administer and control the following trust funds and specified purpose accounts.

(a) Unemployment Insurance Account

The Unemployment Insurance Act provides for a compulsory contributory unemployment insurance program applying to all employees, subject to minor exceptions.

The Act authorizes an account in the Accounts of Canada to be known as the Unemployment Insurance Account.

The Act provides for the following to be credited to the Account: (a) premiums, fines, penalties and interest; (b) the Government share of benefits paid; (c) refunds of overpayments of benefits, and benefit repayments; (d) amounts for services rendered to other government departments or agencies, or to the public; (e) amounts provided for any other purpose related to unemployment insurance and authorized by an appropriation administered by the Canada Employment and Immigration Commission; and (f) interest on the balance of the account at such rates as the Minister of Finance may authorize. The Act also provides that the following be charged to the Account; (a) benefits paid under the Act; (b) the costs of administering the Act; and (c) the interest on advances made by the Minister of Finance.

Interest bearing loans are made to the Unemployment Insurance Account, under Section 137(1) of the Unemployment Insurance Act, as a result of deficiencies in contributions from employers and employees. The loan balance outstanding as at March 31, 1985 bears interest at rates between 9.75% and 16.375% per annum, and is repayable between April 30, 1985 and March 31, 1987.

[2] Interest bearing loans under Section 137(1) of the Unemployment Insurance Act in the amount of $4,815 million (1984—$3,823 million) were made to the Unemployment Insurance Account leaving a net deficit balance as at March 31, 1985 of $272 million (1984—$278 million).

(b) Government Annuities Account

This account was established by the Government Annuities Act, and modified by the Government Annuities Improvement Act, which discontinued sales of annuities. The account valued on an actuarial basis each year, with the deficit or surplus charged or credited to the Consolidated Revenue Fund. The accounts of the Government Annuities Account are maintained on an accrual basis.

The purpose of the Government Annuities Act was to assist Canadians to provide for their later years, by the purchase of Government annuities. The Government Annuities Improvement Act increased the rate of return and flexibility of Government annuity contracts, and discontinued sales of annuities.

Appendix 1—*Continued*

NOTES TO THE STATEMENT OF OPERATIONS MARCH 31, 1985—*Continued*

Receipts and other credits consist of premiums received, funds reclaimed from the Consolidated Revenue Fund for previously unlocated annuitants, earned interest and items transferred from previous years' revenue to cover the actuarial deficit. Payments and other charges represent matured annuities, the commuted value of death benefits, premium refunds and withdrawals, and actuarial surpluses and unclaimed items transferred to non-tax revenue. The amounts of unclaimed annuities, related to annuitants who cannot be located, are transferred to non-tax revenue.

Atomic Energy Control Board

AUDITOR'S REPORT

TO THE ATOMIC ENERGY CONTROL BOARD
AND
THE HONOURABLE PAT CARNEY, P.C., M.P.,
MINISTER RESPONSIBLE FOR THE ATOMIC ENERGY CONTROL BOARD

I have examined the statements of expenditure and receipts, and sources of funds of the Atomic Energy Control Board for the year ended March 31, 1985. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the expenditure and receipts, and sources of funds of the Atomic Energy Control Board for the year ended March 31, 1985 in accordance with the accounting policies set out in Note 2 to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1985

1. Authority and objective

The Atomic Energy Control Board (AECB) was established in 1946 by the Atomic Energy Control Act. It is a departmental corporation named in Schedule B to the Financial Administration Act and currently reports to Parliament through the Minister of Energy, Mines and Resources.

The objective of the AECB is to control atomic energy in the interests of health and safety and national security. The AECB achieves this objective by providing through its atomic energy control program, the control of the development, application and use of, atomic energy in Canada and by participating on behalf of Canada in international measures of control.

The AECB is also responsible for the administration of the Nuclear Liability Act, including the designation of nuclear installations and the prescription of basic insurance to be carried by the operators of such nuclear installations (see Note 3).

2. Accounting policies

Operating expenditure includes the cost of work performed, goods received or services rendered prior to April 1.

Capital costs are charged to expenditure in the year of acquisition.

Grants and contributions are charged to expenditure when disbursed.

Employee termination benefits and vacation pay are charged to expenditure when disbursed.

AECB employees participate in the superannuation plan administered by the Government of Canada and contribute equally with the AECB to the cost of the plan. Contributions by the AECB are charged to expenditure when disbursed.

Expenditure includes amounts for services provided without charge by other Government departments.

Receipts are deposited to the Consolidated Revenue Fund and recorded as non-tax revenue of the Government of Canada when received, and do not reduce the appropriations voted to or expenditure of the AECB.

3. Administration of the Nuclear Liability Reinsurance Account

The Atomic Energy Control Board administers on behalf of the Government of Canada the Nuclear Liability Act. The Act requires operators of nuclear installations to carry basic insurance in an amount prescribed by the AECB and supplementary insurance such that the total of the two categories of insurance equals $75 million for each installation. As empowered by the Act, the responsible Minister on October 1, 1976 entered into a reinsurance agreement with a private insurance consortium, the Nuclear Insurance Association of Canada (NIAC), to provide supplementary insurance coverage for sixteen nuclear installations. Premiums for supplementary insurance are received by the AECB from NIAC on behalf of the operators of nuclear installations, and are credited to the Nuclear Liability Reinsurance Account. This account, which was created under Section 17 of the Act, forms part of the Consolidated Revenue Fund. Any amounts payable pursuant to a reinsurance agreement are charged to the Account. There have been no payments out of the Nuclear Liability Reinsurance Account since its creation.

The balance of the Nuclear Liability Reinsurance Account as at March 31, 1985 is $528,342 (1984—$526,682). Supplementary insurance coverage outstanding as at March 31, 1985 is $699,371,658 (1984—$699,373,318).

4. Accounts payable and accrued liabilities

The amounts of accounts payable and accrued liabilities as at March 31, 1985 are as follows:

	$
(a) Accounts payable	
Suppliers accounts	1,537,569
Contractors holdbacks	54,979
	1,592,548
Accrued salaries	212,124
	1,804,672

The costs represented by the accounts payable and accrued salaries are reflected in the statement of expenditure and receipts.

	$
(b) Other accrued liabilities	
Vacation pay	761,131
Employee termination benefits	1,099,172
	1,860,303

The costs associated with other accrued liabilities are not included in the statement of expenditure and receipts. These costs are recognized only when paid (see Note 2).

The accrued vacation pay represents the amount of vacation pay credits outstanding at the end of the year.

The accrued employee termination benefits are calculated on the basis of one half week's pay for each complete year of continuous service to a maximum of 13 weeks' pay.

5. Related party transactions

AECB administers a special program jointly with Atomic Energy of Canada Limited (AECL) for research and development in support of the safeguards program of the International Atomic Energy Agency. For the year, payments of $1,785,000 (1984—$2,200,000) were made to AECL under this program.

On the statement of expenditure and receipts, expenditures are net of $205,752 and receipts include $27,270 for services provided by the AECB's Orientation Centre to the Department of External Affairs and AECL. The total received in 1985 was $233,022 (1984—$359,179).

6. Comparative figures

The comparative figures for the year ended March 31, 1984 are based on financial information used in preparing the Public Accounts of Canada for that same year. The Auditor General of Canada, in his capacity as auditor of the accounts of Canada, has examined the financial information on which the comparative figures are based to the extent that he considered necessary in the circumstances.

7. Restatement of prior year figures

For comparative purposes, some 1983-84 figures have been restated to conform with the 1984-85 presentation.

8. Contingent liability

At March 31, 1985, the AECB was a defendant in lawsuits amounting to $14,450,000. The lawsuits are seeking damages for breach of statutory duties related to radioactively contaminated soil. Any settlement resulting from the resolution of these actions will be paid from the Consolidated Revenue Fund.

Environmental Studies Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Environmental Studies Revolving Fund (EMR) in accordance with Treasury Board policy, the reporting requirements of the Receiver General for Canada and the stated accounting policies set out in Note 2.

The Department develops and disseminates financial management and accounting policies and the Fund is maintained under a system of internal accounting controls which provide management with reasonable assurance that transactions are recorded and executed in accordance with its authorizations and that its assets are safeguarded.

The financial information presented herewith is consistent with that presented elsewhere in the Public Accounts and in departmental reports.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985

1. Authority and purpose

The Environmental Studies Revolving Fund was established under the Authority of Section 49 of the Canada Oil and Gas Act, which was proclaimed in March 1982. The terms and conditions of the Fund were approved by Treasury Board in February 1983. The purpose of the Fund is to finance environmental and social studies, which are necessary to determine whether to authorize oil and gas exploration or development activities on Canada Lands. Payments in the form of levies are made into the Fund by interest owners based on a rate fixed by the Minister; payments are made from the Fund to parties carrying out such environmental and social studies as directed by the Minister. The total amount on deposit in the Fund shall not, at any time, exceed $15,000,000.

2. Significant accounting policy

Levies and expenses

Levies are recorded at the time of billing to the interest owners. Expenses are recorded on the accrual basis of accounting; therefore, they include estimated amounts for study costs incurred, but not invoiced before year end.

3. Contractual obligations

At March 31, 1985, there existed $1,923,371 in contractual obligations for studies which will become expenses of the Fund as they are performed.

ENVIRONMENT

Department

Objectives

ADMINISTRATION PROGRAM[1]

—To provide policy direction, management and services to the Department and to provide for environmental assessment review.

ENVIRONMENTAL SERVICES PROGRAM[1]

—To promote and undertake programs to protect and enhance the quality of the environment, and programs designed to improve the management and sustained economic utilization of the forest, wildlife and inland water resources of the nation.

PARKS CANADA PROGRAM

—To acquire and develop representative areas of the country, for use by the public consistent with the preservation of such areas in their natural state; to preserve, restore and operate sites, structures and travel routes of importance to Canadian history.

National Battlefields Commission[2]

Objective

—The mandate of the Commission was originally to establish, as national park, the historical battlefields at Quebec. Nevertheless, the objective of the Commission is now to operate the National Battlefields Park at Quebec in order to meet the actual needs; it should be animated, useful and able to expand as a dynamic entity in terms of its historical, cultural, recreational and natural vocation.

Thus, the Commission intends to enhance the historical aspect of the Park; to continue the process of upkeep, development, supervision, security and to operate the overall of its territory in terms of its vocation.

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the National Battlefields Commission in accordance with the reporting requirements and standards of the Receiver General for Canada. Management is reponsible for the integrity and objectivity of the financial information in this report. The role of the commissioners is to ensure that management fulfills its duty regarding financial information and internal control.

This statement of operations was prepared according to the accounting policies set out in Note 2 on a basis consistent with that of the preceding period except as described in Note 3 to the statement. Some of the information included in the financial statement is based on management's best estimates and judgments and gives due consideration to materiality. To fulfill its reporting responsibility management maintains a system of internal control to assure that the financial information is reliable and that the assets are safeguarded. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in the statement of operations, unless indicated otherwise.

The Auditor General performed an audit on the financial statements for the 7 months ended March 31, 1985 according to generally accepted auditing standards, his role being to express an informed opinion to see if the financial statement presents fairly the results of operations of the National Battlefields Commission for this period.

The opinion of the Auditor General is attached.

AUDITOR'S REPORT

THE HONOURABLE SUZANNE BLAIS-GRENIER, P.C., M.P.
MINISTER OF THE ENVIRONMENT

I have examined the statement of operations of The National Battlefields Commission for the seven months ended March 31, 1985. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, the financial statement presents fairly the results of the operations of the Commission for the seven months ended March 31, 1985 in accordance with the accounting policies set out in Note 2 to the financial statement.

NOTES TO THE FINANCIAL STATEMENT
MARCH 31, 1985

1. Authority and objectives

The Commission was established in 1908 under an Act respecting The National Battlefields at Quebec for the purpose of acquiring, preserving and developing an historic battlefields park at Quebec.

Since September 1, 1984, the Commission is a departmental corporation named in Schedule B to the Financial Administration Act whereas previously it was named in Schedule C to the Act as a Crown corporation.

2. Significant accounting policies

The statement of operations has been prepared in accordance with the following accounting policies:

(a) Expenditures are recorded on an accrual basis, except for employee termination benefits and annual leaves which are accounted for when paid.

(b) Acquisitions of fixed assets, supplies and small tools are charged to expenditures.

(c) Expenditures include estimated amounts for services provided without charge by Government departments.

(d) Receipts are recorded on a cash basis.

(e) Contributions to the superannuation plan administered by the Government of Canada, in respect of current and admissible past services, are charged to expenditures when paid. All employees of the Commission participate in this plan. The employees and the Commission contribute equally to the cost of the plan. This contribution represents the total liability of the Commission under the plan.

3. Change in accounting policies

The change in the status of the Commission under the Financial Administration Act, described in Note 1, has led it to adopt, effective September 1, 1984, revised accounting policies similar to those used for the preparation of the Accounts of Canada which meet the reporting requirements of the Receiver General for Canada.

The amounts for the five months ended August 31, 1984 have been restated, for comparative purposes, in accordance with the revised accounting policies. This restatement has resulted in increasing the net cost of operations for that period by $624,657, as follows:

		$
Net cost of operations per financial statements as at August 31, 1984		1,243,405
Add:	prepaid grants in lieu of real estate taxes	562,786
	net additions to fixed assets	95,268
	increase in accrued interest	8,586
	increase in inventories of supplies	3,699
		1,913,744
Deduct:	loss on disposal of fixed assets	16,932
	decrease in accrued fines and penalties	14,035
	increase in the provision for employee termination benefits	7,453
	collection of an account receivable	5,854
		44,274
Net cost of operations in accordance with the revised accounting policies		1,869,470

4. Parliamentary appropriation

Parliament voted an appropriation of $2,866,000 to the Commission for its activities of the twelve months ended March 31, 1985, of which $2,757,817 has been used. The unused balance of $108,183 has lapsed.

5. Fixed assets

The cost of fixed assets under the responsibility of the Commission is as follows:

	August 31, 1984	Additions	Disposals	March 31, 1985
	$	$	$	$
Land	724,710			724,710
Roadways, driveways and landscaping	999,582			999,582
Buildings	281,563			281,563
Equipment	863,083	14,294		877,377
	2,868,938	14,294		2,883,232

6. Special land purchase fund

Funds have been received from provincial and municipal governments and other administrations for the specific purpose of acquiring certain lands. These funds, together with revenue earned from the investment of such funds, are recorded in a special fund. As at March 31, 1985, the balance of this special fund amounts to $110,740 and is on deposit with the Receiver General for Canada. Interest earned during the seven months ended March 31, 1985, amounting to $3,748, has been credited to this fund.

AUDITOR'S REPORT

THE HONOURABLE SUZANNE BLAIS-GRENIER, P.C., M.P.
MINISTER OF THE ENVIRONMENT

I have examined the balance sheet of The National Battlefields Commission as at August 31, 1984 and the statements of operations, equity of Canada and changes in financial position for the five months then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Commission as at August 31, 1984 and the results of its operations and the changes in its financial position for the five months then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Commission, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

NOTES TO FINANCIAL STATEMENTS AUGUST 31, 1984

1. Authority and objectives

The Commission was established in 1908 under an Act respecting The National Battlefields at Quebec for the purpose of acquiring, preserving and developing an historic battlefields park at Quebec.

An Act to amend the Financial Administration Act in relation to Crown corporations and to amend other Acts in consequence thereof (Chapter 31 of the Statutes of Canada, 1984), which came into force on September 1, 1984 by proclamation, names the Commission in Schedule B to the Financial Administration Act, as a departmental corporation. Previously, the Commission was named in Schedule C to the said Act, as a Crown corporation that is an agent of Her Majesty in right of Canada.

In consequence of what is described in the preceding paragraph, the Commission has closed its accounts as at August 31, 1984 and has prepared these financial statements. Effective September 1, 1984, it will keep its accounts in accordance with the accounting policies of the Government of Canada.

2. Significant accounting policies

(a) Fixed assets, supplies and small tools

Fixed assets are financed by parliamentary appropriations and are accounted for at cost. No depreciation is recorded in the accounts.

Supplies and small tools are valued at the lower of average cost and replacement value.

(b) Special land purchase fund

Funds have been received from provincial and municipal governments and other administrations for the specific purpose of acquiring certain lands. These funds, together with revenue earned from the investment of such funds, are recorded in a special fund.

(c) Parliamentary appropriation

The parliamentary appropriation is credited to the Equity of Canada in the year to which it applies.

(d) Grants in lieu of real estate taxes

Grants in lieu of real estate taxes are recorded in the year to which the related parliamentary appropriation applies.

(e) Employee termination benefits

On termination of employment, employees are entitled to certain benefits provided for under their collective agreement and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

(f) Pension plan

All employees of the Commission participate in the superannuation plan administered by the Government of Canada. The employees and the Commission contribute equally to the cost of the plan. This contribution represents the total liability of the Commission. Contributions in respect of current service and admissible past service are expensed during the year in which payments are made. The terms of payment for past service contributions are set by the applicable purchase conditions in effect, generally over the number of years of service remaining prior to retirement.

Passport Office Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Passport Office Revolving Fund as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these statements rests with the management of the Fund.

These financial statements have been prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the preceding year.

The Fund maintains a system of internal accounting controls which provides management with reasonable assurance that transactions are recorded and executed in accordance with its authorizations and that its assets are safeguarded.

Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985

1. Purpose and authority

The Passport Office Revolving Fund was established in 1969 to provide for the issue of appropriate travel documents to Canadian citizens and to certain permanent residents of Canada who are unable to obtain valid passports from their country of origin.

The Fund has a continuing non-lapsing authority from Parliament to make payments out of the Consolidated Revenue Fund for working capital, capital acquisitions and temporary financing of accumulated operating deficits, the total of which is not to exceed $4,000,000 at any time. An amount of $745,893 representing net assets assumed by the Fund and assets contributed to the Fund was charged to this authority when the Fund became budgetary in 1981.

2. Significant accounting policies

(a) Inventories

The inventory of materials and supplies is carried at cost and the inventory of passports-in-process is valued at average cost for the year.

(b) Fixed assets

Leasehold improvements are amortized on the straight-line basis over the term of the appropriate lease. Other fixed assets are depreciated from the year of acquisition on the straight-line basis over their estimated useful lives as follows:

Furniture	16 years
Equipment	
Electronic data processing	5 years
Other	10 years

(c) Employee termination benefits

Termination benefits accrue to employees over their years of service with the Government of Canada, as provided for under collective agreements. The cost of these benefits is recorded in the accounts as the benefits accrue to the employees.

3. Inventories

[1] Under Part 1 of the Excise Tax Act R.S. c. E-13, 1970, a tax of 10 percent is levied on net insurance premiums paid by any resident of Canada for insurance placed with insurers not authorized under the laws of Canada or of any province thereof. A 10 percent premium tax is also levied on insurance placed with authorized insurers through brokers or agents outside Canada.

[2] Under the provisions of the Department of Insurance Act, R.S. c. I-17, 1970, the expenditure incurred by Canada during each fiscal year in connection with the administration of the Canadian and British Insurance Companies Act, the Co-operative Credit Associations Act, the Foreign Insurance Companies Act, the Loan Companies Act, and the Trust Companies Act, is assessed against the companies transacting business thereunder, in the proportion which the net receipts (as defined in the Act), or income of each in Canada bears to the total amount of such receipts or income received in Canada by all such companies during the preceding calendar year. Under the provisions of the Investment Companies Act, S.C. c. 33, 1970-71, the expenditure incurred each fiscal year in connection with the administration of the Act is assessed against investment companies in the proportion which the mean assets (as defined in the Act) of each bears to the total mean assets of all such companies.

L23b	This account was established to record loans made to the Canadian Saltfish Corporation which was established under the Saltfish Act, 1969-70, and was extended by Vote L23b, Appropriation Act No. 1, 1976 to regulate interprovincial and export trade in saltfish in order to improve the earnings of primary producers of cured cod fish. Section 17 of the Act provides that the Governor in Council may authorize the Minister of Finance on such terms and conditions as the Governor in Council may prescribe: (a) to guarantee repayment of loans, and interest thereon, made by any bank to the Corporation; and (b) to make loans to the Corporation. PC 1973-1915 July 1973, authorizes the Minister of Finance to make loans to the Canadian Saltfish Corporation to finance the acquisition of capital assets other than working capital. The maximum amount that may be borrowed from all lenders is $50,000,000 as amended by Bill C-6, 1984. (Net)	
	FRESHWATER FISH MARKETING CORPORATION	
	Non-budgetary	
L30b	This Corporation was incorporated under the Freshwater Fish Marketing Act, 1968-69, to regulate interprovincial and export trade in freshwater fish and to establish the Freshwater Fish Marketing Corporation. For the purpose of enabling the Corporation to carry on its operations under the Act, Section 17 provides that the Governor in Council may authorize the Minister of Finance on such terms and conditions as may be agreed upon: (a) to guarantee repayment of loans, and interest thereon, made by any bank to the Corporation; and (b) to make loans to the Corporation. Vote L30b, Appropriation Act No. 1, 1974. The aggregate outstanding at any time of the amounts which may be borrowed from any bank upon the credit of the Freshwater Fish Marketing Corporation and the amounts loaned by the Minister of Finance under the authority of Section 17 of the Freshwater Fish Marketing Act shall not exceed $30,000,000 as amended by Bill C-5, 1984. Fisheries Prices Support Board

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the Fisheries Prices Support Board in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Board.

This statement of operations was prepared in accordance with the accounting policies set out in Note 1. Previous year's figures have been reclassified to conform to the current year's presentation. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Board maintains a set of accounts which provides a centralized record of the Board's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in the statement of operations, unless indicated otherwise.

The Board's financial service group develops and disseminates financial management and accounting policies, and issues directives which maintain standards of accounting and financial management. The Board maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Board's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs where frequent contacts are maintained between staffs of the Board and of the Office of the Auditor General. The Board also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985

1. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditures are recorded for all goods and services received and/or performed up to March 31, in accordance with the Government's Payables at Year End (PAYE) accounting policy, with the exception of termination benefits and vacation pay.

(b) Revenue is recorded on a cash basis in accordance with the Government's accounting policies.

(c) Administrative services provided without charge by the Department of Fisheries and Oceans are included in the statement of operations.

2. Change in accounting policies

In 1984-85, the reporting for the Board in Public Accounts was changed from the accrual basis to the Government's modified cash basis of accounting, in order to make it consistent with other reporting in the Public Accounts and to meet the reporting requirements of the Receiver General for Canada. As a result of this change, the net cost of operations in 1984-85 is increased by $112,811. The comparative figures for 1983-84 have also been restated, increasing the net cost of operations in that year by $1,787,023.

AUDITOR'S REPORT

TO THE FISHERIES PRICES SUPPORT BOARD
AND
THE HONOURABLE JOHN FRASER, P.C., M.P.
MINISTER OF FISHERIES AND OCEANS

I have examined the balance sheet of the Fisheries Prices Support Board as at March 31, 1985 and the statements of operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1985 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985

*1. Authority, objectives and operations

The Board was established in 1944 under the Fisheries Prices Support Act and is a departmental Crown corporation named in Schedule B to the Financial Administration Act. As authorized by the Governor in Council, the Board is empowered to purchase fishery products for its own account and to make deficiency payments to producers of such products. The Act requires that the Board, in establishing purchase prices and in determining the rate at which deficiency payments are to be made, endeavour to secure a fair relationship between the returns from fisheries and those from other occupations. The Board operates through offices of the Department of Fisheries and Oceans, with departmental staff performing certain functions of the Board.

2. Accounting policies

The Board follows the accrual basis of accounting.

Administrative services provided without charge by the Department of Fisheries and Oceans are included in the cost of operations.

Inventories are recorded at the lower of cost and net realizable value.

*3. Canned mackerel program

The Board acted as the procurement agent for fishery products required for international food aid and development programs administered by the Canadian International Development Agency (CIDA) and the World Food Program (WFP).

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985—*Concluded*

*4. Cod block program

As of March 31, 1984, the Board had inventory of 716,483 kg of frozen cod fillet blocks. The entire inventory was sold as of March 31, 1985.

During the current year, the Board received the authority to support the price of frozen cod fillet blocks by purchasing inventory from fish processors. The purchase agreements allowed the processors to repurchase the cod at the original selling price up to six months after sale to the Board. The Board purchased 194,854 kg of frozen cod fillet blocks durint the year, all of which were sold back to the original suppliers by March 31, 1985.

*5. Herring products program

During the current year, the Board received the authority to support the price of herring products by purchasing inventory from fish processors. The purchase agreements allowed the processors to repurchase the herring at the original selling price up to six months after sale to the Board. As of March 31, 1985, the Board had purchased inventory of 2,873,321 kg of herring products of which 1,173,756 kg were repurchased by year end.

As of March 31, 1985, the Board had inventory of 1,699,565 kg of herring products.

The inventory on hand as of March 31, 1985 was recorded at the lower of cost and net realizable value resulting in a write down of $788,750 which is included in cost of goods sold.

*6. Deficiency payments

During the year, contributions in the form of deficiency payments were made by the Board to support the price of frozen cod products (1984—Seal pelts). These payments were made out of Fisheries and Oceans Vote 10.

Environmental Studies Revolving Fund

MANAGEMENT REPORT

We have prepared the financial statements of the Environmental Studies Revolving Fund in accordance with Treasury Board policy and the reporting requirements of the Receiver General for Canada. The primary responsibility for integrity and objectivity of these statements rests with departmental accounting operations.

These financial statements were prepared with objective data maintained by the Department. The significant accounting policy used in the preparation of the financial statements is included in the notes to the financial statements. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The Fund began operation during the fiscal year 1983-84. The management of the Fund is effected through the maintenance of accounts which provide a centralized record of the Fund's transactions. Transactions are executed in accordance with the Financial Administration Act, regulations and directives from Treasury Board and the Receiver General for Canada in order to provide the required visibility, accountability and control of the operations of the Fund.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985

1. Authority and purpose

The Environmental Studies Revolving Fund was established under the authority of Section 49 of the Canada Oil and Gas Act, which was proclaimed in March 1982. The terms and conditions of the Fund were outlined and approved by Treasury Board in February 1983. The purpose of the Fund is to finance environmental and social studies, which are necessary to determine whether to authorize oil and gas exploration or development activities on Canada lands. Levies are collected from the interest owners within prescribed regions, based on a rate fixed by the Minister, and are deposited into the Fund. Payments are made from the Fund to parties carrying out such environmental and social studies within these regions, as directed by the Minister. The total amount of deposit in the Fund cannot, at any time, exceed $15 million.

2. Significant accounting policy

Levies and expenses

As levies are billed to the interest owners, they are recorded on an accrual basis as shown on the statement of operations. Expenses are recorded on the accrual basis of accounting and include estimated amounts for such portion of environmental and social studies expenses incurred before the year end but not requested for payment.

3. Commitments

At March 31, 1985, the outstanding balance against the accepted study proposals was $1,112,122 and is composed of the following:

	1985	1984
	$	$
Studies not started	517,496	155,978

JUSTICE

Department

Objective

ADMINISTRATION OF JUSTICE PROGRAM

—To provide legal services to the Government of Canada and to Government departments and agencies; to superintend the administration of justice in Canada in all matters not within provincial jurisdiction; and to propose policy initiatives and programs in connection therewith.

Canadian Human Rights Commission

Objective

—To foster the principle that every individual should have equal opportunity to participate in all spheres of Canadian life consistent with his or her duties and obligations as a member of society.

Commissioner for Federal Judicial Affairs

Objective

—To provide central administrative services for the Canadian Judicial Council and federally appointed judges of the superior, county and district courts of the provinces and territories.

Federal Court of Canada

Objective

—To provide a court of law, equity and admiralty for the better administration of the laws of Canada.

Law Reform Commission of Canada

Objective

—To study and keep under review on a continuing and systematic basis the statutes and other laws comprising the laws of Canada with a view to making recommendations for their improvement, modernization and reform.

Offices of the Information and Privacy Commissioners of Canada

Objective

—Information Commissioner: To ensure that federal Government institutions comply with the Access to Information Act; to foster open and fair information practices by Government institutions and to respond to requests from the public for information about the Commissioner's mandate and the rights of individuals under the Act.

Privacy Commissioner: To ensure that federal Government institutions comply with the Privacy Act; to review the performance of Government institutions in the collection, use, retention and disposal of personal information to ensure compliance with the Privacy Act; to foster open and fair information practices by Government institutions; and to respond to requests from the public for information about the Commissioner's mandate and the rights of individuals under the Act.

Supreme Court of Canada

Objective

—To provide a general Court of Appeal for Canada.

Tax Court of Canada

Objective

—To provide an easily accessible and independent court for the informal and expeditious disposition of disputes between taxpayers and the Minister of National Revenue.

Note: The Canadian Unity Information Office Program was transferred to the Department of Supply and Services (PC 1984-3201 dated September 17, 1984).

LABOUR

Department

Objective

—To promote and sustain: stable industrial relations; a fair return for efforts in the workplace; and a working environment conducive to physical and social well-being. To protect the rights and interests of the parties involved in the world of work. To promote equitable access to employment opportunities. To foster a climate for improved consultation and communication among Government, labour and management.

Canada Labour Relations Board

Objective

—To contribute to and promote effective industrial relations in any work, undertaking or business that falls within the authority of the Parliament of Canada.

Canada Mortgage and Housing Corporation*

Objective

—To promote the construction of new houses, the repair and modernization of existing houses, and the improvement of housing and living conditions.

Canadian Centre for Occupational Health and Safety

Objective

—To promote the fundamental right of Canadians to a healthy and safe working environment and to enhance the physical and mental health of workers.

Canadian Centre for Occupational Health and Safety

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the Canadian Centre for Occupational Health and Safety Corporation in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Centre.

This statement of operations was prepared in accordance with the accounting policies of the Receiver General for Canada. Previous year's figures have been reclassified to conform to the current year's presentation. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Corporation maintains a set of accounts which provides a centralized record of the Corporation's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in the statement of operations, unless indicated otherwise.

The Corporation's directorate of financial services develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. The Centre maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Corporation's assets. The Corporation also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provided appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

We are also attaching a copy of the audited financial statements for the seven months ended March 31, 1985. These statements were prepared in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

In order to provide continuity, we have prepared a reconciliation as prescribed in the instructions by the Receiver General of Canada, under Section 6(c) of the Chapter 3 of the Public Accounts Instructions Manual.

NOTES TO THE STATEMENT OF OPERATIONS MARCH 31, 1985

1. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

All expenditure is recorded on the accrual basis, in accordance with the Government's Payables at Year End (PAYE) accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis.

(b) Revenue recognition

Revenue is recorded on the cash receipts basis in accordance with the Governement's accounting policies.

(c) Capital purchases

Acquisitions of capital assets are charged to operating expenditure in the year of purchase.

(d) Estimates of amounts for services provided without charge from Government departments are included in expenditures.

2. Changes in accounting policies

As a result of the legislation (Bill C-24) listing the Centre as a Schedule B Corporation, the reporting was changed from the accrual basis to the Government's modified cash basis of accounting. This was done in order to make it consistent with other reporting in the Public Accounts and to meet the reporting requirements of the Receiver General for Canada. As a result of this change, the net cost of operations is increased by $1,508,333. The comparative figures for 1984 have also been restated, the net cost of operations for that period decreased by $138,372.

3. Changes in financial statement presentation

The allocation of expenditures between operations and administration expenses has been made in accordance with the reporting requirements of the Receiver General for Canada.

AUDITOR'S REPORT

TO THE COUNCIL OF THE CANADIAN CENTRE FOR
OCCUPATIONAL HEALTH AND SAFETY
AND
THE HONOURABLE WILLIAM MCKNIGHT, P.C., M.P.
MINISTER OF LABOUR

I have examined the balance sheet of the Canadian Centre for Occupational Health and Safety as at March 31, 1985 and the statements of operations and equity, and changes in financial position for the seven months then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Centre as at March 31, 1985 and the results of its operations and the changes in its financial position for the seven months then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1985

*1. Authority and objectives

The Centre was established on October 1, 1978 under the Canadian Centre for Occupational Health and Safety Act. The objectives of the Centre are to promote the right of Canadians to a healthy and safe working environment and to enhance the physical and mental health of workers.

An Act to amend the Financial Administration Act in relation to Crown corporations and to amend other Acts in consequence thereof (Chapter 31 of the Statutes of Canada, 1984), which came into force on September 1, 1984 by proclamation, names the Centre in Schedule B to the Financial Administration Act, as a departmental corporation. Previously, the Centre was unscheduled to the said Act. The Centre's operating expenditures are funded by a budgetary lapsing authority.

2. Significant accounting policies

Parliamentary grant

Up until September 1, 1984, the Centre operated on a calendar year basis and received an operating grant from Parliament on an April 1 to March 31 basis to coincide with the fiscal year of the Government. Accordingly, seven-twelfths of the grant received in respect of the current fiscal year of the Government was deferred as at August 31, 1984. The Centre's operating expenditures are now funded by a budgetary lapsing authority.

Fixed assets

Fixed assets are recorded at cost. Office furniture and all equipment are depreciated over their estimated useful lives of five years using the straight-line method. Leasehold improvements are amortized over the term of the lease.

Employee termination benefits and vacation pay

Employee termination benefits and earned vacation pay not taken at the end of the period are accounted for on the accrual basis.

Deferred to following period		(3,526,250)	
Use of funds	4,497,591	3,719,500	

At September 1, 1984, the funds on hand were transferable to the Consolidated Revenue Fund. The transfer, however, was not completed until December 1984. Included in this amount was an excess of grants over expenditures of approximately $1 million related to periods prior to August 31, 1984. The excess was partially utilized in financing expenditures which exceeded appropriation for the seven months to March 31, 1985 by approximately $450,000.

5. Lease obligations

Effective September 1, 1984, the Department of Public Works (DPW) was assigned responsibility for the lease payments, however, the Centre continued to make the payments. Related services provided by DPW without charge amounted to $71,568.

The future minimum lease payments under an operating lease, which expires in 1986, are as follows:

	$
1985 (nine months)	94,875
1986 (four months)	42,167

6. Comparative figures

The comparative figures for the preceding period have been reclassified to conform with the current period presentation.

AUDITOR'S REPORT

TO THE COUNCIL OF THE CANADIAN CENTRE FOR
OCCUPATIONAL HEALTH AND SAFETY
AND
THE HONOURABLE WILLIAM McKNIGHT, P.C., M.P.
MINISTER OF LABOUR

I have examined the balance sheet of the Canadian Centre for Occupational Health and Safety as at August 31, 1984 and the statements of operations and equity, and changes in financial position for the eight months then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Centre as at August 31, 1984 and the results of its operations and the changes in its financial position for the eight months then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS AUGUST 31, 1984

1. Authority and objectives

The Centre was established on October 1, 1978 under the Canadian Centre for Occupational Health and Safety Act. The objectives of the Centre are to promote the right of Canadians to a healthy and safe working environment and to enhance the physical and mental health of workers.

An Act to amend the Financial Administration Act in relation to Crown corporations and to amend other Acts in consequence thereof (Chapter 31 of the Statutes of Canada, 1984), which came into force on September 1, 1984 by proclamation, names the Centre in Schedule B to the Financial Administration Act, as a departmental corporation. Previously, the Centre was unscheduled to the said Act.

As a result of the change described in the preceding paragraph, the Centre has closed its accounts as at August 31, 1984 and has prepared these financial statements. Effective September 1, 1984, it will change its year end to March 31 and keep its accounts in accordance with the accounting policies of the Government of Canada.

2. Significant accounting policies

Parliamentary grant

The Centre operates on a calendar year and receives an operating grant from Parliament on an April 1 to March 31 basis to coincide with the fiscal year of the Government. Accordingly, seven-twelfths (1983—one quarter) of the grant received in respect of the current fiscal year of the Government is deferred as at August 31, 1984.

Fixed assets

Fixed assets are recorded at cost. Office furniture and all equipment are depreciated over their estimated useful lives of five years using the straight-line method. Leasehold improvements are amortized over the term of the lease.

Board of Trustees of the Queen Elizabeth II Canadian Fund to Aid in Research on the Diseases of Children

AUDITOR'S REPORT

TO THE BOARD OF TRUSTEES
AND
THE HONOURABLE JAKE EPP, P.C., M.P.
MINISTER OF NATIONAL HEALTH AND WELFARE

I have examined the balance sheet of the Board of Trustees of the Queen Elizabeth II Canadian Fund to Aid in Research on the Diseases of Children as at March 31, 1985 and the statements of operations and balance of fund and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1985 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

Further, in my opinion, the transactions of the Board that have come to my notice during my examination of the financial statements have, in all significant respects, been in accordance with the Queen Elizabeth II Canadian Research Fund Act and by-laws of the Board.

RAYMOND DUBOIS, C.A.
Deputy Auditor General
for the Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1985

1. Authority and objectives

The Queen Elizabeth II Canadian Fund to Aid in Research on the Diseases of Children was established by the Queen Elizabeth II Canadian Research Fund Act in 1959 to assist individuals or organizations to undertake or carry on research into the diseases of children, and the causes, prevention and treatment of such diseases. The Board of Trustees, consisting of a Chairman and six other trustees appointed by Her Majesty by commission under the Great Seal, was also established by the Act to manage and administer the Fund in accordance with and subject to the Act.

2. Accounting policies

Investment in Government of Canada securities

The investment in Government of Canada securities is recorded at cost. All gains or losses, including any premium or discount on acquisition, are recognized as revenue when the securities are sold. Interest income is recorded on an accrual basis.

Scientist awards

Scientist awards are provided for in the year the awards are approved. Any subsequent increases and decreases to existing awards are accounted for in the year these increases or decreases are approved. Any awards cancelled subsequent to the year of approval are recognized as revenue in the year of cancellation. Refunds of unspent awards are recorded as revenue when received.

Services provided without charge

The Medical Research Council provides to the Board without charge such secretarial and other administrative and technical services and facilities as are required for the purposes of the Act.

Medical Research Council

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the Medical Research Council in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Council.

This statement of operations was prepared in accordance with the accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Previous year figures have been reclassified to conform to the current year's presentation. Some of the information included in the statement of operations such as the allocation of expenditure between operations and administration, is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Council maintains a set of accounts which provides a detailed record of the Council's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in the statement of operations.

The Council's Corporate Management Branch develops and disseminates financial management and accounting policies, and issues directives which maintain standards of accounting and financial management. The Council maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Council's assets. The Council also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The statement of operations has been examined by the Auditor General, his role being to express an informed opinion as to whether the Council's statement of operations, considered in its entirety, presents fairly, in conformity with stated accounting policies, the Council's financial transactions.

The Council has undertaken a number of initiatives to improve its accounting and financial management systems. A system of electronic data processing now being developed for the processing of grants and scholarships will include the computerization of accounting records by 1986-87. In addition, financial policies and procedures will be included in a corporate management policies and procedures manual during the next fiscal year.

AUDITOR'S REPORT

TO THE MEDICAL RESEARCH COUNCIL
AND
THE HONOURABLE JAKE EPP, P.C., M.P.
MINISTER OF NATIONAL HEALTH AND WELFARE

I have examined the statement of operations of the Medical Research Council for the year ended March 31, 1985. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the operations of the Council for the year ended March 31, 1985 in accordance with the accounting policies set out in Note 2 to the financial statement applied on a basis consistent with that of the preceding year.

NOTES TO THE STATEMENT OF OPERATIONS
MARCH 31, 1985

1. Authority and objective

The Medical Research Council was established in 1969 by the Medical Research Council Act and is a departmental corporation named in Schedule B to the Financial Administration Act. The objective of the Council is to help attain the quality and scale of research in the health sciences essential to the maintenance and improvement of health services. The Council's operating and grants expenditures are funded by a budgetary lapsing authority. Employee benefits are authorized by a statutory authority.

2. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

Grants and scholarships are charged to expenditure when disbursed. All operating expenditure is recorded on the accrual basis, in accordance with the Government's PAYE accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis.

(b) Capital purchases

Acquisitions of capital assets are charged to operating expenditure in the year of purchase.

(c) Services provided without charge by Government departments

Estimates of amounts for services provided without charge by Government departments are included in expenditure.

(d) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure.

3. Changes in financial statement presentation

The financial statement presentation has been changed in 1985 to comply to new standards of presentation required by the Receiver General for Canada, and to display more clearly the nature of Council's activities. Operating expenditures are now segregated between operations and administration.

Charged to operations is expenditure relating to the receiving, sorting, rating and general processing of applications for grants and scholarships including the cost of maintaining the grant and award assessment committees.

Charged to administration is expenditure relating to meetings of the Council, its executive and standing committees, and the Council's administrative and support services such as finance, administration, public affairs and office of the President.

Figures for 1984, presented for comparative purposes, have been restated to conform to the 1985 presentation.

5. Trust funds

In 1974, the Council received $75,000 from an anonymous donor to establish a fund. The interest received is used for the payment of grants for research in the fields of dyskenesia and torticollis. Other donations have been received but were not earmarked for specific projects. The donations and interest received and grants paid are not included in the statement of operations of the Council. The transactions relating to these funds for the year ended March 31, 1985 are as follows:

	1985	1984
	$	$
Balance, beginning of year	79,603	97,735

6. Commitments

The Council is committed to disburse grants and scholarships in future years subject to the provision of funds by Parliament. Future year commitments as at June 28, 1985 are as follows:

Year of payment	1985	1984
	(in thousands of dollars)	
1984-85		130,799
1985-86	150,396	86,911

1989-90	14,467	5,048
1990-91	4,670	
	363,503	309,250

7. Travel

Expenditure for travel charged to operations is directly related to the peer review process and was incurred by the members of 23 grant committees, 6 award committees and the staff of Council to meet, assess and rate grant and award applications.

Expenditure for travel charged to administration is for the general support of Council's administrative activities and includes meetings of the Council itself, its executive committee, the standing and advisory committees and Medical Research Council staff. Details are as follows:

	1985	1984
	$	$

PRIVY COUNCIL

Department

Objective

PRIVY COUNCIL PROGRAM

—To provide for the operation and support of the central decision-making mechanism of the Government.

Canadian Intergovernmental Conference Secretariat

Objective

—To provide administrative and support services for the meetings of First Ministers, as well as for federal-provincial and interprovincial meetings of ministers and senior officials.

Chief Electoral Officer

Objective

—To enable the people of Canada, eligible to vote, to elect members to the House of Commons, in accordance with the Canada Elections Act and to the Council of the Northwest Territories, in accordance with the Northwest Territories Elections Ordinance, to ensure compliance with the election expenses provisions of the Canada Elections Act, to ensure representation of the provinces in the House of Commons in accordance with the Constitution Act, 1982 and to provide the necessary technical, administrative and financial support to the eleven electoral boundaries commissions in accordance with the Electoral Boundaries Readjustment Act.

Commissioner of Official Languages

Objective

—To ensure recognition of the status of each of the official languages and compliance with the spirit and intent of the Official Languages Act.

Economic Council of Canada

Objective

—To advise and recommend how Canada can achieve the highest possible levels of employment and efficient production in the medium and long-term in order that the country may enjoy a high and consistent rate of economic growth and that all Canadians may share in rising living standards.

Public Service Staff Relations Board

Objective

—To provide the framework within which the various rights and responsibilities of participants to collective bargaining in the Public Service are to be exercised and to provide information to participants on rates of pay and other conditions of employment in Canada.

Economic Council of Canada

MANAGEMENT REPORT

The accompanying statement of operations of the Economic Council of Canada has been prepared in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the assurance of objectivity and integrity of the financial data presented in the statement of operations rests with the Chief Executive Officer of the Council.

The statement of operations has been prepared in accordance with accepted financial management and accounting policies, of which, the more significant are outlined in Note 2 to the financial statement. It should be noted that, for comparative purposes, the previous year figures have been reclassified to conform with the current year's presentation. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in the statement of operations, unless otherwise indicated.

The Council's Directorate of financial services develops and maintains financial control systems to ensure: one, financial visibility, two, financial accountability, and three, to satisfy the requirements of the Council and the requirements of Parliament and central agencies as expressed in statutes, regulations and other directives. Financial management and internal control systems are augmented by the maintenance of independent audits, overseen by the Office of the Auditor General, which appraise the efficiency and effectiveness of financial systems and procedures as well as maintain the adequacy of internal accounting, financial and budgetary controls. Transactions are examined to ensure compliance with established policies and procedures. Financial officers play an integral part of the management team in the roles of planning, controlling and reporting of activities within the Council. The Council seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The statement of operations has been examined by the Auditor General of Canada. His examination was made in accordance with generally accepted auditing standards. In his opinion, the financial statement presents fairly the expenditure and revenue of the Council for the year ended March 31, 1985.

The accounting system and financial statement of the Council have evolved over the years to meet changing conditions. In recent months, a computer-based financial accounting mechanism has been put in place which provides, for each responsibility centre and the Council as a whole, detailed up-to-date information on the status of expenditures, commitments and free balances, by line object. Monthly reports or, on demand, up-to-date statements, based on this system, permit both group/division managers and overall corporate managers to precisely assess current circumstances, approve new commitments and plan future undertakings. A central "early warning" procedure is planned for implementation in the course of the next fiscal year which will serve as a double reminder to decentralized responsibility centres of approaching deadlines for progress and final payments respecting commitments currently in effect, most notably, research and other personal service contracts.

AUDITOR'S REPORT

TO THE ECONOMIC COUNCIL OF CANADA
AND
THE RIGHT HONOURABLE MARTIN BRIAN MULRONEY, P.C., M.P.
PRIME MINISTER OF CANADA

I have examined the statement of operations of the Economic Council of Canada for the year ended March 31, 1985. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the expenditure and revenue of the Council for the year ended March 31, 1985, in accordance with the accounting policies set out in Note 2 to the financial statement applied on a basis consistent with that of the preceding year.

NOTES TO STATEMENT OF OPERATIONS
MARCH 31, 1985

1. Authority and objective

The Council was established in 1963 by the Economic Council of Canada Act and is a departmental corporation named in Schedule B to the Financial Administration Act.

The objective of the Council is to advise and recommend to the Prime Minister how Canada can achieve the highest possible levels of employment and efficient production in order that the country may enjoy a high and consistent rate of economic growth and that all Canadians may share in rising living standards.

The Council's operating expenditures are funded by a budgetary lapsing authority.

2. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

All expenditure is recorded on the accrual basis, in accordance with the Government's PAYE accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis.

(b) Capital purchases

Acquisitions of capital assets are charged to operating expenditure in the year of purchase.

(c) Estimates of amounts for services provided without charge from Government departments are included in expenditures.

(d) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure.

3. Changes in financial statement presentation

The financial statement presentation has been revised in accordance with the directive issued by the Receiver General for Canada.

Revenue, refund of previous years' expenditure, $328 (1985) and $1,760 (1984) are now shown on the statement of operations.

Construction Services Revolving Fund

MANAGEMENT REPORT

The financial statements of the Construction Services Revolving Fund have been prepared in accordance with Treasury Board policy and the reporting requirements of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these statements rests with the management of the Fund.

These financial statements were prepared with objective data and in conformity to the "consistency" principle. The management of the Fund is effected through the maintenance of accounts which provide a centralized record of the Fund's transactions. It is further managed and controlled through procedure manuals, instructions and directives. Transactions are executed in accordance with the regulations contained in the Guide on Financial Administration and the Financial Administration Act in order to maintain accountability and exercise internal control.

The transactions of the Fund have been subjected to audit by the Office of the Auditor General as part of the review of internal control and the examination of the books, records and financial statements of the Department.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1985

1. Purpose and authority

The Construction Services Working Capital Advance was replaced by the Construction Services Revolving Fund as at April 1, 1980. The purpose of the Fund is to provide, on a cost recovery basis, interim financing and financial control, construction supervision, and other related services, on federal and non-federal projects undertaken on behalf of federal departments and agencies, other governments, or private sector tenants of federal property.

The Adjustment of Accounts Act (Bill C-22) authorized the operation of the Construction Services Revolving Fund in the current and subsequent years with a statutory authority limit of $55 million.

In accordance with Section 33 of the Adjustment of Accounts Act and through the 1983-84 supplementary estimates B, the Construction Services Revolving Fund was amended to include charges to be made to Public Works departmental programs and to increase the financial authority from $55 million to $150 million.

In the 1984-85 supplementary estimates C, the Construction Services Revolving Fund drawdown authority was increased from $150 million to $300 million.

2. Significant accounting policies and practices

The Construction Services Revolving Fund provides construction services on a cost recovery basis. The recoveries are always equal to the expenses; hence no profit is realized.

REGIONAL INDUSTRIAL EXPANSION

Department

Objective

—To increase overall industrial, commercial and tourism activity in all parts of Canada and in the process reduce economic disparity across Canada.

Canada Development Corporation[1]

Objective

—To develop and maintain strong Canadian controlled and managed corporations in the private sector; to widen the investment opportunities open to Canadians; to operate profitably and in the best interest of all the shareholders.

Canada Development Investment Corporation[1]

Objective

—To enhance the commercial management of publicly-owned assets and to facilitate privatization.

Cape Breton Development Corporation

Objective

—To stimulate economic adjustment and expansion on Cape Breton Island while rationalizing the coal industry.

Eldorado Nuclear Limited[1]

Objective

—To look after the mining, refining and conversion of uranium fuel for the generation of electricity in Canada and other countries.

Federal Business Development Bank

Objective

—To promote and assist in the establishment and development of business enterprises, particularly small business in Canada.

Foreign Investment Review Agency

Objective

—To ensure that acquisitions of control of Canadian business enterprises and the establishment of new or unrelated businesses by non-Canadians are, or are likely to be, of significant benefit to Canada.

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the National Research Council of Canada in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Council.

This statement of operations was prepared in accordance with the accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Previous year figures have been reclassified to conform to the current year's presentation. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Council maintains a set of accounts which provides a centralized record of the Council's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in the statement of operations, unless indicated otherwise.

The Council's directorate of financial services develops and disseminates financial management and accounting policies, and issues directives which maintain standards of accounting and financial management. The Council maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Council's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs where frequent contacts are maintained between staffs of the Council and of the Office of the Auditor General. The Council also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The accounting system and financial statement of the Council have evolved over the years to meet changing conditions and, more recently, to implement a departmental recommendation to improve the cost accounting system. This improvement now permits more accurate and equitable billings for customers and other Government departments. The fee structure and rates have been amended effective fiscal year 1985-86 to reflect the true cost of services provided by the Council.

A study of user accounting requirements has resulted in programming to enable managers to download information from the FINCON database to local micro computers for further detailed data analysis. This degree of flexibility should also reduce and possibly eliminate the duplication of accounting records.

NOTES TO THE STATEMENT OF OPERATIONS MARCH 31, 1985

1. Authority and objective

The National Research Council of Canada was established under the National Research Council Act 1966-67 and is a departmental corporation named in Schedule B to the Financial Administration Act. The objectives of the Council are to create, acquire and promote the application of scientific and engineering knowledge to meet Canadian needs for economic, regional and social development and to promote and provide for the use of scientific and technical information by the people and Government of Canada to meet Canadian needs for economic, regional and social development. The Council's operating, capital and grant expenditures are funded through budgetary lapsing appropriations and revenue credited to vote. Employee benefits are authorized by a statutory authority.

2. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

All expenditure is recorded on the accrual basis, in accordance with the Government's Payables at Year End (PAYE) accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis.

(b) Revenue recognition

Revenue is recorded on a cash receipts basis in accordance with the Government's accounting policies.

(c) Capital purchases

Acquisitions of capital assets are charged to operating expenditure in the year of purchase.

(d) Estimates of amounts for services provided without charge from Government departments are included in expenditures.

(e) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditures.

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the Natural Sciences and Engineering Research Council in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Council.

This statement of operations was prepared in accordance with the accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Previous year figures have been reclassified to conform to the current year's presentation. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Council maintains a set of accounts which provides a centralized record of the Council's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in the statement of operations, unless indicated otherwise.

The Council's directorate of Finance and Administration develops and disseminates financial management and accounting policies, and issues directives which maintain standards of accounting and financial management. The Council maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Council's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs. The Council also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The statement of operations has been examined by the Auditor General, his role being to express an informed opinion as to whether the Council's statement of operations, considered in its entirety, presents fairly, in conformity with stated accounting policies, the Council's financial transactions.

The accounting system and financial statement of the Council have evolved over the years to meet the changes in the structure of the grants and scholarships programs and to give improved reporting and control of expenditures relating to those programs.

AUDITOR'S REPORT

TO THE NATURAL SCIENCES AND ENGINEERING RESEARCH COUNCIL
AND
THE HONOURABLE TOM SIDDON, P.C., M.P.
MINISTER OF STATE FOR SCIENCE AND TECHNOLOGY

I have examined the statement of operations of the Natural Sciences and Engineering Research Council for the year ended March 31, 1985. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the expenditure and revenue of the Council for the year ended March 31, 1985 in accordance with the accounting policies set out in Note 2 to the financial statement, applied on a basis consistent with that of the preceding year.

NOTES TO THE STATEMENT OF OPERATIONS
MARCH 31, 1985

1. Authority and objective

The Council was established in 1978 by the Natural Sciences and Engineering Research Council Act, and is a departmental corporation named in Schedule B to the Financial Administration Act. Its objective is to promote and support the development and maintenance of research and the provision of highly qualified manpower in the natural sciences and engineering. The Council's grants and scholarships and operating expenditures are funded by a budgetary lapsing authority. Employee benefits are authorized by a statutory authority.

2. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

Grants and scholarships are charged to expenditure as disbursed. All other expenditure is recorded on the accrual basis, in accordance with the Government's PAYE accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis.

(b) Capital purchases

Acquisitions of capital assets are charged to operating expenditure in the year of purchase.

(c) Estimates of amounts for services provided without charge from Government departments and agencies are included in expenditures.

(d) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure. These funds are remitted to the Receiver General for Canada.

(e) Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Council. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid, generally over the remaining service lives of the employees.

1988-89	6.5	1.2
1989-90	3.3	1.1
	475.2	444.4

5. Grants and scholarships administered and disbursed for Government departments, agencies and organizations outside the Government

Grants and scholarships administered and disbursed by the Council on behalf of Government departments, agencies and organizations outside the Government, which are not included in the statement of operations, are detailed in Schedule II. Most of these disbursements are made by the Council from lapsing funds entrusted to it by Government departments and agencies.

At March 31, 1985, the Council held in trust for two organizations outside the Government (NATO and AECL) grants and scholarships funds amounting to $97,006 (1984—$218,035).

6. Donation trust fund

This account records monies, securities or other property received by way of gift, bequest or otherwise as approved by the Council. Donations are received and funds are paid out subject to the terms upon which such monies are given, bequested or otherwise made available to the Council.

Science Council of Canada

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the Science Council of Canada (hereafter called Council) in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Council.

This statement of operations was prepared in accordance with the accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Previous year figures have been reclassified to conform to the current year's presentation. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Council maintains a set of accounts which provides a centralized record of the Council's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in the statement of operations, unless indicated otherwise.

The Council's financial section develops and disseminates financial management and accounting policies, and issues directives which maintain standards of accounting and financial management. The Council maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Council's assets. The Council also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The statement of operations has been examined by the Auditor General, his role being to express an informed opinion as to whether Council's statement of operations, considered in its entirety, presents fairly, in conformity with stated accounting policies, the Council's financial transactions.

The accounting system and financial statement of the Council have evolved over the years to meet changing conditions. The Council is constantly reviewing its policies and practices in order to improve its standards of accounting and financial management.

NOTES TO THE STATEMENT OF OPERATIONS MARCH 31, 1985

1. Authority and objective

The Council was established in 1966 by the Science Council of Canada Act and is a departmental corporation named in Schedule B to the Financial Administration Act. The Council's operating expenditures are funded by a budgetary lapsing authority. Employee benefits are authorized by a statutory authority.

The objective of the Council is to assess Canada's scientific and technological requirements, to increase public awareness of these requirements and of the interdependence of various groups in society in the development and use of science and technology, and to advise the Government on the best use of science and technology.

2. Accounting policies

(a) Expenditure recognition

All expenditure is recorded on the accrual basis, in accordance with the Government's PAYE accounting policy, with the exception of termination benefits and vacation pay which are recorded on the cash basis.

(b) Capital purchases

Acquisitions of office furniture and equipment are charged to expenditure in the year of purchase.

(c) Contributions to the Public Service Superannuation Plan

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Council contribute equally to the cost of the Plan. Contributions by the Council are charged to expenditure on a current basis.

(d) Services provided without charge

Estimated amounts for services provided without charge by Government departments are included in expenditure.

(e) Refunds of previous years' expenditure

SECRETARY OF STATE

Department

Objectives

ADMINISTRATION AND REGIONAL OPERATIONS PROGRAM

—To ensure, jointly and individually, with equity, the economical, efficient, effective and accountable realization of the Department's objectives and priorities, in a spirit of service to the public; and to contribute to enhancing Canadians' sense of belonging to the country in each region.

OFFICIAL LANGUAGES PROGRAM

—To foster a better appreciation among Canadians of the equal status of the two official languages and to provide Canadians with increased opportunities to participate fully, in either official language, in all aspects of their lives; thus contributing to enhancing Canadians' sense of belonging to the country.

EDUCATION SUPPORT PROGRAM

—To support Canada's cultural, social and economic development through federal education policies and programs which contribute to strengthening Canada's post-secondary education system capacity, and which respond to individual aspirations of Canadians and to the needs and opportunities of Canadian society; thus contributing to enhancing Canadians' sense of belonging to the country.

CITIZENSHIP AND CULTURE PROGRAM

—To assist Canadians in achieving more equitable and equal opportunities for social growth, quality of life and fuller involvement in Canadian society; to achieve an improved knowledge, appreciation and enjoyment of Canada and its cultural diversity; to achieve greater awareness, knowledge and appreciation of human rights, fundamental freedoms and related responsibilities; to increase the enjoyment of human rights; and to increase compliance with Canada's domestic and international commitments, thus contributing to enhancing Canadians' sense of belonging to the country.

Advisory Council on the Status of Women

Objective

—To bring before the Government and the public matters of interest and concern to women.

Public Service Commission

Objectives

PROGRAM

—To ensure the efficient and effective staffing of the Public Service in accordance with the Public Service Employment Act in order to meet the needs of the Public Service; also to provide training and development programs and undertake related personnel management functions in line with the agreements on roles and responsibilities between the Public Service Commission and Treasury Board of Canada.

STAFF DEVELOPMENT AND TRAINING REVOLVING FUND

—To provide, in response to departmental and agency demands, development and training courses, and related consultative services.

Social Sciences and Humanities Research Council*

Objective

—To promote and assist research and scholarship in the social sciences and humanities.

Status of Women—Office of the Co-ordinator

Objective

—To promote equal opportunities for women in all spheres of Canadian life.

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Staff Development and Training Revolving Fund as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund.

These financial statements are prepared in accordance with the stated accounting policies, on a basis consistent with that of the preceding year except as described in Note 3 to the statements. Some of these policies are further explained in the notes which form part of these statements. To fulfill this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with the information presented in these financial statements, unless indicated otherwise.

The Financial Services Directorate and the Fund's Comptroller, who reports functionally to the senior full-time financial officer, develop and disseminate financial management and accounting policies, and issue specific directives which maintain standards of accounting and financial management. Systems of financial management and internal control are maintained for the Fund at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. Financial management and internal control systems are augmented by the activities of internal audit and by on-going monitoring activities by the Fund's Comptroller, financial services officers and by the Financial Services Directorate. The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate division of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

During 1984-85, the Fund was able to respond to Government as well as to voluntary restraint measures by limiting its rate increases to 5%. Further, it has limited its rate increases to 3.61% for 1985-86 and thereby assists user departments to operate within the Government spending restraints. An annual review will be conducted each year as part of the budgetary process and will allow the Fund to respond to further Government restraint measures.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985

1. Authority and purpose

The Staff Development and Training Revolving Fund was established by Vote L120, Appropriation Act No. 3, 1971 for the purpose of providing training and development to the Public Service.

The Fund has a continuing non-lapsing authority under the Adjustment of Accounts Act, S.C. 1980, c. 17, to make payments out of the Consolidated Revenue Fund for working capital and temporary financing of accumulated operating deficits, the total of which is not to exceed $4,500,000 at any time. In accordance with Votes 115a (1980-81) and 35c (1981-82), accumulated deficits of $4,573,071 have been deleted from the accounts. An amount of $1,915,571 representing net liabilities assumed by the Fund was charged to this authority when the Fund became budgetary in 1981.

2. Significant accounting policies and practices

(a) Employee termination benefits

Termination benefits accrue to employees over their years of service with the Government of Canada as provided for under collective agreements. The cost of these benefits is recorded in the accounts as the benefits accrue to the employees.

(b) Effective April 1, 1984 the Staff Development and Training Revolving Fund adopted the accounting policy of capitalizing fixed asset purchases and charging operations for the use of these assets. These fixed assets are depreciated on the declining balance method from the year of acquisition over their useful lives as follows:

Office and classroom furniture	10 years
Office and classroom equipment	6 to 7 years
EDP and word processing equipment	4 years

3. Change in accounting policy

As noted above, effective April 1, 1984 the Staff Development and Training Revolving Fund adopted the accounting policy of capitalizing fixed asset purchases and charging operations with depreciation. The impact on the 1984-85 statements is an increase in net profit as follows:

	$
Capitalization of fixed assets purchases	1,126,962
Less: depreciation for the year	209,351
loss on disposal of fixed assets	87,396
	830,215

This accounting policy has been applied retroactively with the following impact on the 1984 financial statements:

		$
Increase in net income comprised of:		
Capitalization of fixed assets purchases		403,600
Less: depreciation for the year		93,640
		309,960
Increase in accumulated surplus comprised of:		
Increase in net income		309,960
Prior years' adjustment:		
Capitalization of fixed assets (1981-82, 1982-83)	$ 92,829	
Less: depreciation	(20,984)	71,845
		381,805

4. Subsidized operations

Appropriation funds in the amount of $2,885,000 were paid to the Staff Development and Training Revolving Fund for the 1984-85 fiscal year. These funds were approved to cover the cost of the ongoing operations which are not cost recoverable. The comparative figure for 1983-84 is $2,900,125.

5. Fixed assets and accumulated depreciation

Social Sciences and Humanities Research Council

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the Social Sciences and Humanities Research Council for the year ended March 31, 1985 in accordance with the accounting policies on a basis consistent with that of the preceding year.

The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Council. Some of the information included in the financial statement is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill its reporting responsibility, the Council maintains a set of accounts which provides a centralized record of the Council's financial transactions. Financial information contained in the statements and elsewhere in the Public Accounts is consistent with the information presented in the statement of operations, unless indicated otherwise.

The Council's directorate of financial and administrative services develops and disseminates financial management and accounting policies, and issues directives which maintain standards of accounting and financial management. The Council maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard of Council's assets. Financial management and internal control systems are augmented by the maintenance of an internal audit program whose results are reported to an Audit and Evaluation Committee. This Committee is composed of Council members. Council activities are subject to a yearly audit by the Auditor General. The Council also seeks to assure the objectivity and integrity of data in its financial statement by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate division of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The statement of operations has been examined by the Auditor General, his role being to express an informed opinion as to whether the Council's statement of operations, considered in its entirety, presents fairly, in conformity with stated accounting policies, the Council's financial transactions.

AUDITOR'S REPORT

TO THE SOCIAL SCIENCES AND HUMANITIES RESEARCH COUNCIL
AND
THE HONOURABLE WALTER F. MCLEAN, M.P.
SECRETARY OF STATE OF CANADA

I have examined the statement of operations of the Social Sciences and Humanities Research Council for the year ended March 31, 1985. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the expenditure of the Council for the year ended March 31, 1985 in accordance with the accounting policies set out in Note 2 to the financial statement applied on a basis consistent with that of the preceding year.

NOTES TO THE STATEMENT OF OPERATIONS
MARCH 31, 1985

1. Authority and objective

The Council was established in 1977 by the Social Sciences and Humanities Research Council Act and is a departmental corporation named in Schedule B to the Financial Administration Act. The objective of the Council is to promote and assist research and scholarship in the social sciences and humanities.

The operating and grants expenditures are funded by budgetary lapsing authorities. Employee benefit plans contributions are authorized by a statutory authority.

2. Significant accounting policies

The statement of operations has been prepared using the following accounting policies:

(a) Expenditure recognition

Grants are charged to expenditure when disbursed. Operating expenditure is recorded on an accrual basis, in accordance with the Government's PAYE accounting policy, except for employee termination benefits and vacation pay which are recorded on the cash basis.

(b) Capital purchases

Acquisition of office furniture and equipment is recorded as operating expenditure in the year of purchase.

(c) Services provided without charge by other departments

Estimates of amounts for services provided without charge from Government departments are included in operating expenditure (Schedule II).

(d) Refunds of previous years' expenditure

Refunds of previous years' expenditure are recorded as revenue when received and are not deducted from expenditure.

(e) Pension Plan

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Council contribute equally to the cost of the Plan. Council's contributions are charged to expenditure on a current basis.

3. Parliamentary appropriations

Parliamentary appropriations are recorded when used and any amount not used lapses in accordance with Section 30 of the Financial Administration Act. Appropriations are as follows:

	Grants expenditure		Operating expenditure	
	1985	1984	1985	1984
	(in thousands of dollars)			
Department of Communications

4. Supplementary information

(a) Accounts receivable

Accounts receivable from award holders amounting to $94,964 (1984—$92,740) are not included in the statement of operations.

(b) Refunds of previous years' expenditure

Refunds of previous years' expenditure amounting to $455,291 (1984—$367,051) are not included in the statement of operations.

(c) Queen's Fellowship Fund

The Queen's Fellowship Fund consists of $250,000 which was originally invested in sinking funds debentures, maturing March 1, 1995 and bearing interest at 10½% per annum but which were called for redemption on March 1, 1985. The fund was then deposited in an interest bearing trust account. The interest earned is used for fellowships to graduate students in certain fields of Canadian studies. The operations of the Fund, which are not included in the statement of operations, are as follows:

	1985	1984
	(in thousands of dollars)	
Balance, beginning of year	329	330
Add—Interest earned	33	33
Less—Fellowships paid	(50)	(34)
Balance, end of year, represented by deposits in the Consolidated Revenue Fund, in the name of the Council	312	329

(d) Special Trust Funds

During the year, an anonymous donation of $50,000 was made to the Council, for the creation and administration, in 1986 and 1987, of two special postdoctoral fellowships for research in sociology on urban poverty in Canada. Of this donation, and amount of $25,000 was received and deposited in the Consolidated Revenue Fund in an interest bearing trust account, in the name of the Council; the balance will be received before December 31, 1985.

SUPPLY AND SERVICES

Department

Objectives

SERVICES PROGRAM

—To fulfill the responsibilities of the Receiver General, and to provide in an economic and efficient manner a broad range of administrative, management and advisory services as required by the Government and as requested by client departments and agencies.

SUPPLY PROGRAM

PROGRAM

—To encourage research and development in the private sector which contributes to departmental programs; to help finance certain costs incurred on Government contracts resulting from the use of those contracts to support industrial research or industrial development objectives in Canada, including the expansion of Canadian technology and Canadian content in federal Government purchases; and to provide free and subsidized distribution of Government publications and Parliamentary papers thereby enhancing public access to such documents.

SUPPLY REVOLVING FUND

—To acquire and/or provide goods and services required by departments and agencies, taking into account the contribution of supply to the realization of national objectives, and to provide services for the disposal of Crown owned materiel, all in the most economical manner.

DEFENCE PRODUCTION REVOLVING FUND

—To assist in carrying out the responsibilities specified in the Defence Production Act related to the acquiring, transportation, and stockpiling of strategic materiel and defence supplies.

CANADIAN UNITY INFORMATION OFFICE PROGRAM*

—To promote Canadian unity.

Crown Assets Disposal Corporation

Objective

—To act as an agent of the Crown in the sale of surplus assets.

Royal Canadian Mint

Objectives

—To produce and arrange for the production and supply of coins of the currency of Canada;

—To produce coins of the currency of countries other than Canada;

—To melt, assay, refine, buy and sell gold, silver and other metals for the account of Canada; and

—To make medals, plaques and other things as are incidental to the powers of the Mint.

Statistics Canada

Objective

—To collect and provide statistical information needed for understanding the Canadian economy and Canadian institutions and for the development of economic and social policies and programs; to collaborate with other departments and agencies of the federal Government, provincial and municipal governments and with businesses and individuals on the development of methodology and its application and on the production of new and expanded statistical information to meet their particular requirements.

Crown Assets Disposal Corporation

MANAGEMENT REPORT

We have prepared the accompanying statement of operations of the Crown Assets Disposal Corporation in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in this financial statement rests with the management of the Corporation.

This statement of operations was prepared in accordance with the accounting policies set out in Note 1, on a basis consistent with that of the previous period except as described in Note 2.

Also provided with the statement of operations is a schedule reconciling the net gain from operations, as per the above statement, with the net gain from operations on the accrual basis of accounting. The accrual basis financial statements, which are also included in the Public Accounts, were examined and an opinion expressed, by the Auditor General.

The Corporation develops and disseminates financial management and accounting policies, and issues directives which maintain standards of accounting and financial management. The Corporation maintains systems of financial management and internal control. Transactions are executed in accordance with prescribed regulations and are properly recorded to maintain accountability of Government funds and safeguard the Corporation's assets. The Corporation also seeks to assure the objectivity and integrity of data in its statement of operations by organizational arrangements that provide appropriate divisions of responsibility and by ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

NOTES TO THE STATEMENT OF OPERATIONS
MARCH 31, 1985

1. Significant accounting policies

   The statement of operations has been prepared using the following accounting policies:

   (a) Expenditure recognition
   All expenditure is recorded on the accrual basis, in accordance with the Government's Payables at Year End (PAYE) accounting policy.

   (b) Revenue recognition
   Revenue is recorded on the cash receipts basis in accordance with the Government's accounting policies.

   (c) Capital purchases
   Acquisition of capital assets are charged to operating expenditure in the year of purchase.

2. Changes in accounting policy

   As a result of the legislation (Bill C-24) listing the Corporation as a Schedule B corporation, the reporting for the Public Accounts was changed from the accrual basis to the Government's modified cash basis of accounting. This was done in order to make it consistent with the accounting policies of the Government, and to meet the reporting requirements of the Receiver General for Canada. As a result of this change, the net gain from operations is increased by $902,370 for the seven months ended March 31, 1985. The restatement of the previous period for the five months ended August 31, 1984 increased net gain from operations by $162,259.

AUDITOR'S REPORT

THE HONOURABLE STEWART MCINNES, P.C., M.P.
MINISTER OF SUPPLY AND SERVICES

I have examined the balance sheet of Crown Assets Disposal Corporation as at March 31, 1985 and the statements of income and retained earnings and changes in financial position for the seven months then ended for the General Account, and the balance sheet as at March 31, 1985 and the statement of transactions for the seven months then ended for the Agency Account. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1985 and the results of its operations and the changes in its financial position for the seven months then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985

•1. Authority, objectives and operations

The Surplus Crown Assets Act, administered by the Minister of Supply and Services, established the Corporation to act as an agent of the Crown in the sale of surplus assets. The Act requires that each department, and other bodies, report to the Minister any property in its custody or under its control or administration that is determined as surplus to its requirements. The Act also allows agents of Her Majesty and boards, commissions, corporations and other bodies that are not agents of Her Majesty, but, that are ultimately accountable to Parliament for the conduct of their affairs, the option to use the services of the Corporation. The Corporation has the authority to sell or otherwise deal with such surplus property and to transfer net proceeds received from sales to the Consolidated Revenue Fund or to the agents of Her Majesty, boards, commissions, corporations and other bodies that are not agents of Her Majesty. Land and buildings (Order-in-Council PC 1974-2756, December 12, 1974) and certain commodities are exempted from sale by the Corporation.

The primary objectives of the Corporation are to obtain on behalf of the Crown the highest return from the sale of surplus assets and to provide efficient and reliable services to its customers.

The Corporation operates through two accounts: a general account and an agency (trust) account. The sales of the Corporation are recorded in the agency account from which direct sales expenses and sales commissions are deducted. The balance is transferred to the Consolidated Revenue Fund (CRF) or to appropriate agencies and Crown corporations. The commissions are transferred to the general account as "revenue" from which all operating expenses are paid.

Order-in-Council PC 1982-14/1256, dated April 22, 1982, conferred upon the Corporation the power to engage the services of the Department of Supply and Services in carrying out, on its behalf, the function, powers and duties relating to disposal of materiel.

As a result, the Corporation has been integrated into the Department of Supply and Services (DSS) but has maintained its legal status as a Crown corporation. Its employees have been transferred to DSS where they are carrying out all of the operations of the Corporation. Effective April 1, 1983 the Corporation's operating expenses have been paid by DSS. Each month the Corporation reimburses DSS for the operating expenses paid on its behalf plus an agreed amount of administrative charges.

An Act to amend the Financial Administration Act in relation to Crown corporations and to amend other Acts in consequence thereof came into force by proclamation on September 1, 1984. This Act (Bill C-24) rescheduled the Corporation as a departmental corporation under Schedule B to the Financial Administration Act.

The Crown Assets Disposal Corporation Dissolution Act to dissolve the Corporation and to amend the Surplus Crown Assets Act and other Acts in consequence thereof, Bill C-43, was passed by the House of Commons on April 19, 1985. The Act states that all rights and property, obligations and liabilities of the Corporation be deemed rights, property, obligations and liabilities of Her Majesty in right of Canada; and that the Minister of Supply and Services may do and perform all acts and things necessary for or incidental to closing out the affairs of the Corporation.

2. Statutory financial limitations

The Surplus Crown Assets Act, Section 11(2) requires that:

All monies deposited in the Corporation's bank accounts except

(a) monies paid or advanced to the Corporation by Her Majesty on account of working capital, and

(b) such percentage of the net proceeds of sales and of all other monies received by the Corporation during any period as the Governor in Council may from time to time fix to be retained to meet administrative costs or other expenses of the Corporation, and

(c) the net proceeds of sales of property reported by other than a department of the Government of Canada *less* any amount retained pursuant to paragraph (b) with respect to each such sale, shall be transferred or deposited to the credit of the Receiver General on a day not later than the last day of the month following receipt thereof by the Corporation.

Section 11.1 of the above Act also requires that the Corporation remit the monies represented by (c) above to the respective bodies not later than the last day of the month following the month in which the monies were received by the Corporation.

Order-in-Council PC 1970-534, March 24, 1970 requires that the Corporation pay to Canada, at intervals of not longer than six months, the excess of the Corporation's retained earnings over $300,000.

3. Significant accounting policies

(a) Recognition of revenue

Sales and related commissions are recorded when the Corporation accepts an offer to purchase, with the exception of some sales contracts where the value of the sale is undeterminable until after the goods are weighed upon receipt by the purchaser. For these contracts, sales are recorded upon receipt of goods by the purchaser.

(b) Depreciation and amortization

Depreciation of furniture and equipment is recorded on the straight-line method over five years, and amortization of leasehold improvements is recorded on the straight-line method over the term of the leases.

(c) Prepaid expenses

Direct sales expenses incurred relating to certain surplus assets not sold at the end of the year are shown as prepaid expenses.

(d) Income tax

The Corporation is not subject to the provisions of any income tax act.

4. Fixed assets

It is the intention of the management of the Corporation and of the Department of Supply and Services to transfer the Corporation's fixed assets to the Department at their net book value at the dissolution date.

Equipment rentals	11,053	5,127
Inventory and other losses	7,732	5,999
	3,335,738	2,195,580

6. Long-term receivables—Agency Account

Long-term receivables include mortgages which relate to land and buildings sold prior to 1974 and loans outstanding from the sale of major equipment.

These receivables mature as follows:

	$
1985-86	263,116
1986-87	243,429
1987-88	115,096
1988-89	95,408

	1,386,722
Less: current portion	263,116
	1,123,606

*7. Commission to agent

During the seven month period, Vebeg, an agency of the Government of the Federal Republic of Germany, retained $24,830 (previous five month period—$352) from proceeds it remitted to the Corporation.

*8. Lease commitments

The Corporation leases certain properties used in the performance of its operations. As at March 31, 1985, the aggregate minimum annual rentals for all such leases are:

	$
1985-86	202,486
1986-87	80,295

*9. Contingencies

Claims aggregating approximately $112,000 in respect of contractual obligations, accidents, alleged misrepresentation of assets sold, and sundry other matters in dispute have been received by the Corporation but are not reflected in the accounts. In the opinion of management and legal counsel, the position of the Corporation on these claims is defensible. However, the final outcome of such claims is not determinable. Settlements resulting from the resolution of these claims are expected to be accounted for in the year in which the settlements occur.

AUDITOR'S REPORT

THE HONOURABLE STEWART MCINNES, P.C., M.P.
MINISTER OF SUPPLY AND SERVICES

I have examined the balance sheet of Crown Assets Disposal Corporation as at August 31, 1984 and the statements of income and retained earnings and changes in financial position for the five months then ended for the General Account, and the balance sheet as at August 31, 1984 and the statement of transactions for the five months then ended for the Agency Account. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements give a true and fair view of the financial position of the Corporation as at August 31, 1984 and the results of its operations and the changes in its financial position for the five months then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, proper books of account have been kept by the Corporation, the financial statements are in agreement therewith and the transactions that have come under my notice have been within its statutory powers.

E.R. ROWE, C.A.
Deputy Auditor General
for the Auditor General of Canada

Crown Assets Disposal Corporation—*Continued*

NOTES TO FINANCIAL STATEMENTS
AUGUST 31, 1984

1. Authority, objectives and operations

The Surplus Crown Assets Act, administered by the Minister of Supply and Services, established the Corporation to act as an agent of the Crown in the sale of surplus assets. The Act requires that each department, and other bodies, report to the Minister any property in its custody or under its control or administration that is determined as surplus to its requirements. The Act also allows agents of Her Majesty and boards, commissions, corporations and other bodies that are not agents of Her Majesty, but, that are ultimately accountable to Parliament for the conduct of their affairs, the option to use the services of the Corporation. The Corporation has the authority to sell or otherwise deal with such surplus property and to transfer net proceeds received from sales to the Consolidated Revenue Fund or to the agents of Her Majesty, boards, commissions, corporations and other bodies that are not agents of Her Majesty. Land and buildings (Order-in-Council PC 1974-2756, December 12, 1974) and certain commodities are exempted from sale by the Corporation.

The primary objectives of the Corporation are to obtain on behalf of the Crown the highest return from the sale of surplus assets and to provide efficient and reliable services to its customers.

The Corporation operates through two accounts: a general account and an agency (trust) account. The sales of the Corporation are recorded in the agency account from which direct sales expenses and sales commissions are deducted. The balance is transferred to the Consolidated Revenue Fund (CRF) or to appropriate agencies and Crown corporations. The commissions are transferred to the general account as "revenue" from which all operating expenses are paid.

Order-in-Council PC 1982-14/1256, dated April 22, 1982, conferred upon the Corporation the power to engage the services of the Department of Supply and Services in carrying out, on its behalf, the function, powers and duties relating to disposal of materiel.

As a result, the Corporation has been integrated into the Department of Supply and Services (DSS) but has maintained its legal status as a Crown corporation. Its employees have been transferred to DSS where they are carrying out all of the operations of the Corporation. Effective April 1, 1983 the Corporation's operating expenses have been paid by DSS. Each month the Corporation reimburses DSS for the operating expenses paid on its behalf plus an agreed amount of administrative charges.

An Act to amend the Financial Administration Act in relation to Crown corporations and to amend other Acts in consequence thereof came into force by proclamation on September 1, 1984. This Act (Bill C-24) rescheduled the Corporation as a departmental corporation under Schedule B to the Financial Administration Act.

Therefore, the Corporation has prepared these financial statements as at August 31, 1984.

The Crown Assets Disposal Corporation Dissolution Act to dissolve the Corporation and to amend the Surplus Crown Assets Act and other Acts in consequence thereof, Bill C-43, was passed by the House of Commons on April 19, 1985. The Act states that all rights and property, obligations and liabilities of the Corporation be deemed rights, property, obligations and liabilities of Her Majesty in right of Canada; and that the Minister of Supply and Services may do and perform all acts and things necessary for or incidental to closing out the affairs of the Corporation.

2. Statutory financial limitations

The Surplus Crown Assets Act, Section 11(2) requires that:

All monies deposited in the Corporation's bank accounts except

(a) monies paid or advanced to the Corporation by Her Majesty on account of working capital, and

(b) such percentage of the net proceeds of sales and of all other monies received by the Corporation during any period as the Governor in Council may from time to time fix to be retained to meet administrative costs or other expenses of the Corporation, and

(c) the net proceeds of sales of property reported by other than a department of the Government of Canada *less* any amount retained pursuant to paragraph (b) with respect to each such sale, shall be transferred or deposited to the credit of the Receiver General on a day not later than the last day of the month following receipt thereof by the Corporation.

Section 11.1 of the above Act also requires that the Corporation remit the monies represented by (c) above to the respective bodies not later than the last day of the month following the month in which the monies were received by the Corporation.

Order-in-Council PC 1970-534, March 24, 1970 requires that the Corporation pay to Canada, at intervals of not longer than six months, the excess of the Corporation's retained earnings over $300,000.

3. Significant accounting policies

(a) Recognition of revenue

Sales and related commissions are recorded when the Corporation accepts an offer to purchase, with the exception of some sales contracts where the value of the sale is undeterminable until after the goods are weighed upon receipt by the purchaser. For these contracts, sales are recorded upon receipt of goods by the purchaser.

(b) Depreciation and amortization

Depreciation of furniture and equipment is recorded on the straight-line method over five years, and amortization of leasehold improvements is recorded on the straight-line method over the term of the leases.

(c) Prepaid expenses

Direct sales expenses incurred relating to certain surplus assets not sold at the end of the year are shown as prepaid expenses.

(d) Income tax

The Corporation is not subject to the provisions of any income tax act.

4. Fixed assets

It is the intention of the management of the Corporation and of the Department of Supply and Services to transfer the Corporation's fixed assets to the Department at their net book value at the dissolution date.

5. Services rendered by the Department of Supply and Services

The following is a breakdown of the DSS charges to the Corporation for the five months ended August 31, 1984 of which $460,886 remained unpaid at end of the period. Expenses for the year ended March 31, 1984 have been reclassified to conform with the presentation adopted for August 1984.

Defence Production Revolving Fund

MANAGEMENT REPORT

The accompanying financial statements of the Defence Production Revolving Fund have been prepared by Supply and Services Canada in accordance with the Treasury Board policies, the Defence Production Act, and reporting requirements and standards of the Receiver General for Canada.

The statements have been prepared on a basis consistent with that of the preceding year and are consistent with information presented elsewhere in the Public Accounts and with departmental reports. Significant accounting policies used in the preparation of the financial statements are included in the notes to financial statements.

The primary responsibility for the integrity and objectivity of these statements rests with the Finance and Administration sector of the Department. This responsibility is discharged by the Comptroller's Directorate which develops and disseminates financial management and accounting policies and issues specific directives necessary to maintain standards of accounting and financial management. Furthermore, the Department maintains internal controls designed to indicate accountability, provide assurance that assets are safeguarded and that reliable financial records are kept.

Defence Production Revolving Fund—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985

1. **Purpose and authority**

The Defence Production Revolving Fund has been authorized by Section 15 of the Defence Production Act. It was established in 1951 for the purpose of:

(a) financing the stockpiling of defence supplies or strategic materials;

(b) making loans or advances to aid in defence procurement such as working capital loans as advance payments on contracts but not including loans or advance payments for capital purposes; and

(c) permitting initial payments for defence supplies which can be promptly billed to a Government department, agency or an associated government in advance of delivery of goods.

The Adjustment of Accounts Act (S.C. 1980, c. 17) had the effect of creating a separate Defence Production Loan Account for loans or advances authorized under the Defence Production Act, item (b) above.

The Fund and the Defence Production Loan Account have a continuing non-lapsing authority from the Adjustment of Accounts Act to make payments out of the Consolidated Revenue Fund, the total of which is not to exceed at any time by more than $100 million the aggregate of amounts received on these two accounts. An amount of $15,408,997 representing net assets assumed by the Fund was charged to this authority when the Fund became budgetary in 1981. Pursuant to Treasury Board authority, the accumulated surplus in the amount of $455,935 has been transferred to the Fund's authority during 1984-85.

2. Significant accounting policies

(a) Progress payments to suppliers

Progress payments and accrued liabilities to suppliers for defence supplies requisitioned by Government departments and agencies and/or for stockpiled inventories, which are in progress and located on the suppliers' premises, are recorded as progress payments to suppliers. Under the terms of the contracts, the suppliers are liable to the Fund until delivery takes place.

(b) Progress billings to customers

Billings to customers for defence supplies requisitioned which have not yet been delivered to customers are recorded in the accounts as progress billings to customers.

3. Long-term receivable

In accordance with the terms of an agreement, the collection of the long-term receivable is dependent on the recipient's ability to make sales. Should the sales be insufficient to retire the debt, any balance owing will be recovered from the Department of National Defence.

Supply Revolving Fund

MANAGEMENT REPORT

The accompanying financial statements of the Supply Revolving Fund have been prepared by Supply and Services Canada in accordance with the Treasury Board policies, and reporting requirements and standards of the Receiver General for Canada.

The statements have been prepared on a basis consistent with that of the preceding year and are consistent with information presented elsewhere in the Public Accounts and with departmental reports. Significant accounting policies used in the preparation of the financial statements are included in the notes to financial statements.

The primary responsibility for the integrity and objectivity of these statements rests with the Finance and Administration sector of the Department. This responsibility is discharged by the Comptroller's Directorate which develops and disseminates financial management and accounting policies and issues specific directives necessary to maintain standards of accounting and financial management. Furthermore, the Department maintains internal controls designed to indicate accountability, provide assurance that assets are safeguarded and that reliable financial records are kept.

Supply Revolving Fund—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985

1. Purpose and authority

The objective of the Fund is to acquire and provide goods and/or services required by departments and agencies, taking into account the contribution of procurement to the realization of national objectives, and to provide services for the disposal of Crown owned materiel, all in the most economical manner.

The Supply Revolving Fund was authorized by Supply and Services Vote L6, Appropriation Act No. 1, 1975. Amendments to the appropriation authorized that the operations of the Supply Revolving Fund be combined with the operations of the Printing Revolving Fund effective April 1, 1975, with the Publishing Revolving Fund effective April 1, 1976 and with the Expositions Revolving Fund effective April 1, 1977.

Effective April 1, 1980, Parliament through the passage of the "Adjustment of Accounts Act" repealed all votes in respect of the accounts of the Supply Revolving Fund. Section 29 of the Act established the Supply Revolving Fund as a budgetary entity with a statutory non-lapsing drawing authority of $150 million. The authorized limit of the Fund was subsequently increased from $150 million to $200 million through the Appropriation Act No. 4, 1981-82.

An amount of $44,171,345 representing net assets assumed by the Fund and assets contributed to the Fund was charged to this authority when the Fund became budgetary in 1981. Pursuant to Treasury Board authority, the accumulated surplus has been transferred to the Fund's authority as follows:

	$
1982-83	3,256,386
1983-84	4,888,134
1984-85	5,691,677
	13,836,197

2. Significant accounting policies

(a) Revenue and expenses

Revenue and expenses are recorded on the accrual basis of accounting with the following variations:

(i) The accrual policy for recording certain revenue in the Science and Engineering Procurement Service is based on detailed and validated statistical analysis of the procurement workload. This policy was implemented to avoid expensive record keeping while respecting the need for adherence to the generally accepted accounting principle of matching cost and revenue. Contracts ranging in value from $200,000 to $1,000,000 require 18 months on average to complete and revenue is recorded evenly over 18 months commencing the month the contract is awarded. Contracts with a value in excess of $1,000,000 require 36 months on average to complete and revenue is recorded evenly over 36 months commencing the month the contract is awarded. Certain other large contracts are administered on a project management basis and the actual cost of the project is recorded as revenue in each accounting period over the entire life of the project. Management recognizes that some revenue is earned prior to contract award date but is of the opinion that the accounting principle of matching cost and revenue is not seriously violated since, on average, revenue will be accruing on other contracts that have been completed.

(ii) Employee benefits (termination benefits and vacation pay) accrue to employees over their years of service with the Government of Canada as provided for under collective agreements. The total liability of these benefits is not accrued, however, the actual expenses are recorded in the period in which they are incurred. The unaccrued liability is reflected in Note 8.

(b) Depreciation

Depreciation is calculated on a straight-line basis over the established useful life of the fixed assets, generally 5 to 10 years.

3. Inventories

	1985	1984
	$	$
Raw materials and finished goods	17,274,339	15,176,214
Work-in-process	2,741,050	1,689,410
	20,015,389	16,865,624

4. Sales and cost of sales

For consolidation purposes, sales and cost of sales in the amount of $9,178,313 ($17,774,310 in 1984) have been eliminated.

5. Insurance

The Supply Revolving Fund does not carry insurance on either its own property or the property of others held in its warehousing operations. This is in accordance with the Government's policy of self insurance.

6. Fixed assets and accumulated depreciation

(a) Depreciation in the amount of $1,170,239 has been included in the cost of sales in the statement of operations.

(b) September 1, 1984 fixed assets were acquired from the National Film Board in the amount of $601,556 (original cost $1,109,037 *less* accumulated depreciation $507,481 — Net $601,556) and leasehold improvements in the amount of $26,738 (net of amortization). The acquisitions have been reflected at gross value in the two following schedules:

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1985—*Concluded*

7. Net investment in electronic data processing (EDP) equipment leases

The Treasury Board, on March 2, 1976, authorized the Supply Revolving Fund to purchase designated electronic data processing (EDP) equipment approved by Treasury Board for client departments. The capital, interest and other costs are recoverable from departments over a one to five year period under direct financing leasing agreements. Title to the equipment remains with the Supply Revolving Fund. Payments by the client departments for the long-term investment in leases are due—$60,708 in 1986-87 and $42,067 in 1987-88 and $48,781 in 1988-89.

8. Employee benefits liability

The unaccrued liability for employee benefits consists of termination benefits and vacation pay.

	1985	1984
	$	$
Termination benefits	29,860,615	28,781,847
Vacation pay	7,609,610	7,348,653
	37,470,225	36,130,500

9. Deferred acquisition contract fees

In accordance with the Department's policy of smoothing revenue for certain types of contracts as detailed in Note 2(a)(i), the value of deferred acquisition fees as well as the cost of uncompleted contracting work as at March 31, 1985 amounted to $33,832,001 ($33,949,558 in 1984).

10. Prior years' sales tax

The Fund was assessed an amount of $543,784 by Revenue Canada for federal sales tax on in-house manufactured printing. As this amount is applicable to prior years' operations, it has been recorded as an extraordinary item on the statement of operations.

11. Correction of prior year's financial statements

An adjustment in the amount of $1,272,937 has been made to the 1984 financial statements to correct the valuation of work-in-process. This adjustment resulted in a reduction to inventory and net profit.

12. Restatement of prior year's figures

Certain 1984 figures have been restated to conform with the 1985 presentation requirements.
